"If there is one quote from this book which deserves to be emblazoned on the opening pages of your Book of Shadows; above the door of your house (or temple); and in every mind it is this: 'Wicca is not a place to go, it is a journey to take.'"—Spiral Nature For thousands of years, we have been told that God was a man. Then someone reminded us of when God was a woman. Now we have a reference for the sensible folk who have always felt that it takes two. If you have ever thought there was more to religion than ancient rituals performed for reasons unknown, this book will show you exactly what you have been looking for. If you have already come to the realization that Wicca is the religion for you, this book will help fill those many blanks that have been left by other books. Author A.J. Drew makes no attempt to dictate religious dogma or routine. He is quick to point out that the title does not start with the word the. He illustrates the many issues a person's religion should address and shows how he has been able to find answers to those issues through the practice of a modern religion that was based on some of the oldest principles of the ancient world. A Wiccan Bible takes you through the journey of life in three stages: • Maiden and Master: Creation, Wiccaning, and Self-dedication. • Mother and Father: Initiation, Handfasting/Handparting, and the Wheel of the Year. • Crone and Sage: Community, the world, and death. Mythology and science converge as the author details a life's journey into a religion with both old world ritual and new world science, fusing both into a creation myth which satisfies not only mind, but soul as well. A Wiccan Bible not only shows a religious path filled with joy, but one that offers the ability to accept and manage sorrow. It is filled with ritual and with the reasons why ritual is fulfilling, rewarding, and a necessary part of everyday life. As A.J. addresses each issue, he demonstrates not only how he found the solutions in Wicca, and the many ways in which science and magick have helped him to do so. A Wiccan Bible

also contains select recipes that the author has collected, including mixtures for incense, oils, and baths.

Join The Real Werewives for this fun and steamy season with The Alaska Bloodhounds and follow the Werewives as they find love with these wild football players. Meet the contestants: Running Wild Hi! I'm Naomi. I'm not in Alaska to meet some furry jock. I became a Real Werewife to find a platform for my travel blog. And it almost worked, too. When running back Sebastian mistakes me for a crew member at the kickoff party, neither of us can deny there's something more. Much more. But none of my travel could ever prepare me for the adventure with this wolf shifter. Silver Fox Hi! I'm Jenna. Becoming a Real Werewife is my last resort to get the attention of veteran quarterback Landon Fox. I'm not an overzealous fan. I'm the mother of his teenage daughter. Our wild child is about to turn eighteen, and I need his help keeping her under control. But being this close to Landon again has intensified all my old feelings for the fox shifter. This time, is it for real? Catching the Vixen Hi! I'm Fiona. After I crashed an Alaska Bloodhounds bachelor auction, I got offered a contract to become a Real Werewife. But there's one player I've got my eye on. Tyler Jones, the backup quarterback and my dad's mentee. If that wasn't enough drama, I'm about to shift for the very first time. Can this sexy lion shifter keep a fox like me safe? Wildcat Hi! I'm Molly. So far, my time as a Real Werewife has been a total disaster. I planned to write a book based on my time with the Alaska Bloodhounds, but I've been too shy to make a play for any of them. And my

deadline is looming. When I find out wide receiver Graham Chase has been reading my super sexy romances, I'm intrigued. I might be in over my head with this dirty talking player, but this lynx shifter is ready to show me what romance is all about. Playing to Win Hi! I'm Shauna. Okay, that's not my real name. I'm on the run from some goons in Vegas over a gambling debt. My plan as a Real Werewife? Play the long game and never make it on screen. That totally backfires when the three smokin' hot bear shifters of the offensive line all decide I'm their mate, and production says I need to give them all a chance to stay on the show. But when my past troubles catch up with me, Troy, Corey, and Steele prove they'll do whatever it takes to keep me safe and win my heart. Intercepting Christmas Hi! I'm Tessa. I'm the executive producer of The Real Werewives of Alaska and my husband managed to surprise me with taping our own episode of the show. Our busy lives have kept us apart, and he's bringing my daughters and me to a mountain getaway in Idaho for Christmas. But when a rival resurfaces from Cole's old wolf pack and threatens our family, it rivals any drama we've ever had on the show. He's on a mission to find missing shifters. She's about to become one of them. Abandoned as a baby, Amber Allen has never known another shifter like herself. She came to Shifting Sands Resort hoping for answers about her past, but she only finds questions about her future. She doesn't understand the connection she has with the handsome stranger at the bar, but she knows that his arms feel more like home than anywhere she's ever been. When spy and tiger shifter Tony Lukin asked for an assignment somewhere warm, he wasn't expecting that the real heat would be between the sheets. But he's at the all-inclusive, shifters-only, clothing-optional luxury resort for only one reason, and it's not the sapphire pool or the white sand beach... or the enchanting botanist at the bar offering to buy him a drink. Tony's real mission is to uncover who or what is behind the sinister disappearance of shifters from the resort over the last few years. He'll have to move fast or risk losing everything... and the secretive owner of the resort seems to be doing everything in her power to stop his investigation. Can Tony convince Amber that they're destined to be together... before she goes missing, too? TROPICAL TIGER SPY launches the epic, addictive Shifting

