

Les Feuilles Mortes

Émilie and her friend play in the autumn leaves and help her father gather and burn them.

"Songwriting" is both a comprehensive course for beginning and experienced songwriters and a rich source of new ideas, inspiration, and tricks of the trade for those who have already achieved professional standing. This new edition not only contains all of the original volume's cogent advice on how to write the always-popular genres - the country song, the ballad, and the love song - but it has been revised to include: examples of hard rock, acid, heavy metal, bubblegum, hip-hop, salsa, rap, gangsta, reggae, ska, soul, and many other of today's most recorded styles; finding a song concept, distilling the hook, choosing a form, adding harmony and selecting rhythm; an appendix telling how to copyright, computerize, notate, record, and sell your song; and full glossary of musical and songwriting terms, an explanation of rap-speak with a useful section on rhyme for rap songs, many musical examples of well-known songs, and a complete index. For the novice, Stephen Citron goes step-by-step through the writing of a song presupposing no prior knowledge of notation, harmony, rhythmic values, or rhyme. For the more experienced songwriter, "Songwriting" will serve as a one-stop reference and as an endless source of fresh ideas.

Songwriting

This book sets out some of the practical techniques Jan Fleuger has used with children of all ages and abilities, and most of the ideas can also be applied to adult learners. These practical strategies are aimed at reducing both pupil and teacher anxiety and provides a deep understanding of the psychological dynamics of the modern language classroom. The result is an enjoyable book, entertainingly written and bursting with tips for busy Modern Language teachers.

By taking you through the development of a real web application from beginning to end, the second edition of this hands-on guide demonstrates the practical advantages of test-driven development (TDD) with Python. You'll learn how to write and run tests before building each part of your app, and then develop the minimum amount of code required to pass those tests. The result? Clean code that works. In the process, you'll learn the basics of Django, Selenium, Git, jQuery, and Mock, along with current web development techniques. If you're ready to take your Python skills to the next level, this book—updated for Python 3.6—clearly demonstrates how TDD encourages simple designs and inspires confidence. Dive into the TDD workflow, including the unit test/code cycle and refactoring Use unit tests for classes and functions, and functional tests for user interactions within the browser Learn when and how to use mock objects, and the pros and cons of isolated vs. integrated tests Test and automate your deployments with a staging server Apply tests to the third-party plugins you integrate into your site Run tests automatically by using a Continuous Integration environment Use TDD to build a REST API with a front-end Ajax interface

Falling autumn leaves, bare winter branches, bushfires and quarantine—these are poems that chronicle the ordinary and strange in our times. In the midst of the coronavirus pandemic, Matthew Pullar's latest collection of poems seeks to find space for grief and for our neighbour in the same open heart.

Much poetic writing in France in the post-1945 period is set in an elemental landscape and expressed through an impersonal poetic voice. It is therefore often seen as primarily spatial and cut off from human concerns. This study of three poets, André du Bouchet, Philippe Jaccottet and Bernard Noël, who have not been compared before, argues that space is inseparable from time in their work, which is always in transition. The different ways in which the provisional operates in their writing show the wide range of forms that modern poetry can take: an insistence on the figure of the interval, hesitant movement, or exuberant impulse. As well as examining the imaginative universes of the poets through close attention to the texts, this book considers the important contribution they have made in their prose writing to our understanding of the visual arts and poetry translation, in themselves transitional activities. It argues that these writers have, in different ways, succeeded in creating poetic worlds that attest to close and constantly changing contact with the real.

Cultural Diplomacy and Mixed Messages

Recueil de chansons canadiennes et françaises

This volume is the first book-length account of Yves Montand's controversial tour of the Soviet Union at the turn of the years 1956/57. It traces the mixed messages of this internationally visible act of cultural diplomacy in the middle of the turbulent Cold War. It also provides an account of the celebrated French singer-actor's controversial career, his dedication to music and to peace activism, as well as his widespread fandom in the USSR. The book describes the political background for the events of the year 1956, including the changing Soviet atmosphere after Stalin's death, portrays the rising transnational stardom of Montand in the 1940s and 1950s, and explores the controversies aroused by his plan to visit Moscow after the Hungarian Uprising. The book pays particular attention to Montand's reception in the USSR and his concert performances, drawing on unique archival material and oral history interviews, and analyses the documentary Yves Montand Sings (1957) released immediately after his visit. A classic anthology of late nineteenth and early twentiethcentury French poetry. first published in 1958, is available in a new edition, featuring an introduction by musicianpoet Patti Smith, that incleues worksin both the original French text and outstanding translationby Baudelaire, Rimbaud, Verlaine, Apollinaire, and other great poets. Reprint.

The volume presents current research in the field of Systematic Musicology at the Institute of Musicology, University of Hamburg. Internationally leading research like the unique 'Acoustic Camera' developed at the Institute or a real-time hardware implementation of Physical Modeling as well as important contributions to the field of Musical Neurocognition and Psychology, like Forensic Music Psychology, or the development of a Syllogistic Music Theory addresses hot topics in Systematic Musicology today. Der Band präsentiert die aktuelle Forschung der Systematischen Musikwissenschaft am Institut für Musikwissenschaft, Universität Hamburg. Bei der international führenden Forschung, wie etwa der weltweit größten 'Akustischen Kamera', welche am Institut entwickelt wurde, oder der Echtzeit-Hardware-Implementierung von physikalischer Modellierung wie auch bei wichtigen Beiträgen auf den Gebieten der Musikalischen Neurokognition und Musikalischen Psychologie, z.B. der Forensischen Musikpsychologie oder der Entwicklung einer Syllogistischen Musiktheorie, handelt es sich um Schlüsselthemen heutiger Musikwissenschaft.

The critical role of Europe in the music, personalities, and analysis of jazz

This volume brings together three books of poetry by Matthew Pullar, The Swelling Year, Les Feuilles Mortes and Anno Domini, taking you on a journey through sacred and ordinary time and the different seasons of the soul and the world around us. Moving from the everyday experience of suburban life to the distress of the COVID-19 pandemic, Pullar's poetry gives voice to the struggle to find the holy and lasting in a changeable and fragile world.
