The Years in Dijon

"Memories from her trip to France still haunt Kate Channing almost a decade after the fateful vacation. The image of her French neighbor, Severine, is as clear as if she had seen her yesterday--despite the fact that Severine went missing just as the vacation ended. And when the case is reopened, bringing with it resurfaced secrets, rekindled affections, and dangerous enemies, Kate wonders if she will ever be able to rid herself of the ghost of the haunting and silent young woman. As the investigation speeds forward and alliances can no longer be trusted, she begins to understand that the stakes of this game are her own survival!"-- **This volume brings together two delightful books—Map of Another Town and A Considerable Town—by one of our most beloved food and travel writers. In her inimitable style, here M.F.K. Fisher tells the stories—and reveals the secrets—of two quintessential French cities. Map of Another Town, Fisher’s memoir of the French provincial capital of Aix-en-Provence is, as the author tells us, “my picture, my map, of a place and therefore of myself,” and a vibrant and perceptive profile of the kinship between a person and a place. Then, in A Considerable Town, she scans the centuries to reveal the ancient sources that clarify the Marseille of today and the indestructible nature of its people, and in so doing weaves a delightful journey filtered through the senses of a profound writer.**

NATIONAL BESTSELLER • In this witty and warm-hearted account, Peter Mayle tells what it is like to realize a long-cherished dream and actually move into a 200-year-old stone farmhouse in the remote country of the Lubéron with his wife and two large dogs. He endures January's frosty mistral as it comes howling down the Rhône Valley, discovers the secrets of goat racing through the middle of town, and delights in the glorious regional cuisine. A Year in Provence transports us into all the earthy pleasures of Provençal life and lets us live vicariously at a tempo governed by seasons, not by days.

I am ashamed to begin with saying that Touraine is the garden of France; that remark has long ago lost its bloom. The town of Tours, however, has some thing sweet and bright, which suggests that it is surrounded by a land of fruits. It is a very agreeable

Colonized by the French in 1830, Algeria was an important French settler colony that, unlike its neighbors, endured a lengthy and brutal war for independence from 1954 to 1962. The nearly one million Pieds-Noirs (literally "black-feet") were former French citizens of Algeria who suffered a traumatic departure from their homes and discrimination upon arrival in France. In response, the once heterogeneous community struggled to maintain an identity and keep the memory of colonial Algeria alive. Remembering French Algeria examines the written and visual re-creation of Algeria by the former French citizens of Algeria from 1962 to the present. By detailing the preservation and transmission of memory prompted by this traumatic experience, Amy L. Hubbell demonstrates how colonial identity is encountered, re-created, and film, with the device of repetition functioning in these literary and visual texts to create a unified and nostalgic version of the past. At the same time, however, the Pieds-Noirs' compulsion to return compromises these efforts. Taking Albert Camus's Le Mythe de Sisyphe and his subsequent essays on ruins as a metaphor for Pied-Noir identity, this book studies autobiographical accounts by M

Léila Sebbar, as well as lesser-known Algerian-born French citizens, to analyze movement as a destabilizing and productive approach to the past.

'Masterly ... awesome reading ... an outstanding biography' Max Hastings, Sunday Times The definitive biography of the greatest French statesman of modern times In six weeks in the early summer of 1940, France was over-run by German troops and quickly surrendered. The French government of Marshal Pétain sued for peace and signed an armistice. One little-known junior French general, refused to accept the terms of the armistice and fled to the United Kingdom. On 18 June he spoke to his compatriots over the BBC, urging them to rally to him in London. 'Whatever happens, the flame of French resistance must not be extinguished and will not be extinguished.' At that moment, Charles de Gaulle entered into history. For the rest of the war, de Gaulle frequently bit the hand that fed him. He insisted on being treated as the true embodiment of France. He was prickly, stubborn, aloof and self-contained. But through sheer force of personality and bloody-mindedness he managed to have France recognised as one of the victorious Allies, occupying its own zone in defeated Germany. For ten years after 1958 he was President of France's Fifth Republic, which he created and which endures to this day. His pursuit of 'a certain idea of France' led to the creation of NATO and twice vetoed British entry into the European Community. His controversial decolonization of Algeria brought France to the brink of civil war and provoked several assassination attempts. Julian Jackson's magnificent biography reveals this the life of this titanic figure as never before. It draws on a vast range of published and unpublished memoirs and documents - including the recent memoirs of de Gaulle himself - to tell the story of a man who shaped the modern world. The Life of Charles de Gaulle

