reflects the integrated, dynamic reality of businesses today. Business in the Contemporary Legal Environment is a well-written, comprehensive coursebook providing complete coverage of the areas typically included in a one-semester legal environment course. This user-friendly text is written in a less formal style, avoiding "black letter law" statements whenever possible, and uses a combination of classic and contemporary cases to clearly illustrate the law. Every chapter begins with a Classic Case, a case from the past that helped to set the precedents for the material covered in the chapter. The authors then conclude each chapter with a Contemporary Case, a recent decision that shows a current application of one of the principles discussed in the chapter. In addition, helpful

discussion questions and "You Decide" hypotheticals are included at the end of each chapter for further emphasis, as well as well-designed exhibits throughout the book, which help make the concepts easier to understand.

Dynamic Business Law: The Essentials is appropriate for the one-semester Business Law course. It contains the basics of business law but does not get bogged down in the kind of details that are more appropriate in an upper-level law class. The text provides an examination of the basic questions, concepts, and legal rules of business law. Emphasis on the BUSINESS in business law. Dynamic

Business Law: The Essentials emphasizes the tie of legal issues back to the core business curriculum. This will help both students and faculty. Faculty need to know how this is integrated as they are constantly 'defending' the inclusion of this course in the business curriculum. And students need to understand how the concepts tie to their future business careers. Emphasis on TEACHING. Many professors teaching this course are attorneys first and academics second. They do not have a lot of time to prepare or think about how to apply this information effectively for their business students. Dynamic Business

Law: The Essentials contains a helpful instructor's manual, particularly for the many adjuncts teaching this course. Emphasis on CRITICAL THINKING. Neil Browne, one of the co-authors of this text, has written a successful text on critical thinking. His framework is included in Dynamic Business Law: The Essentials as well – to help students learn how to frame and reframe a question/issue. Critical thinking questions are also included at the end of each case, to tie in this component even further.
