The idea of the book entitled "Objective Life Science: MCQs for Life Science Examination" was born because of the lack of any comprehensive book covering all the aspects of various entry level life science competitive examinations in particular conducted by CSIR, DBT, ICAR, ICMR, ASRB, IARI, State and National Eligibility Test, but not limited to. This book, covers all the subjects of life science under 13 section namely, 1. Molecules and their interaction relevant to biology; 2. Cellular organization; 3. Fundamental processes; 4. Cell communication and cell signaling; 5. Developmental biology; 6. System physiology – Plant; 7. System physiology – Animal; 8. Inheritance biology; 9. Diversity of life forms; 10. Ecological principles; 11. Evolution and behavior; 12. Applied biology and 13. Methods in biology. Each Section has been further divided into two parts with 200 short tricky questions and 100 applied conceptual questions. Besides this, it also consist of ten full-length model practice test paper, each of 145 questions based on recent syllabus and examination pattern of CISR-UGC National Eligibility Test for Junior research fellowship and lecturership. Additional previous years solved question papers of the CSIR-UGC NET are also included to get acquainted with India's most competitive entry level exam. The ultimate purpose of this book is to equip the reader with brainstorming challenges and solution for life science and applied aspect examinations. It contains predigested information on all the academic subject of life science for good understanding, assimilation, self-evaluation, and reproducibility.

Smart Practice Sets marks 6 years of Testbook as the fastest growing platform in Education Technology. This book is an effort to reform the conventional style of solving mock tests, where students usually focus on quantity of problem sets solved, than evaluating and improving their performance. This book contains 20 tests attempted by thousands of students Online. Testbook's Data Science Team has extracted and processed tons of data points like speed of answering, maximum time taken to answer, accuracy trend on each question, toppers' & average student's performances, etc. from the students' responses on each question. They have then drawn amazing comparative insights for analysis.