France, the Soul of a Journey is a novel memoir that really gets into the veins of France's lush ambience. R J O'Donnell recounts a holiday there with three travelling companions, proving with humour and literary flourish why France is the most visited country in the world. From the chain of spires in medieval Normandy, south to the Loire Valley where Renaissance France and the ideas of the great civilisation first began, the mood is laden with what makes France so loved. The French themselves give the tantalising name la France profonde to the deep countryside where traces of traditional farming still linger and where ethereal France is at its most potent. As rolling hills, buzzing markets and local lore reveal themselves, the passing tourist too gets caught up in that rare love the French have for the soil. The travellers share great moments: at a church concert, sampling the local cuisine or seizing a moment of nostalgia in a salon de thé. Anecdotes of the people met along the way enliven the journey with passing humour, while conversational tones of friendship and fun are never far off. Most of all, travelling in a group calls for the distilling of differences into that holiday essential called compromise. While this book carries the substance of careful research, facts do not weigh down the narrative but are presented in an engaging style. France's history, myths and legends weave subtly into the story and historical figures are taken off textbook pedestals and introduced in a light and personalised way. France, the Soul of a Journey is a fascinating read not just to potential visitors to the country, but to those interested in a novel-style account of a holiday with some history and culture thrown in.

France, the Soul of a Journey

Postwar recovery required a transformation of France, but what form it should take remained a question. Herriek Chaman charts the course of France's reconstruction from 1944 to 1962, offering insights into the ways the expansion of state power produced fierce controversies at home and unintended consequences abroad in France's crumbling empire.

"M.F.K Fisher's latest excursion into the art or science of gastronomy is more an anthology of the finest writing on the subject than strictly a text of her own composition . . . A royal feast, indeed!" —The New York Times Betty Fussell—winner of the James Beard Foundation's journalism award, and whose essays on food, travel, and the arts have appeared in The New York Times, The New Yorker, Saveur, and Vogue—is the perfect writer to introduce M.F.K Fisher's Here Let Us Feast, first published in 1946. The author of Eat, Live, Love, Die has penned a brilliant introduction to this fabulous anthology of gastronomic writing, selected and with commentary from the inimitable M.F.K. Fisher. The celebrated author of such books as The Art of Eating, The Cooking of Provincial France, and With Bold Knife and Fork, Fisher knows how to prepare a feast of reading as no other. Excepting descriptions of bountiful meals from classic works of British and American literature, Fisher weaves them into a profound discussion of feasting. She also traces gluttony through the Old and New Testaments of the Bible, and claims that the story of a nation's life is charted by its gastronomy. M.F.K. Fisher has arranged everything perfectly, and the result is a succession of unforgettable courses that will entice the most reluctant epicure.

A Certain Idea of France

GLIMPSES INTO THE LONG AGO

Interviews with eighteen Jewish "hidden children" of France and Belgium, telling the story of their survival during World War II. The history of France's "hidden children" and of the French citizens who saved six out of seven Jewish children and three-fourths of the Jewish adult population from deportation during the Nazi occupation is little known to American readers. In The Hidden Children of France, Danielle Baily (a hidden child herself whose family travelled all over rural France before sending her to live with strangers who could protect her) reveals the stories behind the statistics of those who were saved by the extraordinary acts of ordinary people. Eighteen former "hidden children" describe their lives before, during, and after the war, recounting their incredible journeys and expressing their deepest gratitude to those who put themselves at risk to save others. Danielle Baily is one of the surviving "hidden children." She was Professor of Linguistics at Paris Diderot University until 1998. Since then she has worked as a consultant and researcher. Betty Becker-Theye is Professor Emeritus and former Dean of the College of Fine Arts and Humanities at the University of Nebraska at Kearney and Adjunct Professor of Modern Languages at the University of Maine Hutchinson Center. She is the author of The Seducer as Mythic Figure in Richardson, Lacos, and Kierkegaard.

Chronicles an American mother's year abroad with her two daughters in Aix-en-Provence. Part memoir and part fiction, this adventure is presided over by an aloof and proprietary mongrel, the Boss Dog, who frequents the young family's favorite cafe.
