The Duke of Ravenstock is the most attractive and elusive bachelor in London - and the most notorious. His exploits and romantic escapades keep the salons of the Social world buzzing - but never more so than when he announces that he will marry. His friends soon realise that what has captured the Duke's heart is the purity and innocence of his intended bride. The wedding date has been fixed when the Duke discovers by accident that his fiancée has taken a lover, a close friend of his. Shattered and disillusioned, the Duke plots a cruel revenge. When he reveals to his sister, the Mother Superior of a Convent in Paris, that he seeks the most innocent girl he can find for his bride, she introduces him to Anoushka, a novice in her care at the Convent. Anoushka has a mysterious background, having been brought secretly and anonymously to the Convent as a child. Somewhat reluctantly Anoushka agrees to marry the Duke, but, to his amazement, her beauty and innocence prove more of a challenge than he could possibly have imagined.

Violent Python shows you how to move from a theoretical understanding of offensive computing concepts to a practical

implementation. Instead of relying on another attacker's tools, this book will teach you to forge your own weapons using the Python programming language. This book demonstrates how to write Python scripts to automate large-scale network attacks, extract metadata, and investigate forensic artifacts. It also shows how to write code to intercept and analyze network traffic using Python, craft and spoof wireless frames to attack wireless and Bluetooth devices, and how to data-mine popular social media websites and evade modern anti-virus. Missing Her

Why do women write more letters than they post?

Introducing Irony

Companion novel to "Something like summer."

"missing her" is Madhavi Devi's first collection of poetry. Composed of seventeen poems, her chapbook speaks to the exploration of sexuality, love, mental illness, and briefly, politics. Each piece is a reflection of growth and nostalgia, paving the way to maturity and independence.

"missing her" is about missing people, places, moments, and inevitably, one's self.

Jessie and Ki team up with a half-breed Apache to fight the man who holds the west in terror! James "Two Wolves" Campbell has only one thing in mind: to kill the man who poisoned his people and used the Apaches to spread terror in the West. In him, Ki meets his match in battle, and Jessie finds some of the most passionate moments in her life. Together they fight to uproot the greatest evil the West has ever known.

*Shana Abé has entranced countless readers with her passion-filled novels of adventure, intrigue, and romance. Now the author of *The Secret Swan* delivers a gift from the sea: three hauntingly beautiful tales connected by a legend, a locket, and a love beyond time. *531 a.d.: The tiny island of Kell is said to be enchanted, inhabited by an extraordinary creature who comforts shipwrecked sailors passing into the next world. Prince Aedan of the Isles believes in no such nonsense—until he awakens on Kell itself and meets the sensuous siren who rescued him from the sea. 1721: Ronan MacMhuirich, Earl of Kell, is the target of an unlikely assassin: Leila, a mysterious woman from an exotic land. But his irresistibly beautiful would-be slayer is in just as much danger as Ronan when she falls for this man with a magic of his own. 2004: What do you do when you inherit a Scottish island you never knew existed—and find yourself pursued by a handsome stranger who wants to buy it from you? That’s what happens to Ruri Kell when she accepts Iain MacInnes’s invitation to visit her birthright, and listens to a proposition as sinfully tempting as everything else about him. Three seductive love stories, three passionate couples, all linked by one of the most romantic myths of all.**

The International Conference on Wireless and Mobile networks (WiMo) aims to bring together innovative ideas and new research trends in wireless and mobile networks. Wireless networks are the best inventions in history. Wireless networking gives you a cheap and easy way to share one Internet connection between multiple computers, eliminating the need for more than one modem. You can even add new computers to your network simply by plugging in a wireless card and switching them on—they have an Internet connection straight away! There aren't many wired networks that can say that. This conference is dedicated to addressing the challenges in the areas of wireless and mobile networks. It looks for significant contributions to wireless and mobile computing in theoretical and practical aspects. The wireless and mobile computing domain emerges from integrating personal computing, networks, communication technologies, cellular technology and Internet technology. Modern applications are emerging in the area of mobile ad hoc networks and sensor networks. WiMo 2010 intended to cover contributions in both design and analysis in the context of mobile, wireless, ad hoc, and sensor networks. The goal of the conference was to bring together - searchers and practitioners from academia and industry to focus on advanced wireless and mobile computing concepts and establish new collaborations in these areas.

Why do men tend to keep love letters in files along with their other correspondence, whereas women keep them with their clothes? And if a letter is written but not posted, at whom is it really directed? As psychoanalyst Darian Leader shows, such questions go to the heart of sexual desire, which is never addressed to our flesh and blood companion, always to something beyond him or her. In an engaging, at times startling, enquiry into the fundamental loneliness of each sex, Leader asks why relationships frequently run aground on the trivial question, 'What are you thinking?' If a man chooses as his partner a woman unlike his mother, why does he try to make her behave towards him exactly as his mother did, when he was a boy? And why might a woman decide not to spend the night with a man, after one glimpse of his apartment?

Your easy-to-follow step-by-step guide to configuring a Cisco router from the ground up The Accidental Administrator: Cisco Router Step-by-Step Configuration Guide is packed with more than 30 easy-to-follow interactive exercises, load screen captures, and lots of step-by-step examples to help you build a working router from scratch. Through four previous editions, Introductory Statistics has made statistics both interesting and accessible to a wide and varied audience. The realistic content of its examples and exercises, the clarity and brevity of its presentation, and the soundness of its pedagogical approach have received the highest remarks from both students and instructors. Now this bestseller is available in a new Fifth Edition.

