

Lighthouses Great Lakes 2017 Square Multilingual Edition

Described by Virginia Woolf herself as ‘easily the best of my books’, and by her husband Leonard as a ‘masterpiece’, To the Lighthouse, first published in 1927, is one of the milestones of Modernism. Set on the Isle of Skye, over a decade spanning the First World War, the narrative centres on the Ramsay family, and is framed by Mrs Ramsay’s promise to take a trip to the lighthouse the next day – a promise which isn’t to be fulfilled for a decade. Flowing from character to character and from year to year, the novel paints a moving portrait of love, loss and perception. Bearing all the hallmarks of Woolf’s prose, with her delicate handling of the complexities of human relationships, To the Lighthouse has earned its reputation – frequently appearing in lists of the best novels of the twentieth century, it has lost not an iota of brilliance.

Walk the World’s Greatest Trails To walk is to discover, from those first halting steps as a child to walking the world’s greatest long-distance trails. Experience breathtaking coastlines, mountain ranges, historic landscapes, wilderness areas, religious pilgrimages, great cities, and iconic rivers. Walk to learn more about our beautiful and curious world, to be healthy and happy, to add adventure and authenticity to life, and to learn something about yourself in the process. Walking is simple, but it can also be profound. Veteran outdoor enthusiasts Robert and Martha Manning invite readers to experience the joy of walking in Walks of a Lifetime. They offer firsthand descriptions of thirty of the world’s great long-distance trails and multiday walks, including personal anecdotes, natural and cultural history, practical tips, and full-color photographs and maps. Walks range from inn-to-inn routes to backpacking treks and are found across North America, Europe, Asia, Australia, and the Pacific. Trail descriptions are accompanied by a series of short, engaging essays on the many dimensions of walking.

Travel Michigan’s coast—and into the state’s history—with otherworldly tales of the spirits of those who sought to keep its waters safe. Michigan has more lighthouses than any other state, with more than 120 dotting its expansive Great Lakes shoreline. Many of these lighthouses lay claim to haunted happenings. Former keepers like the cigar-smoking Captain Townshend at Seul Choix Point and prankster John Herzan at Waughoshance Shoal near Mackinaw City maintain their watch long after death ended their duties. At White River Light Station in Whitehall, Sarah Robinson still keeps a clean and tidy house, and a mysterious young girl at the Marquette Harbor Lighthouse seeks out other children and female companions. Countless spirits remain between Whitefish Point and Point Iroquois in an area well known for its many tragic shipwrecks. Join author and Promote Michigan founder Dianna Stampfler as she recounts the tales from Michigan’s ghostly beacons. “Haunting tales of Michigan’s lighthouses . . . Her stories come from lighthouse museums, friends and family.”—Great Lakes Echo

Lighthouses and Lightships of the United States

Lighthouses were built on the Hudson River in New York between 1826 to 1921 to help guide freight and passenger traffic. One of the most famous was the iconic Statue of Liberty. This fascinating history with photos will bring the time of traffic along the river alive. Set against the backdrop of purple mountains, lush hillsides, and tidal wetlands, the lighthouses of the Hudson River were built between 1826 and 1921 to improve navigational safety on a river teeming with freight and passenger traffic. Unlike the towering beacons of the seacoasts, these river lighthouses were architecturally diverse, ranging from short conical towers to elaborate Victorian houses. Operated by men and women who at times risked and lost their lives in service of safe navigation, these beacons have overseen more than a century of extraordinary technological and social change. Of the dozens of historic lighthouses and beacons that once dotted the Hudson River, just eight remain, including the iconic Statue of Liberty, New York Harbor’s great monument to freedom and immigration, which served as an official lighthouse between 1886 and 1902. Hudson River Lighthouses invites readers to explore these unique icons and their fascinating stories.

Featuring more than 650 lighthouses located throughout the five Great Lakes, a lavish encyclopedia uncovers the history behind these noble structures, which helped guide thousands of sailors and now mostly serve as monuments to an exciting period in history and points of pilgrimage for maritime enthusiasts.

