Golding's classic, startling, and perennially bestselling portrait of human nature remains as provocative today as when it was first published. This beautiful new edition features French flaps and rough fronts, making it a must-have for fans of this

AN INSTANT NEW YORK TIMES BESTSELLER The "lively" (The New Yorker), "convincing" (Forbes), and "riveting pick-me-up we all need right now" (People) that proves humanity thrives in a crisis and that our innate kindness and cooperation have been the greatest factors in our long-term success as a species. If there is one belief that has united the left and the right, psychologists and philosophers, ancient thinkers and modern ones, it is the tacit assumption that humans are bad. It's a notion that drives newspaper headlines and guides the laws that shape our lives. From Machiavelli to Hobbes, Freud to Pinker, the roots of this belief have sunk deep into Western thought. Human beings, we're taught, are by nature selfish and governed primarily by self-interest. But what if it isn't true? International bestseller Rutger Bregman provides new perspective on the past 200,000 years of human history, setting out to prove that we are hardwired for kindness, geared toward cooperation rather than competition, and more inclined to trust rather than distrust one another. In fact this instinct has a firm evolutionary basis going back to the beginning of Homo sapiens. From the real-life Lord of the Flies to the solidarity in the aftermath of the Blitz, the hidden flaws in the Stanford prison experiment to the true story of twin brothers on opposite sides who helped Mandela end apartheid, Bregman shows us that believing in human generosity and collaboration isn't merely optimistic—it's realistic. Moreover, it has huge implications for how society functions. When we think the worst of people, it brings out the worst in our politics and economics. But if we believe in the reality of humanity's kindness and altruism, it will form the foundation for achieving true change in society, a case that Bregman makes convincingly with his signature wit, refreshing frankness, and memorable storytelling. In this ambitious and densely worked novel, we begin to see early signs of Ngugi's increasing bitterness about the ways in which the politicians are the true benefactors of the rewards of independence.

Sammy Mountjoy, artist, rises from poverty and an obscure birth to see his pictures hung in the Tate Gallery. Swept into World War Two, he is taken as a prisoner-of-war, threatened with torture, then locked in a cell of total darkness to wait. He emerges from

his cell transfigured from his ordeal, and begins to realise what man can be and what he has gradually made of himself through his own choices. But did those accumulated choices also begin to deprive him of his free will.

Fame, success, fortune, a drink problem slipping over the edge into alcoholism, a dead marriage, the incurable itches of middle-aged lust. For Wilfred Barclay, novelist, the final unbearable irritation is Professor Rick L. Tucker, implacable in his determination to become The Barclay Man. Locked in a lethal relationship they stumble across Europe, shedding wives, self-respect and illusions. The climax of their odyssey, when it comes, is as inevitable as it is unexpected.

This remarkable and monumental book at last provides a comprehensive answer to the age-old riddle of whether there are only a small number of 'basic stories' in the world. Using a wealth of examples, from ancient myths and folk tales via the plays and novels of great literature to the popular movies and TV soap operas of today, it shows that there are seven archetypal themes which recur throughout every kind of storytelling. But this is only the prelude to an investigation into how and why we are 'programmed' to imagine stories in these ways, and how they relate to the inmost patterns of human psychology. Drawing on a vast array of examples, from Proust to detective stories, from the Marquis de Sade to E.T., Christopher Booker then leads us through the extraordinary changes in the nature of storytelling over the past 200 years, and why so many stories have 'lost the plot' by losing touch with their underlying archetypal purpose. Booker analyses why evolution has given us the need to tell stories and illustrates how storytelling has provided a uniquely revealing mirror to mankind's psychological development over the past 5000 years. This seminal book opens up in an entirely new way our understanding of the real purpose storytelling plays in our lives, and will be a talking point for years to come.

Maleeka suffers every day from the taunts of the other kids in her class. If they're not getting at her about her homemade clothes or her good grades, it's about her dark, black skin. When a new teacher, whose face is blotched with a startling white patch, starts at their school, Maleeka can see there is bound to be trouble for her too. But the new teacher's attitude surprises Maleeka. Miss Saunders loves the skin she's in. Can Maleeka learn to do the same?

Sequel to: Close quarters.

