but also at societal and national levels. Aging is a natural process; however, its standard definition in a healthcare context is yet unclear. To delay the aging process and to maintain quality of life until the end of life are two goals of prime importance. Various healthcare approaches are being developed and experimented on to best manage aging as if it is a disease. Nutraceuticals are value-added dietary supplement products and have an immense potential in altering key structures and functions of aging. Nutraceuticals can be a keystone in altering sub-normal performing physiological and metabolic systems due to aging. Charlie's ideas allow you to add food plants wherever you like. Incorporating food-bearing plants as hedgerows and barriers or in small spaces, containers, window boxes and many more ideas allow you to expand the types of plants you can use and even extend your growing season! For example, blueberry bushes provide not just fruit, but also wonderful fall color. Arbors and pergolas are perfect supports for edible plants and even simplify harvest.