Many consider Enochiana the most powerful and least understood system of Western Occult practice. This book makes it truly accessible and easy to understand. Crowley's work was the launching pad for all that followed. Originally published in 1912, it rent the veil of the Inner Order of the Golden Dawn and revealed its most precious jewel for all to see. And now, for the first time, the reader is provided with instructions that bridge the gap between the material and spiritual worlds by integrating Enochiana with Sex Magick. Mr DuQuette and Dr Hyatt bring over forty years of practical experience in the field to show you how to start using this powerful system right now. It also includes an Enochian dictionary.

A stunning, full-color guide for the modern skier, Ultimate Skiing speaks to the intermediate, advanced and racing readership by including updated techniques for modern-shaped ski designs and tips for fine-tuning boots for specific styles and terrain. Ultimate Skiing features author Ron LeMaster's clear, thorough and captivating photo sequences depicting proper form on the slopes. Every chapter includes analyses of World Cup skiers, as well as exercises for developing and practicing technique. Original.

Natasha Munro is your typical twenty eight year old girl, well your typical twenty eight year old English loud 'n' proud Geordie; curvy, fun and a whole load of fab-u-lous. Her life is all going to plan - good job, great friends, close family and a loving boyfriend - until an unexpected event stands everything on its head. Nursing a broken heart and decked head-to-toe in tasselled chaps and rhinestones, Natasha and her flamboyant fairy of a gay best friend, Tink, uproot from their North-Eastern nest, throw caution to the wind and embark on a new life together in Canada. Canada - Land of the Rocky Mountains, maple syrup; oh, and an 'in-between movies' Hollywood mega-star. Enter infamous bad-boy of the big screen, Tudor North - Tudor 'bloody' North! Tudor is towering, brooding and gorgeous, and he is harbouring a deep secret. His outward demeanour is cold and intimidating, and with it he successfully keeps everyone at arm's length; that is everyone except a certain Ms. Munro. It soon becomes clear; what with her smart mouth and lusciously ample arse, that Natasha proves more than a match for our emotionally-distant mega-star. Will Natasha settle into her new life in Canada? Will she ever find her fairytale happy ending? Can a movie star and an ordinary girl from England ever really make it work? Or will the secrets lurking in Tudor's past scupper their chance of happiness? Eternally North is addictive, funny and heart-warming; a fast paced comedic journey of self-discovery; unyielding friendship and, of course, it would not be complete without a generous sprinkling of good old-fashioned British 'slap-and-tickle'. **WARNING:** Contains a foul-mouthed voluptuous Brit; a self-confessed and self-promoted Friggin' Fantastic Fairy; and an abundance of tattoo-smothered muscles nicely wrapped up in one gorgeous bad-boy package.

This book introduces the subject of fluid dynamics from the first principles.

In this book Martin McQuillan brings Derrida's writing into the immediate vicinity of geo-politics today, from the Kosovan conflict to the war in Iraq. The chapters in this book follow both Derrida's writing since *Specters of Marx* and the present political scene through the former Yugoslavia and Afghanistan to Palestine and Baghdad. His 'textual activism' is as impatient with the universal gestures of philosophy as it is with the complacency and reductionism of policy-makers and activists alike. This work records a response to the war on thinking that has marked western discourse since 9/11.

This ground-breaking book provides fascinating insights into the fast-emerging body of research that explores the relationship between sport, theology and disability within a social justice framework. In the shadow of two major sport-faith events that fore-fronted the theology of disability sport, the Vatican's international conference "Sport at the Service of Humanity and the Inaugural Global Congress on Sports and Christianity" York St John University, UK, at which Dr Brian Brock led a thematic strand on the topic "this book provides a foundation for further research and practice. This text is a timely and important synthesis of ideas that have emerged in two previously distinct areas of research: (i) "disability sport" and (ii) the "theology of disability". Examples of subjects addressed in this text include: elite physical disability sport "Paralympics; intellectual disability sport "Special Olympics; equestrian sport; church, sport and disability, and; theologies of embodiment, competition and mercy. This book, written by leaders in their respective fields, begins a critical conversation on these topics, and many others, for both researchers and practitioners. The chapters originally published in the *Journal of Disability and Religion and Quest*.

John Ashbery's most renowned collection of poetry -- Winner of The Pulitzer Prize, the National Book Award, and the National Book Critics Circle Award First released in 1975, *Self-Portrait in a Convex Mirror* is today regarded as one of the most important collections of poetry published in the last fifty years. Not only in the title poem, which the critic John Russell called "one of the finest long poems of our period," but throughout the entire volume, Ashbery reaffirms the poetic power that made him an outstanding figure in contemporary literature. These are poems "of breathtaking freshness and adventure in which dazzling orchestrations of language open up whole areas of consciousness no other American poet as ever begun to explore" (The New York Times).

This beautiful art book features Shigenori Soejima's best work from the Persona 3 and Persona 4 games, as well as other projects such as Stella Deus and Momoiro Taisen Pairon. Also includes an exclusive interview with the artist himself!

This book constitutes the proceedings of the 14th International Symposium on Recent Advances in Intrusion Detection, RAID 2011, held in Menlo Park, CA, USA in September 2011. The 20 papers presented were carefully reviewed and selected from 87 submissions. The papers are organized in topical sections on application security; malware; anomaly detection; Web security and social networks; and sandboxing and embedded environments.
