

Language In Use Pre Intermediate Self Study Workbook Answer Key

Language in Use is a new course for learners of English at pre-intermediate level. It is intended for learners who have already studied some English, either recently or some time ago, and who now need to develop their overall competence before moving on to intermediate level. The course has a dual syllabus, in which units dealing with vocabulary alternate with units focusing on grammar. This provides systematic exposure to the most important features of English at this level, as well as natural recycling of language in a variety of contexts throughout the course.

A popular and highly acclaimed four-level course which both interests and stretches learners. Each of the four levels comprises about 80 hours of class work, with additional time for the self-study work. The Teacher's Book contains all the pages from the Classroom Book, with interleaved teaching notes offering not only detailed support and guidance, but also many optional activities to cater for different abilities. There is a video to accompany the Beginner, Pre-Intermediate and Intermediate levels.

Relay Pre-Intermediate Classroom Book

This is part of a course specifically designed for pre-intermediate learners, allowing those who come from a broad range of previous learning situations to enter at this level and make progress, without presupposing knowledge from another coursebook.

A new addition to the Language in Use series for 1997 will be photocopiable progress tests for the Pre-intermediate level. They are to be used at regular intervals in the teaching programme, and can easily be managed in class time. There are four progress tests and a summary test which cover grammar, vocabulary, spelling, reading, writing and listening. Oral testing is also provided. The features which distinguish Language in Use:

- flexibility The innovative Teacher's Book material allows teachers to tailor the material.
- dual syllabus Alternating units on grammar and vocabulary.
- clarity The clear organisation of the material makes the
