This volume explores the creation of 'written spaces' through the accretion of monumental inscriptions and non-official graffiti in the Latin-speaking West between c.200 BC and AD 300. The shift to an epigraphic culture demonstrates new mentalities regarding the use of language, the relationship between local elites and the population, and between local elites and the imperial power. The creation of both official and non-official inscriptions is one of the most recognisable facets of the Roman city. The

chapters of this book consider why urban populations created these written spaces and how these spaces in turn affected those urban civilisations. They also examine how these inscriptions interacted to create written spaces that could inculcate a sense of 'Roman-ness' into urban populations whilst also acting as a means of differentiating communities from each other. The volume includes new approaches to the study of political entities, social institutions, graffiti and painting, and the differing trajectories of written spaces in the cities of Roman Africa, Italy, Spain and Gaul.

After ten years, the two women reunite. When Domenica gives birth to a son, Barni, also known as Little Mother, is at her side. Together with the new baby, Domenica and Barni find their Somali roots and start to heal the pain they have suffered in war and exile. This powerful yet tender novel underscores the strength of women, family, and community, and draws on the tenacious yearning for a homeland that has been denied.

detective August Shaw has spent the last decade of work solving cold cases. Since the death of his boyfriend eight years ago, August works alone, lives alone, is alone -- and that's exactly how he likes it. His work is his entire life, and he's convinced a string of unsolved cold-case suicides are linked to what could be Australia's worst ever serial killer. Problem is, no one believes him. Senior Constable Jacob Porter loves his life in the small town of Tallowood in the middle of the rainforests in northern New South Wales. He runs summer camps for the local Indigenous kids, plays rugby with his mates, has a close family, and he's the local LGBTQIA+ Liaison and the Indigenous Liaison Officer. With Jacob now firmly in August's corner, they face one hurdle after another, even when more remains are found, they still can't seem to gain ground. But when the body of a fellow police officer turns up under the same MO, it can't be ignored anymore. August and Jake must trace the untraceable before the killer takes his next victim or before he stops one of them, permanently.

This volume presents an in-depth analysis of mock politeness, bringing together research from different academic fields and investigating a range of first-order metapragmatic labels for mock politeness in British English and Italian. It is the first book-length theorisation and detailed description of mock politeness and, as such, contributes to the growing field of impoliteness. The approach taken is methodologically innovative because it takes a first-order metalanguage approach, basing the analysis on behaviours which participants themselves have identified as impolite. Furthermore, it exploits the affordances of corpus pragmatics, a rapidly developing field.

Now, for the first time, the ticket collector has come to demand his dues. At first, Terzani turns to Western medicine for a cure, but a question soon begins to haunt him: is cancer, as the doctors say, an enemy that needs to be destroyed, or is it a friend one can talk to? Travelling had always been a way of life for him, so he decides to make another trip, in search of a solution - to India. This final ride turns out to be very different

As he crisscrosses the country from an ashram in Coimbatore to a hut in Almora, the external journey in search of a cure transforms into an inner journey and a return to the divine roots of man. Then, one day, as he looks at the sun rising over the mountains, he stumbles upon the one truth that has eluded him: death is as desirable and eternal as life itself. A bestseller in Europe, this is a book about modern medicine and alternative cures, and the quest to understand the true meaning of mortality.

He realized that it is easier for the unconscious to understand the language of dreams than that of rationality. Illness can even be seen as a physical dream that reveals unresolved emotional and psychological problems. Psychomagic presents the shamanic and genealogical principles Jodorowsky discovered to create a healing therapy that could use the powers of dreams, art, and theater to empower individuals to heal wounds that in some cases had traveled through generations. For a young man who complained that he lived only in his head and was unable to grab hold of reality and advance toward the financial autonomy he desired, Jodorowsky gave the prescription to paste two gold coins to the soles of his shoes so that all day he would be walking on gold. This unconventional and lighthearted introduction to the ideas of the major Western philosophers examines The Simpsons – TV's favorite animated family. The authors look beyond the jokes, the crudeness, the attacks on society – and see a clever

display of irony, social criticism, and philosophical thought. The writers begin with an examination of the characters. Does Homer actually display Aristotle's virtues of character? In what way does Bart exemplify American pragmatism? The book also examines the ethics and themes of the show, and concludes with discussions of how the series reflects the work of Aristotle, Marx, Camus, Sartre, and other thinkers.
