'State sovereignty' is often referred to as an obstacle to criminal justice for core international crimes by members of the international criminal justice movement. The exercise of State sovereignty is seen as a shield against effective implementation of such crimes. But it is sovereign States that create and become parties to international criminal law treaties and jurisdictions. They are the principal enforcers of criminal responsibility for international crimes, as reaffirmed by the complementarity principle on which the International Criminal Court (ICC) is based. Criminal justice for atrocities depends entirely on the ability of States to act. This volume revisits the relationship between State sovereignty and international criminal law along three main lines of inquiry. First, it considers the immunity of State officials from the exercise of foreign or international criminal jurisdiction. Secondly, with the closing down of the ad hoc international criminal tribunals, attention shifts to the exercise of national jurisdiction over core international crimes, making the scope of universal jurisdiction more relevant to perceptions of State sovereignty. Thirdly, could the amendments to the ICC Statute on the crime of aggression exacerbate tensions between the interests of State sovereignty and accountability? The book contains contributions by prominent international lawyers including Professor Christian Tomuschat, Judge Erkki Kourula, Judge LIU Daqun, Ambassador WANG Houli, Dr. ZHOU Lulu, Professor Claus Kre, Professor MA Chengyuan, Professor JIA Bingbing, Professor ZHU Lijiang and Mr. GUO Yang.

In 1978 Italy passed a deeply radical law closing all its mental health hospitals. This was the culmination of the growth and development of a very strong anti-psychiatry movement which had sprung up in the late 1960's. Both the law, the movement, and its aftermath have been much discussed in Britain, America and other European countries because of the need to reconsider their own mental health care policies, but up to now there has been a lack of reliable literature on which to base the discussion. The Politics of Mental Health in Italy provides for the first time a scholarly and very balanced account of events and phenomena that have been previously presented in a more idiosyncratic and polemical fashion. Michael Donnely introduces, documents and comments critically on the three phases of the Italian experience: the late sixties mental health movement; the drafting and passage of the 1978 law; and the aftermath of deinstitutionalisation, which has disappointed its supporters and kept the whole topic at the centre of public debate.
