**The author of *I'll Never Be French* returns to his faux-pas-filled Francophile life in this "smart, delicious memoir of life off the beaten track in France" (Julie Barlow, author of *The Bonjour Effect*). Despite the two decades that have passed since Mark Greenside's snap decision to buy a house in Brittany and begin a bi-continental life, the quirks of French living still manage to confound him. Returning once again to the small Breton town of Plobien, he finds himself humbled by imminent concerns: What does he cook for a French person? Who has the right-of-way when entering a roundabout? Where does he pay for a parking ticket? And most dauntingly of all, when can he touch the tomatoes? (Not Quite) Mastering the Art of French Living details Greenside's daily adventures in his adopted French home, where the simplest tasks are never straightforward but always end in a great story. Greenside's beloved 2009 memoir, *I'll Never Be French*, introduced the English-speaking world to the region of Brittany in the tradition of Peter Mayle's homage to Provence. Experienced Francophiles and armchair travelers alike will delight in this new chapter exploring the practical and philosophical questions of French life. A WALL STREET JOURNAL BESTSELLER**

Americans often look back on Paris between the world wars as a charming escape from the enduring inequalities and reactionary politics of the United States. In this bold and original study, Brooke Blower shows that nothing could be further from the truth. She reveals the breadth of American activities in the capital, the lessons visitors drew from their stay, and the passionate responses they elicited from others. For many sojourners-not just for the most famous expatriate artists and writers- Paris served as an important crossroads, a place where Americans reimagined their position in the world and grappled with what it meant to be American in the new century, even as they came up against conflicting interpretations of American power by others. Interwar Paris may have been a capital of the arts, notorious for its pleasures, but it was also smoldering with radical and reactionary plots, suffused with noise, filth, and chaos, teeming with immigrants and refugees, communist rioters, fascism admirers, overzealous police, and obnoxious tourists. Sketching Americans' place in this evocative landscape, Blower shows how arrivals were drawn into the capital's battles, both wittingly and unwittingly. Americans in Paris found themselves on the front lines of an emerging culture of political engagements-a transatlantic matrix of causes and connections, which encompassed debates about "Americanization" and "anti-American" protests during the Sacco-Vanzetti affair as well as a host of other international incidents. Blower carefully depicts how these controversies and a backdrop of polarized European politics honed Americans' political stances and sense of national distinctiveness. A model of urban, transnational history, *Becoming Americans in Paris* offers a nuanced portrait of how Americans helped to shape the cultural politics of interwar Paris, and, at the same time, how Paris helped to shape modern American political culture.

Shares recipes that reflect the author's philosophies about simple preparation, seasonal ingredients, and satisfying flavors, providing complementary recommendations for entertaining, menu planning, and wine selection.

Le Petit Paris

A lavishly illustrated treasury of more than 100 recipes from Italy's Amalfi coast describes the husband-and-wife team's shared adventures in and out of the kitchen and includes a variety of crispy pizzas, seafood-topped pastas and homemade tarts.

Largely shut out of American theaters since the 1920s, foreign films such as *Open City*, *Bicycle Thief*, *Rashomon*, *The Seventh Seal*, *Breathless*, *La Dolce Vita* and *L'Avventura* played after World War II in a growing number of art houses around the country and created a small but influential art film market devoted to the acquisition, distribution, and exhibition of foreign-language and English-language films produced abroad. Nurtured by successive waves of imports from Italy, Great Britain, France, Sweden, Japan, and the Soviet Bloc, the renaissance was kick-started by independent distributors working out of New York; by the 1960s, however, the market had been subsumed by Hollywood. From Roberto Rossellini's *Open City* in 1946 to Bernardo Bertolucci's *Last Tango in Paris* in 1973, Tino Balio tracks the critical reception in the press of such filmmakers as François Truffaut, Jean-Luc Godard, Federico Fellini, Michelangelo Antonioni, Tony Richardson, Ingmar Bergman, Akira Kurosawa, Luis Buñuel, Satyajit Ray, and Milos Forman. Their releases paled in comparison to Hollywood fare at the box office, but their impact on American film culture was enormous. The reception accorded to art house cinema attacked motion picture censorship, promoted the director as auteur, and celebrated film as an international art. Championing the cause was the new “cinophile” generation, which was mostly made up of college students under thirty. The fashion for foreign films depended in part on their frankness about sex. When Hollywood abolished the Production Code in the late 1960s, American-made films began to treat adult themes with maturity and candor. In this new environment, foreign films lost their cachet and the art film market went into decline.

