The Report Card

Get Free Lost And Found By Andrew Clements Aijjaore

It isn't that Abby Carson can't do her schoolwork. She just doesn't like doing it. And in February a warning letter arrives at her home. Abby will have to repeat sixth grade—unless she meets some specific conditions, including taking on an extra-credit project to find a pen pal in a distant country. Seems simple enough. But when Abby's first letter arrives at a small school in Afghanistan, the village elders agree that any letters going back to America must be written well. In English. And the only qualified student is a boy, Sadeed Bayat. Except in this village, it is not proper for a boy to correspond with a girl. So Sadeed's younger sister will write the letters. Except she knows hardly any English. So Sadeed must write the letters. For his sister to sign. But what about the villagers who believe that girls should not be anywhere near a school? And what about those who believe that any contact with Americans is . . . unhealthy? Not so simple. But as letters flow back and forth—between the prairies of Illinois and the mountains of central Asia, across cultural and religious divides, through the minefields of different lifestyles and traditions—a small group of children begin to speak and listen to one another. And in just a few short weeks, they make important discoveries about their communities, about their world, and most of all, about themselves.

Frindle

“A rousing adventure yarn full of danger and heart and humor.” —Richard Russo
An instant classic for fans of Jane Smiley and Kitchens of the Great Midwest: when two hardscrabble young boys think they’ve committed a crime, they flee into the Northwoods of Wisconsin. Will the adults trying to find and protect them reach them before it’s too late? It’s the summer of 1994 in Claypot, Wisconsin, and the lives of ten-year-old Fischer “Fish” Branson and Dale “Bread” Breadwin are shaped by the two fathers they don’t talk about. One night, tired of seeing his best friend bruised and terrorized by his no-good dad, Fish takes action. A gunshot rings out and the two boys flee the scene, believing themselves murderers. They head for the woods, where they find their way onto a raft, but the natural terrors of Ironsforge gorge threaten to overwhelm them. Four adults track them into the forest, each one on a journey of his or her own. Fish’s mother Miranda, a wise woman full of fierce faith; his granddad, Teddy, who knows the woods like the back of his hand; Tiffany, a purple-haired gas station attendant and poet looking for connection; and Sheriff Cal, who’s having doubts about a life in law enforcement. The adults track the boys toward the novel’s heart-pounding climax on the edge of the gorge and a conclusion that beautifully makes manifest the grace these

characters find in the wilderness and one another. This timeless story of loss, hope, and adventure runs like the river itself amid the vividly rendered landscape of the Upper Midwest.

After being shrunk by a shrinking machine, Alexander, his cousin Judy, and Thudd the robot encounter drain flies, a cockroach, and worse as they work their way through Mrs. Scuttle's house toward safety.

A moving holiday story from New York Times bestselling author Andrew Clements. For Hart Evans, being the most popular kid in sixth grade has its advantages. Kids look up to him, and all the teachers let him get away with anything -- all the teachers except the chorus director, Mr. Meinert. When Hart's errant rubber band hits Mr. Meinert on the neck during chorus practice, it's the last straw for the chorus director, who's just learned he's about to lose his job due to budget cuts. So he tells the class they can produce the big holiday concert on their own. Or not. It's all up to them. And who gets elected to run the show? The popular Mr. Hart Evans. Hart soon discovers there's a big difference between popularity and leadership, and to his surprise, discovers something else as well -- it's really important to him that this be the best holiday concert ever, and even more important, that it not be the last.

Man Out

Ted Hammond learns that in a very small town, there's no such thing as an isolated event. And the solution of one mystery is often the beginning of another. Ted Hammond loves a good mystery, and in the spring of his fifth-grade year, he's working on a big one. How can his school in the little town of Plattsford stay open next year if there are going to be only five students? Out here on the Great Plains in western Nebraska, everyone understands that if you lose the school, you lose the town. But the mystery that has Ted's full attention at the moment is about that face, the face he sees in the upper window of the Andersons' house as he rides past on his paper route. The Andersons moved away two years ago, and their old farmhouse is empty, boarded up tight. At least it's supposed to be. A shrinking school in a dying town. A face in the window of an empty house. At first these facts don't seem to be related. But...

This map-tastic middle grade story from Andrew Clements gives the phrase "uncharted territory" a whole new meaning! Alton Barnes loves maps. He's loved them ever since he was little, and not just for the geography. Because maps contain more information than just locations, and that's why he likes to draw them as well as read them. Regular

“point A to point B” ones, sure, but also maps that explain a whole lot more—like what he really thinks about his friends. And teachers. Even the principal. So when Alton’s maps are stolen from his locker, there’s serious trouble on the horizon...and he’ll need some serious cartographic skills to escape it. From “a genius of gentle, high-concept tales set in suburban middle schools” (The New York Times), this stand-alone story is off the charts.