After the trouble starts and the soldiers arrive on Matilda's island, only one white person stays behind. Mr. Watts, whom the kids call Pop Eye, wears a red nose and pulls his wife around on a trolley, and he steps in to teach the children when there is no one else. His only lessons consist of reading from his battered copy of Great Expectations, a book by his friend

Mr. Dickens. For Matilda, Dickens's hero Pip becomes as real to her as her own mother, and the greatest friendship of her life has begun. Soon Mr. Watts's book begins to inflame the children's imaginations with dreams about Dickens's London and the larger world. But how will they answer when the soldiers demand to know: where is this man named Pip? Set against the stunning beauty of Bougainville in the South Pacific during the civil war in the early 1990s, Lloyd Jones's breathtaking novel shows what magic a child's imagination makes possible even in the face of terrible violence and what power stories have to fuel the imagination.

The Great Fire of 1871 was one of most colossal disasters in American history. Overnight, the flourishing city of Chicago was transformed into a smoldering wasteland. The damage was so profound that few people believed the city could ever rise again. By weaving personal accounts of actual survivors together with the carefully researched history of Chicago and the disaster, Jim Murphy constructs a riveting narrative that recreates the event with drama and immediacy. And finally, he reveals how, even in a time of deepest despair, the human spirit triumphed, as the people of Chicago found the courage and strength to build their city once again.

Lose yourself in an epic naval journey in the second novel in the Booker Prize-winning Sea Trilogy by the author of Lord of the Flies. This tropical nowhere was the whole world - the whole imaginable world. A decrepit warship is becalmed halfway to Australia, stilled in an ocean wilderness of heat and sea mists. In this surreal, fête-like atmosphere, a ball is held with a passing ship: the passengers dance and flirt, while beneath them seaweed like green hair spreads ominously over the hull. Half-mad with fear, drink, love and opium, both vessel and passengers feel themselves going to pieces: and the very planks seem to twist themselves alive as the ship comes apart at the seams . . . 'No living writer has represented the fragility of man's experience so marvellously as Golding.' AS Byatt 'It is in Golding's magnificent, therapeutic, terrifying descriptions of seascapes that the deepest meanings can be

found.' Kate Mosse 'Stunning . . . As exciting as any thriller.' Sunday Times 'A feat of imaginative reconstruction, as vivid as a dream.' Daily Mail 'Tells an utterly absorbing tale, in language of immense force and subtlety.' Financial Times To The Ends of the Earth: A Sea Trilogy - Book Two

Before *The Hunger Games* there was *Lord of the Flies* *Lord of the Flies* remains as provocative today as when it was first published in 1954, igniting passionate debate with its startling, brutal portrait of human nature. Though critically acclaimed, it was largely ignored upon its initial publication. Yet soon it became a cult favorite among both students and literary critics who compared it to J.D. Salinger's *The Catcher in the Rye* in its influence on modern thought and literature. William Golding's compelling story about a group of very ordinary small boys marooned on a coral island has become a modern classic. At first it seems as though it is all going to be great fun; but the fun before long becomes furious and life on the island turns into a nightmare of panic and death. As ordinary standards of behaviour collapse, the whole world the boys know collapses with them—the world of cricket and homework and adventure stories—and another world is revealed beneath, primitive and terrible. Labeled a parable, an allegory, a myth, a morality tale, a parody, a political treatise, even a vision of the apocalypse, *Lord of the Flies* has established itself as a true classic. "Lord of the Flies is one of my favorite books. That was a big influence on me as a teenager, I still read it every couple of years." —Suzanne Collins, author of *The Hunger Games* "As exciting, relevant, and thought-provoking now as it was when Golding published it in 1954." —Stephen King

The Allegory of the Cave, or Plato's Cave, was presented by the Greek philosopher Plato in his work *Republic* (514a–520a) to compare "the effect of education () and the lack of it on our nature". It is written as a dialogue between Plato's brother Glaucon and his mentor Socrates, narrated by the latter. The allegory is presented after the analogy of the sun (508b–509c) and the analogy of the divided line (509d–511e). All three are characterized in relation to dialectic at the end of Books VII and VIII (531d–534e). Plato has Socrates describe a group of people who have lived chained to the wall of a cave all of their lives, facing a blank wall. The people watch shadows projected on the wall from objects passing in front of a fire behind them, and give names to these shadows. The shadows are the prisoners' reality.