The memoir of a young diplomat's wife who must reinvent her dream of living in Paris—one dish at a time When journalist Ann Mah's diplomat husband is given a three-year assignment in Paris, Ann is overjoyed. A lifelong foodie and Francophile, she immediately begins plotting gastronomic adventures à deux. Then her husband is called away to Iraq on a year-long post—alone. Suddenly, Ann's vision of a romantic sojourn in the City of Light is turned upside down. So, not unlike another diplomatic wife, Julia Child, Ann must find a life for herself in a new city. Journeying through Paris and the surrounding regions of France, Ann combats her loneliness by seeking out the perfect pain au chocolat and learning the way the andouillette sausage is really made. She explores the history and taste of everything from boeuf Bourguignon to soupe au pistou to the crispiest of buckwheat crepes. And somewhere between Paris and the south of France, she uncovers a few of life's truths. Like Sarah Turnbull's *Almost French* and Julie Powell's *New York Times* bestseller *Julie and Julia*, *Mastering the Art of French Eating* is interwoven with the lively characters Ann meets and the traditional recipes she samples. Both funny and intelligent, this is a story about love—of food, family, and France.

A vital rethinking of memory and the moving image for the digital age, Isabelle McNeill investigates the role of the moving image in cultural memory, considering the impact of digital technologies on visual culture. Drawing on an interdisciplinary range of theoretical resources and an unusual body of films and moving image works, the author examines the ways in which recent French filmmaking conceptualises both the past and the workings of memory. Ultimately the author argues that memory is an intersubjective process, in which filmic forms continue to play a crucial role even as new media come to dominate our contemporary experience. *Memory and the Moving Image*:\*Introduces new ways of thinking about the relation between film and memory, arising from a compelling, interdisciplinary study of theories and films\*Subtly explores the French context while drawing theoretical conclusions with wider implications and applicability\*Provides detailed and illuminating close readings of varied moving image works to aid theoretical explorations\*Moves away from auteurist approaches, examining work by canonical directors including Jean-Luc Godard, Chris Marker and AgnA\*s Varda alongside that of less well-known filmmakers such as Claire Simon and Yamina Benguigui\*Brings together thinkers such as Bergson, Deleuze, Bazin and Barthes with, for example, Rodowick and Mulvey, in an engaging interweaving of theories.Works considered include Jean-Luc Godard's *Histoire(s) du CinA(c)ma* (1989-98), Yamina Benguigui's *MA(c)moires d'ImmigrA(c)s* (1997), Chris Marker's *CD-ROM Immemory* (1998), Claire Simon's *Mimi* (2003), Michael Haneke's *CachA(c)* (2005) and AgnA\*s Varda's multi-media exhibition, *L'Alle et Elle* (2006).

As the twentieth century dawned and France entered an era of extraordinary labor activism and industrial competition, an insistently romantic vision of the Parisian garment worker was deployed by politicians, reformers, and artists to manage anxieties about economic and social change. Nostalgia about a certain kind of France was written onto the bodies of the capital's couture workers throughout French pop culture from the 1880s to the 1930s. And the *midinettes*—as these women were called—were written onto the geography of Paris itself, by way of festivals, monuments, historic preservation, and guide books. The idealized working Parisienne stood in for, at once, the superiority of French taste and craft, and the political (and sexual) subordination of French women and labour. But she was also the public face of more than 80,000 real working women whose demands for better labour conditions were inflected, distorted, and, in some cases, amplified by this ubiquitous Romantic type in the decades straddling World War I. *Working Girls* bridges cultural histories of the Parisian imaginary and histories of French labour, and puts them in raucous dialogue with one another: a letter by a nineteen-year-old seamstress, a speech by a government minister; a frothy Parisian guide by a bon vivant, the

minutes of a union meeting; a bawdy café-concert song, a policy brief on garment working conditions.
