“There are more than 50 creative prompts for the artist (or artist at heart) to explore. Take the title of this book as affirmation, and get started.” —Fast Company More than 50 assignments, ideas, and prompts to expand your world and help you make outstanding new things to put into it Curator Sarah Urist Green left her office in the basement of an art museum to travel and visit a diverse range of artists, asking them to share prompts that relate to their own ways of working. The result is *You Are an Artist*, a journey of creation through which you'll invent imaginary friends, sort books, declare a cause, construct a landscape, find your band, and become someone else (or at least try). Your challenge is to filter these assignments through the lens of your own experience and make art that reflects the world as you see it. You don't have to know how to draw well, stretch a canvas, or mix a paint color that perfectly matches that of a mountain stream. This book is for anyone who wants to make art, regardless of experience level. The only materials you'll need are what you already have on hand or can source for free. Full of insights, techniques, and inspiration from art history, this book opens up the processes and practices of artists and proves that you, too, have what it takes to call yourself one. *You Are an Artist* brings together more than 50 assignments gathered from some of the most innovative creators working today, including Sonya Clark, Michelle Grabner, The Guerrilla Girls, Fritz Haeg, Pablo Helguera, Nina Katchadourian, Toyin Ojih Odutola, J. Morgan Puett, Dread Scott, Alec Soth, Gillian Wearing, and many others.

Part biography, part guidebook to the contemporary environmental movement, this book is the perfect gift for future and current activists and changemakers! *Girls Who Green the World* features the inspiring stories of 34 revolutionaries fighting for our future! An inspired collection of profiles, featuring environmental changemakers, social entrepreneurs, visionaries and activists. Journalist Diana Kapp has crisscrossed this country writing for and about empowered girls, girls who expect to be leaders, founders and inventors. This book takes it a step further. It says to girls: while you're striving to be CEOs and world leaders, consider solving the biggest challenge of our lifetime, too—because you can do both at the same time, and here are 34 women doing just that. "This book is epic." —Cosmopolitan "A hopeful and moving love story." —Publishers Weekly Fangirl meets Simon vs. the Homo Sapiens Agenda in this "sensitive and complex" (BCCB) coming-of-age novel from New York Times bestselling author Christina Lauren about two boys who fall in love in a writing class—one from a progressive family and the other from a conservative religious community. Three years ago, Tanner Scott's family relocated from California to Utah, a move that nudged the bisexual teen temporarily back into the closet. Now, with one semester of high school to go, and no obstacles between him and out-of-state college freedom, Tanner plans to coast through his remaining classes and clear out of Utah. But when his best friend Autumn dares him to take Provo High's prestigious Seminar—where honor roll students diligently toil to draft a book in a semester—Tanner can't resist going against his better

judgment and having a go, if only to prove to Autumn how silly the whole thing is. Writing a book in four months sounds simple. Four months is an eternity. It turns out, Tanner is only partly right: four months is a long time. After all, it takes only one second for him to notice Sebastian Brother, the Mormon prodigy who sold his own Seminar novel the year before and who now mentors the class. And it takes less than a month for Tanner to fall completely in love with him.

"One of the most interesting and useful books ever written on networking."—Adam Grant *Social Chemistry* will utterly transform the way you think about "networking." Understanding the contours of your social network can dramatically enhance personal relationships, work life, and even your global impact. Are you an Expansionist, a Broker, or a Convener? The answer matters more than you think. . . . Yale professor Marissa King shows how anyone can build more meaningful and productive relationships based on insights from neuroscience, psychology, and network analytics. Conventional wisdom says it's the size of your network that matters, but social science research has proven there is more to it. King explains that the quality and structure of our relationships has the greatest impact on our personal and professional lives. As she illustrates, there are three basic types of networks, so readers can see the role they are already playing: Expansionist, Broker, or Convener. This network decoder enables readers to own their network style and modify it for better alignment with their life plans and values. High-quality connections in your social network strongly predict cognitive functioning, emotional resilience, and satisfaction at work. A well-structured network is likely to boost the quality of your ideas, as well as your pay. Beyond the office, social connections are the lifeblood of our health and happiness. The compiled results from dozens of previous studies found that our social relationships have an effect on our likelihood of dying prematurely—equivalent to obesity or smoking. Rich stories of Expansionists like Vernon Jordan, Brokers like Yo-Yo Ma, and Conveners like Anna Wintour, as well as personal experiences from King's own world of connections, inform this warm, engaging, revelatory investigation into some of the most consequential decisions we can make about the trajectory of our lives.