Rewilding the Apostle Islands

The Living Great Lakes

The World Book Encyclopedia

A Storied Wilderness

Award-winning nature author Jerry Dennis reveals the splendor and beauty of North America ’s Great Lakes in this “masterwork” history and memoir of the essential environmental and economical region shared by the United States and Canada. No bodies of water compare to the Great Lakes. Superior is the largest lake on earth, and together all five contain a fifth of the world ’s supply of standing fresh water. Their ten thousand miles of shoreline border eight states and a Canadian province and are longer than the entire Atlantic and Pacific coasts of the United States. Their surface area of 95,000 square miles is greater than New York, New Jersey, Connecticut, Massachusetts, Vermont, New Hampshire, and Rhode Island combined. People who have never visited them—who have never seen a squall roar across Superior or the horizon stretch unbroken across Michigan or Huron—have no idea how big they are. They are so vast that they dominate much of the geography, climate, and history of North America, affecting the lives of tens of millions of people. The Living Great Lakes: Searching for the Heart of the Inland Seas is the definitive book about the history, nature, and science of these remarkable lakes at the heart of North America. From the geological forces that formed them and the industrial atrocities that nearly destroyed them, to the greatest environmental success stories of our time, Superior, Michigan, Huron, Erie, and Ontario are portrayed in all their complexity. A Michigan native, Jerry Dennis also shares his memories of a lifetime on or near the lakes, including a six-week voyage as a crewmember on a tallmasted schooner. On his travels, he collected more stories of the lakes through the eyes of biologists, fishermen, sailors, and others he befriended while hiking the area ’s beaches and islands. Through storms and fog, on remote shores and city waterfronts, Dennis explores the five Great Lakes in all seasons and moods and discovers that they and their connecting waters—including the Erie Canal, the Hudson River, and the East Coast from New York to Maine—offer a surprising and beautiful view of America. The result is a meditation on nature and our place in the world, a discussion and cautionary tale about the future of water resources, and a celebration of a place that is both fragile and robust, diverse, rich in history and wildlife, often misunderstood, and worthy of our attention. “This is history at its best and adventure richly described.” —Doug Stanton, author of In Harm ’s Way: The Sinking of the U.S.S. Indianapolis and the Extraordinary Story of Its Survivors and 12 Strong: The Declassified True Story of the Horse Soldiers Sigurd Olson Nature Writing Award Winner Winner of Best Book of 2003 by the Outdoor Writers Association of America

When famine emigrant Patrick Gallagher, secures passage aboard a transatlantic coffin ship from County Cork, Ireland, to the Grosse Île Quarantine Station, Canada, he finds himself prey to a very different sort of hunger. Meanwhile, Ang è le Paris D'Arcantel, a Vodou priestess, flees slavery and impending Civil War in New Orleans. She rides the Underground Railroad north along the Mississippi river to an abandoned lighthouse forsaken in the remote Adirondack wilderness at the brink of a vast, cursed forest and the narrowing bluffs of Lake Champlain. We, The Wanted is a fully illustrated novel charting the unverified and unverifiable mythologies of seemingly disparate folklores: Irish, Haitian, and Native American, that converge beneath the beacon of the Split Rock Lighthouse as a way of exploring the contemporary phenomena of disenchantment. Shining a light upon the mysterious and tragic history of the remote Adirondack and across the tortured generations who weathered its storm, We, The Wanted is a gothic tale of grim isolation, the consequences of [dis]belief, and the monsters that continue to lurk beyond the pale of civilization hoping to lure us into their darkness.

Did you know the name Alaska comes from an Aleut word meaning "great land?" Or that St. Augustine, Florida, founded in 1565, is the oldest city in our country? TIME For Kids presents the glorious 50 states of our nation in this informative guide and shares the qualities that make each one unique-- from their geographic and political origins to the individual states' place in history. Packed with fun facts, illustrated maps, full-color photos, and state profiles organized alphabetically for easy search, 50 States: Our America is a great resource for school reports, summer road trips, and young readers' general curiosity. Thom's Directory of Ireland Loyd's Register of Shipping The Ghost of the Charlotte Lighthouse The Lighthouse Service 2017 CFR Annual Print Title 50 Wildlife and Fisheries Parts 228 to 599 In this book the author, Weston A. Goodspeed, and the editor, Jaergen beck, offer a general survey of Cook County history, including a condensed history of Chicago and special account of districts outside the city limits, from the earliest settlement to the time of the turn of the 20th century. There is hardly a book that contains more information and is more complete than this edition with more than 540 pages full of facts and data. Discover the history of this Wisconsin county known for shipwrecks—and spirits . . . photos included! Because Door County received its name from "Death's Door," the perilous strait with more freshwater shipwrecks than anywhere else in the world, it should be no surprise that the idyllic county has plenty of ghostly history. In the company of storyteller Gayle Soucek, meet lighthouse keepers whose sense of duty extends beyond the grave. Catch a glimpse of the phantom ship Le Griffon, never seen for more than a moment since it sailed through a crack in the ice in 1679. And it is not just the waters of Door County that carry the freight of haunted tales—Country Road T has its share of spooks, bizarre beasts have caused disturbances in the woods, and there are whispered rumors that infamous gangster Al Capone added to the county's stock of ghosts through a handful of brutal murders, including an ex-girlfriend and two unacknowledged children . . .

