As theatre and drama of the Romantic Period undergo a critical reassessment among scholars internationally, the contributions of women as playwrights, actresses, and managers are also being revalued. This volume, which brings together leading British, North American, and Italian critics, is a crucial step towards reclaiming the importance of women's dramatic and theatrical activities during the period. Writing for the theatre implied assuming a public role, a hazardous undertaking for women who, especially after the French Revolution, were assigned to the private, primarily domestic, sphere. As the contributors examine the covert strategies women used to become full participants in the public theatre, they shed light on the issue of women's agency, expressed both

4
through the writing of highly
politicized or ethicized drama, as in
the case of Elizabeth Inchbald or
Joanna Baillie, and through women's
professional practice as theatre
managers and stage producers, as in
the case of Elizabeth Vestris and Jane
Scott. Among the topics considered
are women's history plays,
domesticity, ethics and sexuality in
women's closet drama, the politics of
drama and performance, and the role
of women as managers and
producers. Specialists in performance
studies, Romantic Period drama, and
women's writing will find the essays
both challenging and inspiring.
Carol Lazzaro-Weiss studies the
fiction of twenty-five contemporary
Italian women writers. Arguing for a
notion of gender and genre, she runs
counter to many Anglo-American and

French feminist theorists who
4 contend that traditional genres
cannot readily serve as vehicles for
feminist expression.

Dissonant Vehicles of Gender

A Thematic and Structural Study

This volume is an exploration of the innovative ways in which three generations of women writers in modern Italy have dealt with history - both as narration of events and the events themselves. The essays challenge traditional historiography and foster a rereading of history based on the tenets of feminist historicism.

They also claim a central role for fiction in the construction of women's history and in a rereading of Italian history.

Brian Hamnett examines key historical novels by Scott, Balzac, Manzoni, Dickens, Eliot, Flaubert, Fontane, Galdâos, and Tolstoy, revealing the contradictions inherent in this form of fiction and exploring the challenges writers encountered in attempting to represent a reality that linked past and present.

The Literary World

Giuliana Minghelli uses Italo Svevo's parodic Darwinian fable of the prehistoric encounter between the weak and 'unfinished' man and an incommensurable other to reassess his eccentric contribution to 20th century literature.

This book investigates Anna Banti's contribution to the creation of a female literary canon, as well as the renewal of Italian literature, from stylistic and thematic

4
points of view. The book
examines Banti's
contribution from a two-
pronged perspective: as a
promoter of female
individuality and
independence, in contrast to
the existent paternal order;
and as an innovator of the
Italian novel, in particular,
the Italian historical novel.
This study mainly
concentrates on the
historical novel, *La camicia
bruciata*, published in 1973.
The analysis of the *Camicia
bruciata* examines the
structure of the historical
novel - Anna Banti's

4
representations of her male
and female characters and
their capacity for
relationships - and the
difference between the
fictional story created by
Anna Banti, and the
historical facts narrated in
The House of Medici by Sir
Christopher Hibbert and The
Last Medici by Harold
Acton. The purpose of this
analysis is to show how
Banti's personal experience,
mainly her idea of married
life and motherhood,
influenced her narrative and
her characters.

mother with three young

upon examples ranging from
contemporary advice
manuals and novels to the
work of turn-of-the-century
Italian scientists and women
writers, as well as fairy tales,
religious texts,
psychoanalytic accounts,
and feminist theory.

Throughout her
investigations of the various
forces that shape cultural
views of pregnancy and
childbirth, Mazzoni strives to
imagine and deploy
maternity as a concept and a
reality capable of

4
challenging conventional
representations of
subjectivity. The questions
she addresses dwell on
relationship and
interdependence, the
inseparability of the personal
and the political, and the
connections and interactions
between bodies and power.
Maternal Impressions is far
more than a book of literary
criticism and theory. It
reveals the multiple bonds
and continuities between the
contradictory ways in which
pregnancy and childbirth
were represented a century
ago and the manner in which

4
*they still haunt feminist
experience today. In her
conclusion, Mazzoni points
toward a possible ethics of
maternity.*

*The close friendship between
Charlotte Brontë and Mary
Taylor began in boarding
school and lasted for the rest
of their lives. It was Mary
Taylor, in fact, who inspired
Brontë to leave her
oppressive parsonage home
and go to Brussels, the
eventual setting for her
novel, *Villette*. Mary herself
led a much less restricted
life, especially in her later
years as a feminist essayist*

4
who strongly urged women to consider their "first duty" to be working to support themselves. In *Miss Miles*, her only novel, Taylor breaks with tradition by creating a profoundly feminist and morally intense work which depicts women's friendships as sustaining life and sanity through all of the vicissitudes of Victorian womanhood. She also introduces an innovative narrative form which Janet Murray (who has written an introduction for this edition) calls a "feminist *bildungsroman*": the story of

4
the education of several heroines which emphasizes their friendship and economic and mental well-being rather than their love lives. Set in the small Yorkshire village of Repton against the backdrop of starvation in the wool districts and the rise of Chartism in the 1830s, this recovered feminist classic chronicles the lives of four disparate and individually ambitious women as they learn to find their own voices and support one another. The novel's emphasis on the healing power of women's

relationship between Brontë
and Taylor herself. Originally
published in 1890, Miss Miles

This book bridges the fields of Children's Literature and Italian Studies by examining how turn-of-the-century children's books forged a unified national identity for the new Italian State. Through contextualized close readings of a wide range of texts, Truglio shows how the 19th-century concept of recapitulation, which held that ontogeny (the individual's

development) repeats
4 phylogeny (the evolution
of the species),
underlies the strategies
of this corpus. Italian
fairy tales, novels,
poems, and short stories
imply that the personal
development of the child
corresponds to and hence
naturalizes the
modernizing development
of the nation. In the
context of Italy's
uneven and ambivalent
modernization, these
narrative trajectories
are enabled by a
developmental

melancholia. Using a psychoanalytic lens, and in dialogue with recent Anglophone Children's Literature criticism, this study proposes that national identity was constructed via a process of renouncing and incorporating paternal and maternal figures, rendered as compulsory steps into maturity and modernity. With chapters on the heroic figure of Garibaldi, the Orientalized depiction of the South, and the

4
role of girls in

formation narratives,
this book discloses how
melancholic itineraries
produced gendered
national subjects. This
study engages both well-
known Italian texts,
such as Collodi's *The
Adventures of Pinocchio*
and De Amicis' *Heart*,
and books that have
fallen into obscurity by
authors such as Baccini,
Treves, Gianelli, and
Nuccio. Its approach and
corpus shed light on
questions being examined

rigorous account of the Gothic in British, American and Continental European culture, from the Romantic period through to the Victorian fin de siècle. Here, leading scholars in the fields of literature, theatre, architecture and the history of science and popular entertainment explore the Gothic in its numerous interdisciplinary forms and guises, as well as across a range of different international contexts. As much a cultural history of the Gothic in this period as an account of the ways in which the Gothic mode has participated in the formative historical events of modernity, the volume offers fresh perspectives on familiar themes while also drawing new critical attention to a range of hitherto overlooked concerns. From Romanticism, to Penny Bloods, Dickens and even the railway system,
