In this compelling examination of the intersection of smart technology and the law, Joshua A. T. Fairfield explains the crisis of digital ownership - how and why we no longer control our smartphones or software-enable devices, which are effectively owned by software and content companies. In two years we will not own our 'smart' televisions which will also be used by advertisers to listen in to our living rooms. In the coming decade, if we do not take back our ownership rights, the same will be said of our self-driving cars and software-enabled homes. We risk becoming digital peasants, owned by

software and advertising companies, not to mention overreaching governments. Owned should be read by anyone wanting to know more about the loss of our property rights, the implications for our privacy rights and how we can regain control of both.

#1 NEW YORK TIMES BESTSELLER □ OPRAH'S BOOK CLUB PICK □ NATIONAL BOOK AWARD LONGLIST □ "An instant American classic and almost certainly the keynote nonfiction book of the American century thus far."—Dwight Garner, *The New York Times* The Pulitzer Prize-winning, bestselling author of *The Warmth of Other Suns* examines the unspoken caste system that has shaped America and shows how our lives today are still defined by a hierarchy of human divisions. NAMED THE #1 NONFICTION BOOK OF THE YEAR BY TIME, ONE OF THE TEN BEST BOOKS OF THE YEAR BY People □ The Washington Post □ Publishers Weekly AND ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review □ O: The Oprah Magazine □ NPR □ Bloomberg □ Christian Science Monitor □ New York Post □ The New York Public Library □ Fortune □ Smithsonian Magazine □ Marie Claire □ Town & Country □ Slate □ Library Journal □ Kirkus Reviews □ LibraryReads □ PopMatters Winner of the Los Angeles Times Book Prize □ National Book Critics Circle Award Finalist □ Dayton Literary Peace Prize Finalist □ PEN/John Kenneth Galbraith Award for Nonfiction Finalist □ PEN/Jean Stein Book Award Longlist "As we go about our daily lives, caste is the wordless usher in a darkened theater, flashlight cast down in the aisles, guiding us to our assigned seats for a performance. The hierarchy of caste is not about feelings or morality. It is about power—which groups have it and which do not." In this brilliant book, Isabel Wilkerson gives us a masterful portrait of an unseen phenomenon in America as she explores, through an immersive, deeply researched narrative and stories about real people, how America today and throughout its history has been shaped by a hidden caste system, a rigid hierarchy of human rankings. Beyond race, class, or other factors, there is a powerful caste system that influences people's lives and behavior and the nation's fate. Linking the caste systems of America, India, and Nazi Germany, Wilkerson explores eight pillars that underlie caste systems across civilizations, including divine will, bloodlines, stigma, and more. Using riveting stories about people—including Martin Luther King, Jr., baseball's Satchel Paige, a single father and his toddler son, Wilkerson herself, and many others—she shows the ways that the insidious undertow of caste is experienced every day. She documents how the Nazis studied the racial systems in America to plan their

out-cast of the Jews; she discusses why the cruel logic of caste requires that there be a bottom rung for those in the middle to measure themselves against; she writes about the surprising health costs of caste, in depression and life expectancy, and the effects of this hierarchy on our culture and politics. Finally, she points forward to ways America can move beyond the artificial and destructive separations of human divisions, toward hope in our common humanity. Beautifully written, original, and revealing, *Caste: The Origins of Our Discontents* is an eye-opening story of people and history, and a reexamination of what lies under the surface of ordinary lives and of American life today.
