

## Leaside Arena Public Skating

History of the game of hockey and the teams who pursued the first Stanley Cup during the early 1900's.

"Reports of cases determined in the courts of Ontario."  
(varies)

The 'Inclusion Through Media' partnership has involved many imaginative and productive collaborations between creative media professionals and young and excluded people in cities and regions of the UK and Europe. Using media as a means of working with, and empowering marginalised people in their communities is a practice that has emerged strongly in recent years, nurtured by the extraordinary growth of digital media and the Web. These developments have enabled a participatory culture -particularly online- one in which young people are now more able to represent themselves and their concerns through digital media. This book offers first hand accounts of work across and beyond Inclusion Through Media, alongside critical analysis of many of the processes involved, and the policy issues it raises. It suggests ways in which working with media with disenfranchised groups can contribute to social cohesion and inclusion, and so points the way towards new media, youth and social policy. The book includes an accompanying DVD.

The Second Mark

True Confessions Of A (Crazy) Hockey Parent

The Troubled Future of Real Estate

The Brad Park Story

Torontonensis, 1959

*This is a celebration of the beauty of our gardens and of the deep lessons and meanings they whisper to us as we spend time with them. For Sinclair, gardening is about much more than planting bulbs and thinning perennials; it is about more than weeding beds and maintaining walkways, more than sculpting shrubs and trimming trees -- though it can involve all of these things.*

*Gardening is a deeply spiritual experience and practice. Like all spiritual practice, it is ultimately about connection. It is about balance and harmony, about memory and hope, about healing and acceptance, and even, in this increasingly paved-over world, about revolution. Lavishly illustrated with stunning, full-colour photographs, Sinclair's expansive and beautifully crafted vision honours the blessings of sunlight, earth, water and air found in our*

***own gardens, and, in so doing, awakens us to a deep love and compassion for planet earth, the original garden paradise -- a precious gift from the source of all love and beauty.***

***The Spirituality of Gardening***

A young couple in Toronto starts house-hunting with a \$450,000 budget and ends up with a \$700,000 home, after losing fifteen bidding wars. In Vancouver the average bungalow soars past \$900,000. In Saskatoon, house values rock higher 56 per cent in one year. At the same time, real estate values in the US plunge for the first time since the Great Depression. Millions of families are forced out of their homes.

Canadians are told it can't happen here, while first-time buyers outside Toronto sign up for monster houses with virtually no down payment and 40-year mortgages for 98 per cent of the cost. When the average family can no longer afford the average home, how can so many people be deluded into believing a boom will last forever when none has before? How could we have put so much money into something we might never be able to sell, except to a greater fool? Truth is, homeowners and homebuyers have been seduced by a cabal made up of real estate marketers, builders, lenders and bankers, along with a pliant media, to buy, buy, buy. Canada has its own, hidden debt crisis just as dire as the subprime mortgage fiasco, and the same self-dealing industry tactics have led us to put more than 80 per cent of our net worth into a single asset, ignoring the obvious threats and repeating the disastrous mistakes of others. Are we next? Yes.

In 1967 the Toronto Maple Leafs won the Stanley Cup in a stunning defeat of the mighty Montreal Canadiens. No other Leafs team has been able to do it again. As the

years pass, the legend grows. The men who were the Leafs in 1967—a scrappy group of aging players and unsung youngsters—were the kings of the hockey universe. However, within five years of that victory things had changed drastically for many members of the team: two key members of the team, Tim Horton and Terry Sawchuk, were dead due to alcohol and drug-related issues, and Harold Ballard, the man who had succeeded Smythe as King of Carlton Street, was in jail. Sixty-Seven is not just another hockey book about that legendary team; it is a unique and total look at the contradictions, the legends, the shame and the glory of '67, telling previously untold stories from inside that unforgettable dressing room and far beyond it.

