La fugitive Albertine disparue Present Past Modernity and the Memory Crisis Cornell University Press

For many, Proust is the supreme European writer of the twentieth century. This book tackles his achievement head-on. Art, death, sex, politics, loss, guilt, morality -- Proust's major revealed and explained here. Proust Among the Stars is a matchless close reading of Remembrance of Things Past and a lesson in how to read the great books profitably and pleasurably. Malcolm Bowie asserts that Proust's novel is one of the great exercises in speculative imagining in the world's literature; and that its originality lies first in the quality of Proust's invention, page after page, line after line. Proust's world constantly shimmers with a sense of multiple possibilities and is at the same time infused with the urge to order, obsessively to organize. Bowie examines how Proust achieves this in his writing, as opposed to his themes, plots, or theories. An original, beautiful, and deeply moving book, Proust Among the Stars shows how Proust's work deepens our understanding of our lives and ourselves.

Albertine disparue

This book is about memory—about how the past persists into the present, and about how this persistence has been understood over the past two centuries. Since the French Revolution, memory has been the source of an intense disquiet. Fundamental cultural theories have sought to understand it, and have striven to represent its stresses.

A la recherche du temps perdu is a hybrid, a novel-essay, a capacious work of fiction containing a commonplace-book. Science and Structure explores the epistemological alertness and anxiety of Proust's masterpiece and in so doing illuminates the interrelations between 'modernist' art and science. Proust is read as a writer of maxims and metaphors, of short and long sentences, as at once an aesthete and a scientific thinker.

In an interview given in 1913, Proust described the as-yet-uncompleted A la recherche du temps perdu as a series of «Romans de l'Inconscient». This study explores the theme of the unconscious in Proust's great novel, situating it against a backdrop of nineteenth-century models of the mind, and tracing its connections with major metaphoric and thematic networks in the novel. Dreams and spoken language in particular emerge as crucial sites of unconscious mental activity, providing a wealth of material on which one can base a comparative study of Proustian and Freudian models of the mind.

"An ambitious study, the fruit of sustained work over many years. Professor Carter's book deploys a stunning knowledge of Proust and places Carter among the first line of Proust scholars in the country." —Roger Shattuck, Boston University The Proustian Quest is the first full-length study that explores the influence of social change on Proust's vision. In Remembrance of Things Past, Proust describes how the machines of transportation and communication transformed fashion, social mores, time-space perception, and the understanding of the laws of nature. Concentrating on the motif of speed, Carter establishes the centrality of the modern world to the novel's main themes and produces a far-reaching synthesis that demonstrates the work's profound structural unity.

Notre propos est d'étudier le comique de l'hybridation et l'exhibition du comique dans les formes dramatiques et paradramatiques contemporaines. Notre champ d'investigation se propose d'être transversal. Il ne sera ni limité strictement à une époque donnée, ni aux auteurs français ou francophones. Une première partie étudiera le comique en question. Une seconde s'attachera à la poétique du rire. La troisième examinera les principales formes du comique moderne.0La quatrième

définira le grotesque hybride et le burlesque exhibé. La cinquième examinera les modalités d'application de l'hybridation ainsi que de l'exhibition en montrant comment le théâtre contemporain entraîne le spectateur du Bouffon Hilarant aux salves du Rire. Les traits saillants du devenir du comique dans le théâtre contemporain seront ainsi abordés, dégagés.

The importance of vision and visual arts such as painting, theatre, and sculpture in Marcel Proust's *A la recherche du temps perdu* has long been affirmed; another significant system of visual representation in the novel is photography. Proust appropriated photography as a practice with its own distinctive characteristics which could inform his writing about the processes of perception and memory. Through close textual analysis of scenes where photography is experienced or observed as a practice, and scenes where photography is written into the body of the text, Aine Larkin offers an invigorating new study that sheds genuinely new light on the presence of photographic motifs in Proust's novel, and the subtlety of Proust's engagement with this modern imaging system in his work.

"Chevillard, Echenoz"

Bollettino del C.I.R.V.I.

Cet ouvrage se propose de faire des 'mobiles', les instruments du déplacement symptomatique, le point de départ d'une approche et d'une vision originales. Présenter une sorte de 'revue' inédite, de 'défilé' dans la rue – loin des salons – des personnages

A chaque rentrée littéraire, le nombre de romans publiés ne cesse de croître. Et même si tous, loin s'en faut, ne dépassent pas le temps d'une saison, il en est qui demeurent et qui témoignent de la vitalité et de la qualité de la littérature française d'aujourd'hui. Jean Echenoz et Eric Chevillard sont de ceux-là. Par des analyses à la fois précises et profondes, les auteurs du présent volume explorent leurs œuvres respectives ainsi que quelques autres en interrogeant des parentés lointaines ou inattendues et prenant l'histoire littéraire à rebours. Bien que le dispositif épistémologique qui préside à l'acte d'écrire ait changé, la littérature continue de décliner les mêmes paradigmes. Sans doute s'agit-il là d'une tâche critique nécessaire sinon majeure : retracer ou réinventer des filiations entre les écrivains – au sein d'un domaine en expansion et en perpétuelle transformation.

Proust

In Celebration of the 75th Anniversary of Swann's Way (1913-1988)

La fugitive : (Albertine disparue) / éd. du texte, introd., bibliogr., chronol. par Jean Milly. fugi,2

*The association of ideas became the foundation of Freudian psychoanalysis, informed the nascent semiology of Saussure, and characterized the literary works of Sterne, Joyce, Woolf, and especially Marcel Proust. The author of *Remembrance of Things Past*, acutely aware of how philosophical, historical, and narrative writing intersected, gave years of thinking and planning to his multivolume masterpiece. Its shape was protean. Each successive volume reconfigured the previous ones and in 1987 Proust readers welcomed the publication of several new editions, among them the *Bibliothèque de la Pléiade*, which presented as many pages of variants as of text. *The Proustian Fabric* engages the complex layers of association to be found in Proust's work. According to Christie McDonald, "*Remembrance of Things Past* straddles the dominant thinking patterns of two centuries: the nineteenth, in which the association of fragmentary thought was to be subsumed into the notion of a totality, and the twentieth, in which the notion of associative thinking was to move toward an infinite process of referral and interpretation." Imbued with McDonald's discerning knowledge of Proust's intellectual and historical milieu, his compendious writing and his critics, *The Proustian Fabric* is one of the first books to take into account the rich variations of the new editions and to reexamine certain suppositions about Proust's methods, as well as his concern with philosophy, literature, art, and politics.*