My name is Sora. I was born into this world to a highly respected Mage family. All was well as a child; most children receive their magic at puberty... I was not that fortunate. Shunned by my family, I was cast out on my twenty-first birthday—a failure and disappointment to those who were supposed to love me. Left on my own in Seattle with no friends or money, I made my way through low-paying jobs down the coast to Southern California. Fate finally smiled upon me in San Diego, where I scored a serving position at a diner. One night after my shift, I decided to walk to a dive bar near my home to drown my sorrows. That was where I met him: the Master Vampire of the SoCal Clutch. It was either the biggest mistake of my life... or the best decision in the world. A man who growls, and roars and does everything he can to chase her away. Only to come back. Poor Gene. After the pain and betrayal he suffered in the war all he wants is vengeance against the brothers who left him behind. But he's confused when instead of wanting to punish him for his evil acts, they offer him forgiveness. Or more like, he can't seem to stop following her. And it isn't just because someone is out to hurt her. He wants her. But does he want her more than vengeance? Winner of the International Lannan Literary Award for Nonfiction *Animal tracks, word magic, the speech of stones, the power of letters, and the taste of the wind* all figure prominently in this intellectual tour de force that returns us to our senses and to the sensuous terrain that sustains us. This major work of ecological philosophy startles the senses out of habitual ways of perception. For a thousand generations, human beings viewed themselves as part of the wider community of nature, and they carried on active relationships not only with other people with other animals, plants, and natural objects (including mountains, rivers, winds, and weather patters) that we have only lately come to think of as "inanimate." How, then, did humans come to sever their ancient reciprocity with the natural world? What will it take for us to recover a sustaining relation with the breathing earth? In *The Spell of the Sensuous* David Abram draws on sources as diverse as the philosophy of Merleau-Ponty, Balinese shamanism, Apache storytelling, and his own experience as an accomplished sleight-of-hand of magician to reveal the subtle dependence of human cognition on the natural environment. He explores the character of perception and excavates the sensual foundations of language, which--even at its most abstract--echoes the calls and cries of the earth. On every page of this lyrical work, Abram weaves his arguments with a passion, a precision, and an intellectual daring that recall such writers as Loren Eiseley, Annie Dillard, and Barry Lopez.

To win a frightened heart, you have to bare your own. *Halle Shifters Book 3* Glory has been denying her feelings for Ryan Williams for months. Abandoned as a teenager, she's unsure that she can trust in the promises Ryan is making. Everyone leaves her eventually, even him. Ryan only left his mate to hunt down the man who'd shot her and threatened her best friend. He has no intentions of going anywhere ever again, but convincing his stubborn mate that he's in her life forever is proving tougher than he thought. When he finally gets her to agree to a date, he feels like he's won the lottery. Things never seem to go smoothly in the Bunsun-Williams family. Glory has issues from her past that need to be dealt with, and Ryan is just the man to do so. When one of them comes back to bite her in the ass, it will take baring his soul to get his mate to see that Ryan can protect her, even from herself.