Book two of Ellen Potter's charming new illustrated early chapter book series set on an island off the coast of Maine, where kids, lobster boats, and a hint of magic are part of everyday life. As far as Piper Green is concerned, the day started out lucky:

- Lucky thing #1: Her mom is painting Piper's bedroom her favorite color.
- Lucky thing #2: Piper found a perfect strawberry at breakfast.
- Lucky thing #3: Piper lost a tooth.

And as everyone knows, tooth + tooth fairy = ka-ching! There's just one problem. According to her friend Jacob, too much good luck can sometimes equal bad luck. And when Piper gets to school that day, Bad Luck is waiting for her. Will the Fairy Tree in Piper's front yard be enough to break her unlucky streak?

The instant #1 New York Times bestseller. From the reporter who was there at the very beginning comes the revealing inside story of the partnership between Steve Bannon and Donald Trump—the key to understanding the rise of the alt-right, the fall of Hillary Clinton, and the hidden forces that drove the greatest upset in American political history. Based on dozens of interviews conducted over six years, Green spins the master narrative of the 2016 campaign from its origins in the far fringes of right-wing politics and reality television to its culmination inside Trump's penthouse on election night. The shocking elevation of Bannon to head Trump's flagging presidential campaign on August 17, 2016, hit political Washington like a thunderclap and seemed to signal the meltdown of the Republican Party. Bannon was a bomb-throwing pugilist who'd never run a campaign and was despised by Democrats and Republicans alike. Yet Bannon's hard-edged ethno-nationalism and his elaborate, years-long plot to destroy Hillary Clinton paved the way for Trump's unlikely victory. Trump became the avatar of a dark but powerful worldview that dominated the airwaves and spoke to voters whom others couldn't see. Trump's campaign was the final phase of a populist insurgency that had been building up in America for years, and Bannon, its inscrutable mastermind, believed it was the culmination of a hard-right global uprising that would change the world. Any study of Trump's rise to the presidency is unavoidably a study of Bannon. *Devil's Bargain* is a tour-de-force telling of the remarkable confluence of circumstances that decided the election, many of them orchestrated by Bannon and his allies, who really did plot a vast, right-wing conspiracy to stop Clinton. To understand Trump's extraordinary rise and Clinton's fall, you have to weave Trump's story together with Bannon's, or else it doesn't make sense.

Becca McKenzie is happy-crazy, ridiculously happy. She might not have figured out what she wants to do with her life, but she has something better-Ryan Jackson-and they couldn't be more in love if they tried. He might have been pissed when she went off to a

different college, but they make the long distance work because they're "Becca and Ryan", and nothing is going to break them. Until it does. Until one terrible, unforgettable night away from Ryan. Until too much drinking and one empty bedroom. Until fifteen minutes of hell completely destroys her life and leaves Becca questioning everything she's ever known. Until that night turns into a lie she can't stop-can't control. Until she said no but he didn't listen.

A Flash of Green tells the gripping story of small-town corruption and two people brave enough to fight back, featuring many of the themes John D. MacDonald explored better than anyone in his legendary career as a leading crime novelist. Introduction by Dean Koontz. The opportunists have taken over Palm City. Silent and deadly, like the snakes that infest the nearby swamps, they lay hidden from view, waiting for the right moment to strike. Political subterfuge has already eased the residents toward selling out. All that's left now is to silence a few stubborn holdouts. James Wing is only trying to help a friend's widow. At least that's what he tells himself after warning Kat Hubble that the beautiful bay she and her neighbors have struggled to save is going to be sold to developers. He knows that he shouldn't have told her anything. He's a reporter, trained to reveal nothing. But he's falling in love with her. Now cutthroats have set their sights on Kat—and they'll do anything, use anyone, to stop her from interfering in their plans. Praise for John D. MacDonald "John D. MacDonald was the great entertainer of our age, and a mesmerizing storyteller."—Stephen King "The first modern writer to nail Florida dead-center, to capture all its languid sleaze, racy sense of promise, and breath-grabbing beauty."—Carl Hiaasen "To diggers a thousand years from now, the works of John D. MacDonald would be a treasure on the order of the tomb of Tutankhamen."—Kurt Vonnegut

