The International Encyclopedia of Hospitality Management is the definitive reference work for any individual studying or working in the hospitality industry. There are 185 Hospitality Management degrees in the UK alone. This new edition updates and significantly revises twenty five per cent of the entries and has an additional twenty new entries. New online material makes it the most up-to-date and accessible hospitality management encyclopedia on the market. It covers all of the relevant issues in the field of hospitality management from a sectoral level (lodging, restaurants/food service, time-share, clubs and events) as well as a functional one (accounting and finance, marketing, strategic management, human resources, information technology and facilities

management). Its unique, user-friendly structure enables readers to find exactly the information they require at a glance – whether they require broad detail that takes a more cross-sectional view across each subject field or more focused information that looks closely at specific topics and issues within the hospitality industry today.

This book is the story of one death among many in the war in eastern Ukraine. Its author is a historian of war whose brother was killed at the frontline in 2017 while serving in the Ukrainian Armed Forces. Olesya Khromeychuk takes the point of view of a civilian and a woman, perspectives that tend to be neglected in war narratives, and focuses on the stories that play out far away from the warzone. Through a combination of personal memoir and essay, Khromeychuk attempts to help her readers understand the private experience of this still ongoing but almost forgotten war in the heart of Europe and the private experience of war as such. This book will resonate with anyone battling with grief and the shock of the sudden loss of a loved one.

The rapid development of information communication technologies (ICTs) is having a profound impact across numerous aspects of social, economic, and cultural activity worldwide, and keeping pace with the associated effects, implications, opportunities, and pitfalls has been challenging to researchers in diverse realms ranging from education to competitive intelligence.