It was billed as the greatest event in the history of pair skating: three of the best teams of all time battling for Olympic gold on one night in Salt Lake City. Technical ability was approximately equal. It was the artistic merit score that would decide the gold medal -- the second mark. Representing Canada, China, and Russia, the three pairs illuminated their distinct cultures. On the second mark, whose culture would triumph? Would it be the beauty of the Russians' ballet on ice, the thrill of the Chinese pair's heart-stopping acrobatics, or the Canadians' passionate connection with the audience? In a down-to-the-wire nail-biter, the difference between gold and silver came down to the vote of a single judge. Hours later, a bombshell: the confession of a French judge unleashed a worldwide debate -- and ultimately produced an unprecedented duplicate gold medal. The Second Mark reveals what an athlete really goes through to become the best in the world, through the riveting stories of unforgettable people. We meet Yelena Berezhnaya of Russia, who survives emergency brain surgery after a near-fatal training accident and makes it back to the Olympics in less than two years. We meet Zhao Hongbo, a young boy skating in subzero weather in remotest China, who will fulfill his coach's twenty-year dream of catching up to the West. And we meet two Canadians, a barista and a concession stand worker, who had almost quit the sport before deciding to give it one last try -- and becoming world champions. Exhaustively researched by a skating insider, The Second Mark takes readers deep into the world of the Olympic athlete, illuminating the fascinating differences between East and West. From the frozen fields of China to the secret corridors of the old Soviet sports system, from a tiny farm village in remotest Quebec to the judges' backstage world, The Second Mark tells the compelling human stories behind one of the most controversial nights in Olympic history.

Shifting the Balance

A Tale

***Concentrating on the planning and design of cities, the three sections take a logical route through the discussion from the broad considerations at regional and city scale, to the larger city at high and lower densities through to design considerations on the smaller block scale. Key design issues such as access to facilities, access for sunlight, life cycle analyses, and the impact of communications on urban design are tackled, and in conclusion, the research is compared to large scale design examples that have been proposed and/or implemented over the past decade to give a***

**The modern day youth sports environment has taken the enjoyment out of athletics for our children. Currently, 70% of kids drop out of organized sports by the age of 13, which has given rise to a generation of overweight, unhealthy young adults. There is a solution. John O'Sullivan shares the secrets of the coaches and parents who have not only raised elite athletes, but have done so by creating an environment that promotes positive core values and teaches life lessons instead of focusing on wins and losses, scholarships, and professional aspirations. Changing the Game gives adults a new paradigm and a game plan for raising happy, high performing children, and provides a national call to action to return youth sports to our kids.**

Leaside is a most comprehensive look at the people, significant events and built heritage, all of which contributed to the creation of this distinctive community. Named after John Lea, a successful farmer, whose house, built in 1829, is believed to be the first brick house in York County, Leaside grew from a railway settlement into a prosperous urban town. With its roots embedded in the history of three railways, Leaside has a unique industrial heritage that played a key role in the war effort during both World Wars, including its being the site of munitions plants, a wooden plane factory, and a base for the Royal Flying Corps. Leaside was also home to the Durant Motors of Canada, and later the Nash cars, Canada Wire and Cable, and the popular Thorncliffe Race Track. Did you know that Canada's first airmail delivery touched down in Leaside and that an Olympic calibre ski jump once operated in the Don Valley? Jane Pitfield's Leaside represent a nostalgic journey into the heritage of a most remarkable neighbourhood, still proudly retaining its identity as part of Toronto. Looking back over the past 75 years, there is no doubt that public transportation has played a major role in the development and maturing of Toronto and its metropolitan area. Indeed, despite the fiscal challenges facing it, the TTC today remains a transit agency with an enviable reputation. The TTC Story: The First Seventy-five Years, by Mike Filey, features over one hundred magnificent black and white images selected to illustrate the principal "transit" event in each year of the TTC's existence. The photographs have been selected from the Commission's vast archival collection by its knowledgeable archivist, Ted Wickson. Each event is fully described and put into its local, national, and worldwide historical context through the use of entertaining and informative text.

When a crisis strikes, the first 120 minutes can determine the public's perceptions of

*the school system, employee group, community college, university or ministry, and the image the organization will have long after the situation is under control. This document defines a crisis and the need for crisis management; the result of a crisis that is not managed; the key elements of good crisis management as exemplified by Johnson & Johnson, Wisconsin Electric Power Co., and Molson Breweries; the need for communication planning and establishment of credibility before the crisis strikes; elements of a communication plan; measures to take during an actual crisis, using the example of a teachers' strike; and principles of crisis management.*