"Transported me effortlessly...Haunting, harrowing and heartbreaking, this is a novel that will stay with you." --Ashley Audrain, New York Times bestselling author of The Push "A ghost story and fantastically gripping psychological investigation rolled into one. It is also a pitch-perfect piece of writing. . . . As with Shirley Jackson's work or Sarah Waters's masterpiece Affinity, in Stonex's hands the unspoken, unexamined, unseen world we can call the supernatural, a world fed by repression and lies, becomes terrifyingly tangible." --The Guardian (London) Inspired by a haunting true story, a gorgeous and atmospheric novel about the mysterious disappearance of three lighthouse keepers from a remote tower miles from the Cornish coast--and about the wives who were left behind. What strange fate befell these doomed men? The heavy sea whispers their names. Black rocks roll beneath the surface, drowning ghosts. And out of the swell like a finger of light, the salt-scratched tower stands lonely and magnificent. It's New Year's Eve, 1972, when a boat pulls up to the Maiden Rock lighthouse with relief for the keepers. But no one greets them. When the entrance door, locked from the inside, is battered down, rescuers find an empty tower. A table is laid for a meal not eaten. The Principal Keeper's weather log describes a storm raging round the tower, but the skies have been clear. And the clocks have all stopped at 8:45. Two decades later, the keepers' wives are visited by a writer determined to find the truth about the men's disappearance. Moving between the women's stories and the men's last weeks together in the lighthouse,

long-held secrets surface and truths twist into lies as we piece together what happened, why, and who to believe. In her riveting and suspenseful novel, Emma Stonex writes a story of isolation and obsession, of reality and illusion, and of what it takes to keep the light burning when all else is swallowed by dark.

Recognized by millions across the country, thanks in part to her flawless blond highlights and Botox-smoothed skin. An adoring husband and a Princeton-bound daughter. Peyton is that woman. She has it all. Until . . . Skye, her sister, is a stay-at-home mom living in a glitzy suburb of New York. She has degrees from all the right schools and can helicopter-parent with the best of them. But Skye is different from the rest. She's looking for something real and dreams of a life beyond the PTA and pickup. Until . . . Max, Peyton's bright and quirky seventeen-year-old daughter, is poised to kiss her fancy private school goodbye and head off to pursue her dreams in film. She's waited her entire life for this opportunity. Until . . . One little lie. That's all it takes. For the illusions to crack. For resentments to surface. Suddenly the grass doesn't look so green. Becca McKenzie is just trying to make it through her senior year of high school. She has good friends and a gorgeous boyfriend but Ryan Jackson, the bane of her existence, keeps popping up everywhere. She doesn't care that they were best friends for years. She doesn't care that their moms are close and therefore she hears more about him than she'd ever care to know. She doesn't care that their mutual friend, Jake, keeps pushing for them to all to hang out together, and she especially doesn't care that the rest of the school bows down and worships him. Becca decided years ago that he wasn't worth her time and nothing, NOTHING, is going to change her mind.

From the Publishers Weekly review: "Two experts from Yale tackle the business wake-up-call du jour—environmental responsibility—from every angle in this thorough, earnest guidebook: pragmatically, passionately, financially and historically. Though "no company the authors know of is on a truly long-term sustainable course," Esty and Winston label the forward-thinking, green-friendly (or at least green-acquainted) companies WaveMakers and set out to assess honestly their path toward environmental responsibility, and

its impact on a company's bottom line, customers, suppliers and reputation. Following the evolution of business attitudes toward environmental concerns, Esty and Winston offer a series of fascinating plays by corporations such as Wal-Mart, GE and Chiquita (Banana), the bad guys who made good, and the good guys-watchdogs and industry associations, mostly-working behind the scenes. A vast number of topics huddle beneath the umbrella of threats to the earth, and many get a thorough analysis here: from global warming to electronic waste "take-back" legislation to subsidizing sustainable seafood. For the responsible business leader, this volume provides plenty of (organic) food for thought. "

