It is the spring of 1939 in the age of anxiety. In months Europe will be Hitler's. And Badenheim, a resort town vaguely in the orbit of Vienna, is preparing for its summer season. The vacationers arrive as they always have, a sampling of Jewish middleclass life: the impresario Dr. Pappenheim, his musicians, and their conductor; the gay Frau Tsauberblit; the historian Dr. Fussholdt and his much younger wife; the "readers," twins whose passion for Rilke is featured on their program; a child prodigy; a commercial traveler; a rabbi. The list waxes as the summer waxes. To receive them in the town are the pharmacist and his worried wife, the hotelier and his large staff, the pastry shop owner and his irritable baker, Sally and Gerlie (two quite respectable prostitutes), and, mysteriously, the bland inspectors from the "Sanitation Department." The story unfolds as matter-of-factly as a Chekhov play. The characters on stage are so deeply held by their defensive daily trivia that they manage to misconstrue every signal of their fate. Finally, de facto prisoners in their familiar resort, the vacationers, now increased by the forced crowding-in of other Jews hardly on vacation, take on the lineaments of undefined disaster. The text builds a sense of foreboding in which each human detail is so persuasive, so right in its fidelity to the terrible evasions of the time, that it leaves the reader transformed by what he and the author know must happen to Badenheim's people. Badenheim 1939 owes everything to its author's astonishing capacity to recreate the energies and confusions of innocent and uncomprehending victims who, always loyal to civility and social graces, fail to even dimly see the cruel terms of their imminent fate.

This title provides a theoretically and methodologically new and distinct approach to gender through the frameworks of biopolitics and genealogy, theorising it as a historically specific apparatus of biopower. Through the use of a diverse mix of historical and contemporary documents, the book explores how the problematisation of intersex infant genitalia in 1950s psychiatry propelled the emergence of the gender apparatus in order to socialise sexed individuals into the ideal productive and reproductive subjects of White, middle-class postwar America.

Early in the year, our North American forests come to life as native wildflowers start to push up through patches of snow. With longer days and sunlight streaming down through bare branches of towering trees, life on the forest floor awakens from its winter sleep. Plants such as green dragon, squirrel corn, and bloodroot interact with their pollinators and seed dispersers and rush to create new life before the trees above leaf out and block the sun's rays. Wake Up, Woods showcases the splendor of our warming forests and offers clues to nature's annual springtime floral show as we walk in our parks and wilderness areas, or even in shade gardens around our homes. Readers of Wake Up, Woods will see that Gillian Harris, Michael Homoya and Shane Gibson, through illustrations and text, present a captivating look into our forests' biodiversity, showing how species depend on plants for food and help assure plant reproduction. This book celebrates some of nature's most fascinating moments that happen in forests where we live and play.

A New York Review Books Original Hav is like no place on earth. Rumored to be the site of Troy, captured during the crusades and recaptured by Saladin, visited by Tolstoy, Hitler, Grace Kelly, and Princess Diana, this Mediterranean city-state is home to several architectural marvels and an annual rooftop race that is a feat of athleticism and insanity. As Jan Morris guides us through the corridors and quarters of Hav, we hear the mingling of Italian, Russian, and Arabic in its markets, delight in its famous snow raspberries, and meet the denizens of its casinos and cafés. When Morris published Last Letters from Hav in 1985, it was short-listed for the Booker Prize. Here it is joined by Hav of the Myrmidons, a sequel that brings the story up-to-date. Twenty-first-century Hav is nearly unrecognizable. Sanitized and monetized, it is ruled by a group of fanatics who have rewritten its history to reflect their own blinkered view of the past. Morris's only novel is dazzlingly sui-generis, part erudite travel memoir, part speculative fiction, part cautionary political tale. It transports the reader to an extraordinary place that never was, but could well be.

By using a series of studies of contemporary mainstream Hollywood movies - "Blue Velvet, Wall Street, Crimes and Misdemeanors, When Harry Met Sally, Sex Lies and Videotape, Do the Right Thing " - Norman Denzin explores the tension between ideas of the postmodern, and traditional ways of analyzing society. The discussion moves between two forms of text: social theory and cinematic representations of contemporary life. Denzin analyzes the ideas of society embedded in poststructuralism, postmodernism, feminism, cultural studies and Marxism through the ideas of key theorists like Baudrillard, Barthes, Habermas, Jameson, Bourdieu and Derrida. He relates these to the problematic of the postmodern self as exposed in cinema centering on the decisive performance of race, gender and class.

Humans are both supremely rational and deeply superstitious, capable of believing just about anything and of questioning just about everything. Indeed, just as our reason demands that we know the truth, our skepticism leads to doubts we can ever really do so. The author guides readers through a contradiction that lies at the very heart of philosophical inquiry.

Life can be compared to a waterfall. A waterfall beats down forcefully on everything beneath it. Beyond the waterfall is a meandering river with challenges and unknown dangers. Behind the waterfall is a refreshing reprieve where you are protected for a time...but you mustn't stay there too long, or you will grow damp and musty. Some prefer to stand in the waterfall, and blame the river for their dilemma. Others make the mistake of never stepping behind the waterfall, and so their journey ends too soon. Many are afraid to push through the waterfall to learn the adventure that waits on the other side. "Unintended Evil" is about a demonized family that prefers to stand in the waterfall. They pull others into the pounding water with them. The demons that torture them do not want them to discover either the meandering river or the peaceful place behind the waterfall. They lie to them and deceive them into believing that they must fight the waterfall to be counted holy.