Bear shifter, billionaire, and single dad, Lee is only looking for a quiet place to raise his daughter Clara when he moves to the sleepy town of Green Valley. He never believed in soulmates, but when he meets Clara's new teacher, he knows at once that he's met the woman who can make his new house a home. Patricia is a practical preschool teacher too busy making ends meet and trying to keep her school afloat to think about romance. Besides, she knows she can't compete with the perfect memory of Clara's mother. But when a snowstorm strands her in Lee's mansion, she can't resist the heat of his kisses. Lee is ready to tell Patricia all his secrets, but can he convince her that they were meant to be before she dances out of his life forever? *DANCING BEARFOOT* is first in the Green Valley Shifters series, and is a shifter fairy tale romance with a HEA and dash of spice that stands alone, though characters may reoccur in the series. Stealing the Snow Leopard's Heart

First published in 2003. The NATO-led Operation Allied Force was fought in 1999 to stop Serb atrocities against ethnic Albanians in Kosovo. This war, as noted by the distinguished military historian John Keegan, "marked a real turning point . . . and proved that a war can be won by airpower alone." Colonels Haave and Haun have organized firsthand accounts of some of the people who provided that airpower—the members of the 40th Expeditionary Operations Group. Their descriptions—a new wingman's first combat sortie, a support officer's view of a fighter squadron relocation during combat, and a Sandy's leadership in finding and rescuing a downed F-117 pilot—provide the reader with a legitimate insight into an air war at the tactical level and the airpower that helped convince the Serbian president, Slobodan Milosevic, to capitulate. He's looking for forgiveness. She's looking for a fighting chance. Graham Long left his career—and his real name—behind to make a fresh start for himself at Shifting Sands. He's done with dueling, and wants nothing more than to quietly raise his strawberries and tend the lawns at the tropical shifters-only resort. A fight is the last thing he wants when his lion insists that his friend's bear shifter bridesmaid is his destined mate. But fiercely independent Alice Anders has a life of her own already. She's not going to turn her back on the people who need her and the job she loves just to run away to a tropical island paradise with a gorgeous gardener that makes her knees weak with one blue-eyed glance. She's not at the resort to find her own true love... and she's not there only as a bridesmaid, either. She's been given a fighting chance to save her family: all she has to do is uncover the shift form of the mysterious resort owner, Scarlet, for an equally mysterious man for whom money is no object. Between the secrets they're keeping and the answers they're searching for, it's a hard road to honesty, and harder road still to a happy ever after. Can Graham keep ahead of the enemies from his past? Will Alice figure out who he really is... and if she does, will she ever be able to forgive him for the things he's done and the secrets he's keeping from her? Exotic animals were coveted commodities in nineteenth-century Britain. Spectators flocked to zoos and menageries to see female lion tamers and hungry hippos. Helen Cowie examines zoos and travelling menageries in the period 1800-1880, using animal exhibitions to examine issues of class, gender, imperial culture and animal welfare.

In a dark and perilous realm, a nameless outcast seeks a voice, a past, and a future: "A dazzling debut" (Jennifer Roberson). In all of Erith, there is perhaps no one as wretched as the nameless mute foundling confined to the lowest depths of Isse Tower. Abused by many and despised by all, the pathetic creature lives without memories in the shadows. The amnesiac longs to escape—to roam the wild landscape in search of a past, a name, a destiny—but dangers surround the tower. Only flying ships and majestic winged horses carrying important visitors can reach the castle safely, landing high above the ground on its

battlements. The local servants whisper about malevolent creatures that roam the forests and bear no love for humankind. Escape seems impossible in this treacherous world of wights and monsters. Praised as Australia's J. R. R. Tolkien, Cecilia Dart-Thornton has set a towering new standard for fantasy fiction, earning the respect and acclaim of readers, reviewers, and some of the world's most renowned fantasists. With roots firmly embedded in the ancient folklore of the British Isles, *The Ill-Made Mute*—the opening volume of Dart-Thornton's magnificent *Bitterbynde Trilogy*—introduces fantasy lovers to an unforgettable character whose remarkable adventures rival the epic trials of the Bagginses and the tales of *The Silmarillion*.

This book argues that McCarthy's works convey a profound moral vision, and use intertextuality, moral philosophy, and questions of genre to advance that vision. It focuses upon the ways in which McCarthy's fiction is in ceaseless conversation with literary and philosophical tradition, examining McCarthy's investment in influential thinkers from Marcus Aurelius to Hannah Arendt, and poets, playwrights, and novelists from Dante and Shakespeare to Fyodor Dostoevsky and Antonio Machado. The book shows how McCarthy's fiction grapples with abiding moral and metaphysical issues: the nature and problem of evil; the idea of God or the transcendent; the credibility of heroism in the modern age; the question of moral choice and action; the possibility of faith, hope, love, and goodness; the meaning and limits of civilization; and the definition of what it is to be human. This study will appeal alike to readers, teachers, and scholars of Cormac McCarthy.