Dear Reader, My name is Aaron Thompson and, while I might be an important part of this story, this story isn't mine. It's my best friend Bess's story, and I was just lucky enough to be part of it. Bess met her husband Eli when we were still kids, they fell in love, they got married, and then their marriage fell apart. They hate one another now, and they can barely be in the same room together for more than five minutes without Bess wanting to scratch Eli's eyes out. Before they can finalize the divorce, however, they have to clean out the old cabin at Lake Fisher, so they can sell it. You see, this is where I come into the story, mainly because the safety and care of three precious little beings rests on whether or not they can find their way back together. I won't ask them to pretend like they're in love; it's obvious how much disdain they have for one another. All I ask is that they give me one more summer. I do have my own reasons for wanting to help them, which I will explain in more detail. But right now, just know that Bess and Eli's story is an important one, and that I was honored to play a part in it. Best regards, Aaron

NEW YORK TIMES BESTSELLER The complete, uncensored history of the award-winning *The Daily Show* with Jon Stewart, as told by its correspondents, writers, and host. For almost seventeen years, *The Daily Show* with Jon Stewart brilliantly redefined the borders between television comedy, political satire, and opinionated news coverage. It launched the careers of some of today's most significant comedians, highlighted the hypocrisies of the powerful, and garnered 23 Emmys. Now the show's behind-the-scenes gags, controversies, and camaraderie will be chronicled by the players themselves, from legendary host Jon Stewart to the star cast members and writers—including Samantha Bee, Stephen Colbert, John Oliver, and Steve Carell — plus some of *The Daily Show*'s most prominent guests and adversaries: John and Cindy McCain, Glenn Beck, Tucker Carlson, and many more. This oral history takes the reader behind the curtain for all the show's highlights, from its origins as Comedy Central's underdog late-night program to Trevor Noah's succession, rising from a scrappy jester in the 24-hour political news cycle to become part of the beating heart of politics—a trusted source for not only comedy but also commentary, with a reputation for calling bullshit and an ability to effect real change in the world. Through years of incisive election coverage, passionate debates with President Obama and Hillary Clinton, feuds with Bill O'Reilly and Fox, and provocative takes on Wall Street and racism, *The Daily Show* has been a cultural touchstone. Now, for the first time, the people behind the show's seminal moments come together to share their memories of the last-minute rewrites, improvisations, pranks, romances, blow-ups, and moments of Zen both on and off the set of one of America's most groundbreaking shows.

"I would love you forever, if I only had the chance..." Kacey

Dawson has always lived life on the edge--impulsively, sometimes recklessly. And now, as lead guitarist for a hot up-and-coming band, she is poised at the brink of fame and fortune. But she is

torn between wanting to be a serious musician, and the demons that lure her down the glittering, but alcohol-soaked path of rock stardom. A wrecked concert in Las Vegas threatens to ruin her career entirely. She wakes up with the hangover from hell and no memory of the night before, or how she ended up on her limo driver's couch... Jonah Fletcher is running out of time. He knows his situation is hopeless, and he's vowed to make the most of the handful of months he has left to him. His plans include seeing the opening of his glass installation at a prestigious art gallery...they do not include falling in love with a wild, tempestuous rock musician who wound up passed out on his couch. Jonah sees that Kacey is on a path to self-destruction. He lets her crash with him for a few days to dry out and get her head on straight. But neither of them expected the deep connection they felt, or how that connection could grow so fast from friendship into something more. Something deep and pure and life-changing...something as fragile as glass, that they both know will shatter in the end no matter how hard they try to hold on to it. Full Tilt is a story about what it means to love with your whole heart, to sacrifice, to experience terrible grief and soaring joy. Hi! I'm Emma Green, you might know me from my best-selling title, "How I Lost 100 Pounds!" I am so glad I could create this title for you. In truth, if you want to live healthily, you must eat wisely. And generally-speaking, there is definitely a lot of nutrient availability missing from store-bought, commonly used, "regular" foods. If we think about our nutrition more definitively, it remains true that the commonly used or more "inadequate" foods can definitely support life. We know this from our experience in living day-to-day. But then it must also be true that "herbal" or "super" foods must, in turn, be able to fortify, help, sustain, and aid the body, more-dramatically so. Even energizing our bodies to the point of purer health, weight loss shedding, and healing bliss, in many instances. Through definitive research, I've learned that the amazing qualities in herbs and superfoods are truly our "forgotten" foods. And because of their unusual or pungent tastes and smells, we've negated them, historically speaking. This also happened because of our diminished knowledge concerning their usage, and because they were (unfortunately) eliminated as a food source; seeing later generations ignoring them altogether. In reality, we must follow this ideal criterion: it does matter what we eat; we need all kinds of food to live; diet extremes will harm health.

