***la turmenten... La nena de la piga haurà d'aprendre a creure en els seus poders i a encarar-se amb l'amor, una descoberta imprevista i molt més perillosa del que es podia imaginar... Intellectual, cultural, and film historians have long considered neorealism the founding block of post-World War II Italian cinema. Neorealism, the traditional story goes, was an Italian film style born in the second postwar period and aimed at recovering the reality of Italy after the sugarcoated moving images of Fascism. Lasting from 1945 to the early 1950s, neorealism produced world-renowned masterpieces such as Roberto Rossellini's Roma, città aperta (Rome, Open City, 1945) and Vittorio De Sica's Ladri di biciclette (Bicycle Thieves, 1947). These films won some of the most prestigious film awards of the immediate postwar period and influenced world cinema. This collection brings together distinguished film scholars and cultural historians to complicate this nation-based approach to the history of neorealism. The traditional story notwithstanding, the meaning and the origins of the term are problematic. What does neorealism really mean, and how***

***Italian is it? Italian filmmakers were wary of using the term and Rossellini preferred “realism.” Many filmmakers confessed to having greatly borrowed from other cinemas, including French, Soviet, and American. Divided into three sections, Global Neorealism examines the history of this film style from the 1930s to the 1970s using a global and international perspective. The first section examines the origins of neorealism in the international debate about realist esthetics in the 1930s. The second section discusses how this debate about realism was “Italianized” and coalesced into Italian “neorealism” and explores how critics and film distributors participated in coining the term. Finally, the third section looks at neorealism’s success outside of Italy and examines how film cultures in Latin America, Africa, Asia, and the United States adjusted the style to their national and regional situations.***

Francesco Koslovic—even his name straddles two cultures. And during the spring of 1955, in the village of Materada on the Istrian Peninsula, his two worlds are coming apart. Materada, the first volume of Fulvio Tomizza's celebrated Istrian Trilogy, depicts the Istrian exodus of the hundreds of thousands who had once thrived in a rich ethnic mixture of Italians and Slavs. Complicating Koslovic's own departure is his attempt to keep the land that he and his brother have worked all their lives. A picture of a disappearing way of life, a tale of feud and displacement, and imbued with the tastes, tales, and songs of his native Istria, Koslovic's story is a testament to the intertwined ethnic roots of Balkan history.

In 1327, Brother William of Baskerville is sent to investigate charges of heresy against Franciscan monks at a wealthy Italian abbey but finds his mission overshadowed by seven bizarre murders.

*Although a year has passed, not a day goes by without Meggie thinking of the extraordinary events of Inkheart, and the story whose characters strode out of the pages, and changed her life forever. But for Dustfinger, the fire-eater, torn from his world of words, the need to return has become desperate. When he finds a crooked storyteller with the magical ability to read him back, he sets in motion a dangerous reversal that sees the characters of Inkheart transported to a charmed Inkworld, about to be fought over by rival rebels and princes. But can Meggie, Farid and Fenoglio 'write' the wrongs of a charmed world about to be fought over by rival princes and rebels?*

*The time of Carnival represents a “wild” time at the end of winter and pointing to the beginning of a new season. It is characterized by the irruption of border figures, animal masks, characters which recall the world of the dead and which bring within themselves the germ of a vital force, of the energy that produces the reawakening of nature and announces the growth and fertility of the new crops. This wild domain shows itself under the shapes of a contiguity between human and animal: the costumes, the masks, refer to a world in which the characteristics of the human and those of the animal are fused and intertwined. Among these figures, in particular, emerge those of the Wild Man, the human being who takes on animal-like attributes and aspects, and of the Bear, the animal that, more than all the others, gets as close as possible to the human and seems to reflect a deformed image of it. Such symbolic images come from far off times and*

The first female Van Helsing to take up the sword and do battle with the denizens of Hell, Adelia lived some seven centuries ago. Dragon Hunter ' s Handbook is in fact a prequel to both Demon and Vampire Hunter, and like these two books it weaves practical advice about combating dragons with a journal of Adelia's most terrifying encounters. Within these pages are notes on identifying different types of dragon, proven tactics for defeating them, effective weaponry and armor, and how to find their lairs. Interwoven with this useful information is the tale of Adelia ' s battle against the most terrifying foe of her career, a dragon simply known as " The Ancient. " Traveling to a remote Tibetan village she discovers that far from being a dwindling threat, dragons are regrouping and are about to unleash monstrous revenge on the human race. Faced with a power even she cannot resist, she summons the dragon ' s most fearsome opponent, the servants of hell. *This volume investigates the ways in which Italian women writers, filmmakers, and performers have represented female identity across genres from the immediate post-World War II period to the turn of the twenty-first century. Considering genres such as prose, poetry, drama, and film, these essays examine the vision of female agency and self-actualization arising from women artists' critique of female identity. This dual approach reveals unique interpretations of womanhood in Italy spanning more than fifty years, while also providing a deep investigation of the manipulation of canvases historically centered on the male subject. With its unique coupling of generic and thematic concerns, the volume contributes to the ever expanding female artistic legacy, and to our understanding of postwar Italian women's evolving relationship to the narration of history, gender roles, and these artists' use and revision of generic convention to communicate their vision.*