*THE GREATEST GIFT Saturday Santa is the climactic final romance of Kate Moore's Canyon Club series A prince of privilege, Jack Ryker returns to LA determined to stop an enemy he unleashed from his past. Christmas is the last thing on his mind when he takes refuge in a house high above the ocean guarded by a team of security experts. Scarred and trapped in a specially made chair, every day from his beachside window Jack watches a beautiful woman coax a faltering old man on their daily walk. Jack doesn't know why, but he's determined to meet her. Mari Lynch loves her job directing events at an upscale mall, especially at Christmas. This year her cheer plummets when a stroke prevents her grandpa from being the mall's favorite Saturday Santa. Forced to find a replacement, she's at a loose end. Jack and Mari's worlds collide and he topples her ideas about dating while she thaws his frozen heart. The truth about his past stands between them, and could cost Mari her life. When Jack's enemy comes after the woman he loves, he knows now he truly has everything to lose.*

*A revealing look at the good, the bad, and the ugly of minor hockey culture Known as TSN's "Hockey Insider," Canada's Bob McKenzie is synonymous with the sport and one of its most respected analysts. In Hockey Dad, McKenzie describes firsthand the joys and heartbreak of raising two sons, with entirely diverging athletic futures. He details their separate paths, describing Michael, a 22-year-old playing NCAA hockey on scholarship, and Shawn, now 19, whose competitive minor hockey life was cut short at age 14 because of multiple concussions. Their deeply personal stories, and the trials and tribulations of a father creating futures for them, offer readers a compelling look into the world and culture of minor hockey. Includes funny anecdotes, debates on numerous hockey issues, and*

*personal reflections on the game and its culture With an unwavering look at his own strengths and weaknesses, as well as the entire system of minor hockey in Canada, Hockey Dad is an honest, irreverent and sometimes moving look at a sporting culture that is not so much a recreation as it is a way of life.*

Digital transformation expert Mark Schruttt reveals how the world's top companies are using vast amounts of data to inform their decisions, disrupt industries, and get closer to their customers. Businesses that continue to rely only on intuition do so at their peril. What if you had the data you always wanted and could tell what was truly an emerging trend that would forever change your industry? *Shifting the Balance* analyzes the turn towards data-driven decision-making and describes how best-in-class organizations use data to shift their field of vision so it is forward-looking instead of reactive. Case studies with practical examples of how leading businesses address key challenges on the path to becoming data-driven include:

- How companies such as Hewlett-Packard and Land O' Lakes, whose industries are defined by resellers, are connecting directly with their customers to improve satisfaction and relevancy
- How data-driven decision-making shaped the largest one-sided deal in sports, paying the owners of a team that did not play a game for 40 years over \$800 million
- How companies such as Peloton and UberEats are using data-driven decision-making to disrupt and reimagine the fitness and restaurant industries
- What professional sports franchises such as the Oakland A's, Philadelphia Eagles, and Toronto Maple Leafs can teach us about using data in game-changing business decisions

*Shifting the Balance* offers a roadmap that will enable organizations to make better business decisions that drive even better results, and provides a fascinating read along the way.

Watch out, Sarah Palin -- here comes Rob Ford! Love him or hate him, Rob Ford and his public (mis)statements are endlessly entertaining, often antagonizing, and always outrageous. For the first time ever, here are more than 100 of the best quips, quotes, jabs, and gaffes from one of Canada's most colourful and controversial politicians. Whether he infuriates you or fascinates you, *The Little Book of Rob Ford* is a must-have for fans and foes alike!

*Seitsemän veljestä* (The Brothers Seven), the 1870 Finnish novel by Aleksis Kivi (1834-1872), is one of the most (in)famously unknown classics of world literature—unknown not only because so few people in the world can read Finnish, but also because the novel is so incredibly difficult to translate, the Mount Everest of translating from Finnish. It is difficult to translate not only because it blends a saturation in Homer, Shakespeare, Dante, Cervantes, and the Bible with a brilliantly stylized form of local dialect, but because it is wild, grotesque, carnivalistic, and laugh-out-loud funny on every page. It has been translated 58 times into 34 languages—but somehow the translations always seem to fall short of their flamboyant original. Douglas Robinson's new translation is a bold attempt to remedy that. He aims to make Kivi as rhythmic, as alliterative, as brash, as grotesque, and as funny in English as he is in Finnish. Since Kivi deliberately used an archaic Finnish, but used it playfully—and since Kivi was steeped in Shakespeare, to the point of memorizing whole plays—Robinson translates him into a playful Shakespearean register. As he notes in his Preface, this makes the translation a bit difficult to read—but the original is difficult for Finns to read as well, and

the Finnish readers who love Kivi (and that is most of them) read him with pleasure despite the words they don't know, because his prose is so intensely alive.