Thankfully, and more recently, there has been a greater interest in these lost and forgotten foods on the world stage. And in this title, *Herbs and Superfoods for Weight Loss and Detox*, we'll discover an amazing list of herbs and superfoods, and we'll take a look into the history, benefits and scientific evidence, negatives and cautions, how to use, taste, and even where to source them from. Including an all-inclusive look at: licorice root, gynostemma, he shou wu, velvet antler, reishi mushrooms, goji berries, astragalus root, cinnamon, gotu kola, acai berries, and many, many more! Remember, over time, our bodies build up poisons and store waste from food that is not fully eliminated. It is raw food that helps us to detoxify the body, by flushing out these poisons and setting us back on a course toward a promotion of greater energy, clearer skin, shinier hair, and a slimmer, more-natural figure, too. But making the transition to a raw diet too quickly can have negative effects on the body. Instead, the much healthier way is to make a gentle change; one that's based on your previous diet and current nutritional needs. For a definitive look at the forgotten herbs and superfoods, and a discussion of the importance of them in your life, please get your copy of this comprehensive title, today. It's fully planned and backed by thorough research, and its knowledge base can definitively enhance your life and your overall well-being.

THE INSTANT #1 NEW YORK TIMES BESTSELLER "Sparkling with mystery, humor and the uncanny, this is a fun read. But beneath its effervescent tone, more complex themes are at play." —San Francisco Chronicle In his wildly entertaining debut novel, Hank Green—cocreator of *Crash Course*, *Vlogbrothers*, and *SciShow*—spins a sweeping, cinematic tale about a young woman who becomes an overnight celebrity before realizing she's part of something bigger, and stranger, than anyone could have possibly imagined. The Carls just appeared. Roaming through New York City at three a.m., twenty-three-year-old April May stumbles across a giant sculpture. Delighted by its appearance and craftsmanship—like a ten-foot-tall Transformer wearing a suit of samurai armor—April and her best friend, Andy, make a video with it, which Andy uploads to YouTube. The next day, April wakes up to a viral video and a new life. News quickly spreads that there are Carls in dozens of cities around the world—from Beijing to Buenos Aires—and April, as their first documentarian, finds herself at the center of an intense international media spotlight. Seizing the opportunity to make her mark on the world, April now has to deal with the consequences her new particular brand of fame has on her relationships, her safety, and her own identity. And all eyes are on April to figure out not just what the Carls are, but

what they want from us. Compulsively entertaining and powerfully relevant, *An Absolutely Remarkable Thing* grapples with big themes, including how the social internet is changing fame, rhetoric, and radicalization; how our culture deals with fear and uncertainty; and how vilification and adoration spring for the same dehumanization that follows a life in the public eye. The beginning of an exciting fiction career, *An Absolutely Remarkable Thing* is a bold and insightful novel of now.

House plants are having a moment. It begins as an assignment for English class: Write a letter to a dead person. Laurel chooses Kurt Cobain because her sister, May, loved him. And he died young, just like May did. Soon, Laurel has a notebook full of letters to people like Janis Joplin, Amy Winehouse, Amelia Earhart, Heath Ledger, and more -- though she never gives a single one of them to her teacher. She writes about starting high school, navigating new friendships, falling in love for the first time, learning to live with her splintering family. And, finally, about the abuse she suffered while May was supposed to be looking out for her. Only then, once Laurel has written down the truth about what happened to herself, can she truly begin to accept what happened to May. And only when Laurel has begun to see her sister as the person she was -- lovely and amazing and deeply flawed -- can she begin to discover her own path in this stunning debut from Ava Dellaira, *Love Letters to the Dead*.

"Growing up Amish and leaving the fold, Emma Gingerich left her Amish community in Eagleville, Missouri, at the age of eighteen. Her memoir *Runaway Amish Girl: The Great Escape* captivates even the timid reader. Disagreeing with the beliefs of Amish traditions and upbringing, the pressure became too much for her to bear.