From The New York Times bestselling author of The Girl Who Came Home comes a historical novel inspired by true events, and the extraordinary female lighthouse keepers of the past two hundred years. “They call me a heroine, but I am not deserving of such accolades. I am just an ordinary young woman who did her duty.” 1838: Northumberland, England. Longstone Lighthouse on the Farne Islands has been Grace Darling’s home for all of her twenty-two years. When she and her father rescue shipwreck survivors in a furious storm, Grace becomes celebrated throughout England, the subject of poems, ballads, and plays. But far more precious than her unsought fame is the friendship that develops between Grace and a visiting artist. Just as George Emmerson captures Grace with his brushes, she in turn captures his heart. 1938: Newport, Rhode Island. Nineteen-years-old and pregnant, Matilda Emmerson has been sent away from Ireland in disgrace. She is to stay with Harriet, a reclusive relative and assistant lighthouse keeper, until her baby is born. A discarded, half-finished portrait opens a window into Matilda’s family history. As a deadly hurricane approaches, two women, living a century apart, will be linked forever by their instinctive acts of courage and love.

Reductions in police department funding have raised the importance of volunteers in enhancing organizational performance, improving community trust and confidence, and at times accomplishing basic tasks to maintain public safety and security. During a period when police administrators are asked to do more with less, and to engage in smarter, community-oriented policing, citizen volunteers are an invaluable resource. Police Reserves and Volunteers is an invaluable primer for those looking to understand the benefits and challenges involved in the use of the volunteers within global law enforcement agencies. Using cases from a range of specialists and precincts, this edited volume provides a rare window into police administration from the state legislation that regulates police reserves in California to the local models observed in many counties and cities across the United States. Police Reserves and Volunteers offers volunteers, local elected officials, and law enforcement straightforward guidelines to enhance police goals and build public trust in local communities.

How Schools and Parents Around the World are Inspiring Greatness, One Child at a Time

The Wandering Photographer

The Complete Guide to All 50 National Parks

Children in today’s world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Meis that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective Peoplea pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

The Apostle Islands are a solitary place of natural beauty, with red sandstone cliffs, secluded beaches, and a rich and unique forest surrounded by the cold, blue waters of Lake Superior. But this seemingly pristine wilderness has been shaped and reshaped by humans. The people who lived and worked in the Apostles built homes, cleared fields, and cut timber in the island forests. The consequences of human choices made more than a century ago can still be read in today’s wild landscapes. A Storied Wilderness traces the complex history of human interaction with the Apostle Islands. In the 1930s, resource extraction made it seem like the islands natural beauty had been lost forever. But as the island forests regenerated, the ways that people used and valued the islands changed - human and natural processes together led to the rewilding of the Apostles. In 1970, the Apostles were included in the national park system and ultimately designated as the Gaylord Nelson Wilderness. How should we understand and value wild places with human pasts? James Feldman argues convincingly that such places provide the opportunity to rethink the human place in nature. The Apostle Islands are an ideal setting for telling the national story of how we came to equate human activity with the loss of wilderness characteristics, when in reality all of our cherished wild places are the products of the complicated interactions between human and natural history. The classic work on the evaluation of city form. What does the city’s form actually mean to the people who live there? What can the city planner do to make the city’s image more vivid and memorable to the city dweller? To answer these questions, Mr. Lynch, supported by studies of Los Angeles, Boston, and Jersey City, formulates a new criterion—imageability—and shows its potential value as a guide for the building and rebuilding of cities. The wide scope of this study leads to an original and vital method for the evaluation of city form. The architect, the planner, and certainly the city dweller will all want to read this book.