The official biography of an NHL legend By the time he retired, Brad Park had surpassed the great Bobby Orr in career assists by a defenseman. Inducted into the Hockey Hall of Fame the first year he was eligible, and later named one of the Top 100 NHL players of all time by The Hockey News, Park will forever be remembered as one of the greatest men ever to take the ice. The first and only authorized biography of Park's life and career, *Straight Shooter: The Brad Park Story*, delves deeper into his legendary success than any book has before, bringing together exclusive, candid insights from Park himself, as well as interviews with dozens of players, family members, and key figures from the hockey world. Covering Park's early years growing up in Toronto, to his first exposure to the NHL with the New York Rangers and his stellar performance with the Boston Bruins, through the twilight of his career and retirement, the book examines every aspect of his remarkable life in unprecedented detail. Giving hockey fans a full, frank look at the career of an NHL legend—including the challenges Park faced in his personal life, including caring for his physically handicapped son—*Straight Shooter* is a fascinating look at one of the game's true greats. Offers a fascinating insight into the life of Brad Park, one of the greatest defensemen the NHL has ever seen Covers Park's life in detail, from his time with the Rangers and Bruins to his experiences with Team Canada in the 1972 Summit Series Features a Foreword from hockey legend Don Cherry Working closely with Park himself, writer and researcher Thom Sears has created a thorough, authorized biography of one

of the NHL's greatest legends and an essential read for hockey fans everywhere.

Deep Diversity

Torontonensis, 1963

The Life and Death of Steve Montador and the Future of Hockey

Greater Fool

'67: The Maple Leafs

A Study

*First, Ken Dryden articulated our undying love for hockey in *The Game*, one of the best books ever written on the sport. Then he spoke to our national pride and examined what hockey really means to Canadians in *Home Game*. Now, in his most daring and powerful work yet, the NHL Hall-of-Famer and former MP issues a challenge to make hockey safer, or risk losing it altogether. Bobby Orr. Gordie Howe. Wayne Gretzky. Whether you are a hockey fan or not, these names mean something to you. They show that a single player can, and often has, changed the game for the better. Hockey is now more skilled and more tactful and, like pro football and basketball, the players are bigger, stronger, and faster. This is the game that Steve Montador gave his life to. Steve was never the fastest, the strongest, or the most skilled player on the ice. He was never a star. But yet, he changed the game as we know it when he was found dead at the age of 35, later diagnosed with CTE-the result of multiple concussions he sustained throughout his playing career. With extensive research and insightful interviews with friends and former players such as Rhet Warrener, Marc Savard, Keith Primeau, as well as with leading figures in the fields of neurobiology and sports concussions, Ken Dryden tells the remarkable life story of an unremarkable journeyman NHL defenseman-a life story that brings to the fore the underlying concerns of the way we play hockey at all levels. In the end, Dryden outlines a plan directed to players, fans, parents, and most of all to decision makers at the NHL, that can make the sport safer for everyone, without sacrificing the integrity of the game.*

*Another laugh-out-loud book from the author of *The Paper Bag Princess*! Thomas thinks his new snowsuit is the ugliest thing he has ever seen in his whole entire life. When his mother, his teacher, and even his principal try to get him to put it on, his answer is, "NNNNNO." A newly designed Classic Munsch picture book introduces this tale of sartorial stubbornness to a young generation of readers. "This publication, *Safety in Ice Hockey: Fourth Volume*, contains a collection of research papers presented at the Fourth Symposium on Ice Hockey held 5-6 May 2002 in Pittsburgh, Pennsylvania, in conjunction with the standards development meetings of Committee F08. This symposium was the fourth in a series: the first being held in 1987 in Montreal, the second in 1992 in Pittsburgh, and the third in 1997 in St. Louis. The objective of the symposium and corresponding publications has been to review the current state-of-the-art and science of ice hockey injury prevention."*