The Last Holiday Concert

As the end of sixth grade nears, Jordan Johnson, unhappy that she is only average in appearance, intelligence, and athletic ability, reveals her special skills when disaster

strikes her central Illinois elementary school.

The story of men who are hurting—and hurting America by their absence Man Out describes the millions of men on the sidelines of life in the United States. Many of them have been pushed out of the mainstream because of an economy and society where the odds are stacked against them; others have chosen to be on the outskirts of twenty-first-century America. These men are disconnected from work, personal relationships, family and children, and civic and community life. They may be angry at government, employers, women, and "the system" in general—and millions of them have done time in prison and have cast aside many social norms. Sadly, too many of these men are unsure what it means to be a man in contemporary society. Wives or partners reject them; children are estranged from them; and family, friends, and neighbors are embarrassed by them. Many have disappeared into a netherworld of drugs, alcohol, poor health, loneliness, misogyny, economic insecurity, online gaming, pornography, other off-the-grid corners of the internet, and a fantasy world of starting their own business or even writing the Great American novel. Most of the men described in this book are poorly educated, with low incomes and often with very few prospects for rewarding employment. They are also disproportionately found among millennials, those over 50, and African American men. Increasingly, however, these lost men are discovered even in tony suburbs and throughout the nation. It is a myth that men on the outer corners of society are only lower-middle-class white men dislocated by technology and globalization. Unlike those who primarily blame an unjust economy, government policies, or a culture sanctioning "laziness," Man Out explores the complex interplay between economics and culture. It rejects the politically charged

dichotomy of seeing such men as either victims or culprits. These men are hurting, and in turn they are hurting families and hurting America. It is essential to address their problems. Man Out draws on a wide range of data and existing research as well as interviews with several hundred men, women, and a wide variety of economists and other social scientists, social service providers and physicians, and with employers, through a national online survey and in-depth fieldwork in several communities.

Mark didn't ask to move to New Hampshire. Or to go to a hick school like Hardy Elementary. And he certainly didn't request Mr. Maxwell as his teacher. Mr. Maxwell doesn't like rich kids, or slackers, or know-it-alls. And he's decided that Mark is all of those things. Now the whole school is headed out for a week of camping -- Hardy's famous Week in the Woods. At first it sounds dumb, but then Mark begins to open up to life in the country, and he decides it might be okay to learn something new. It might even be fun. But things go all wrong for Mark. The Week in the Woods is not what anyone planned. Especially not Mr. Maxwell. With his uncanny knack to reach right to the heart of kids, Andrew Clements asks -- and answers -- questions about first impressions, fairness, loyalty, and courage -- and exactly what it takes to spend a Week in the Woods.

*In the follow-up to the "bedazzling, bewitching, and be-wonderful" (NYTBR) best-selling and Pulitzer Prize-winning *Less: A Novel*, the awkward and lovable Arthur Less returns in an unforgettable road trip across America. "Go get lost somewhere, it always does you good." For Arthur Less, life is going surprisingly well: he is a moderately accomplished novelist in a steady relationship with his partner, Freddy Pelu. But nothing lasts: the death of an old lover and a sudden financial crisis has Less running away from his problems yet again as he accepts a series of literary gigs that send him on a zigzagging adventure across the US. Less roves across the "Mild Mild West," through the South and to his mid-Atlantic birthplace, with an ever-changing posse of writerly characters and his trusty duo - a human-like black pug, Dolly, and a rusty camper van nicknamed Rosina. He grows a handlebar mustache, ditches his signature gray suit, and disguises himself in the bolero-and-cowboy-hat costume of a true "Unitedstatesian"... with varying levels of success, as he continues to be mistaken for either a Dutchman, the wrong writer, or, worst of all, a "bad gay." We cannot, however, escape ourselves--even across deserts, bayous, and coastlines. From his estranged father and strained relationship with Freddy, to the reckoning he experiences in confronting his privilege, Arthur Less must eventually face his personal demons. With all of the irrepressible wit and musicality that made *Less* a bestselling, Pulitzer Prize-winning, must-read breakout book, *Less Is Lost* is*

a profound and joyous novel about the enigma of life in America, the riddle of love, and the stories we tell along the way.

Many of the places that helped make Dayton a center of innovation were lost to history, while others survived and adapted, representing the city's spirit of revitalization. Some of the city's distinctive and significant structures, such as Steele High School and the Callahan Building, were demolished, while others, including the Arcade and Centre City Building, saw hard times but now await redevelopment. Entire neighborhoods, such as the Haymarket, and commercial districts, such as West Fifth Street, vanished and show no traces of their past. Others, including the popular Oregon District, narrowly escaped the wrecking ball. From the Wright Brothers Factory to the park that hosted the first NFL game, Andrew Walsh explores the diverse selection of retail, industrial, entertainment and residential sites from Dayton's disappearing legacy.
