

## Lost Legion

In the year 53 b.C. a Roman army is defeated in Asia Minor. A legion survives and settles in China. At the present time an Italian historian travels to unveil the mystery of the fate of those 10,000 men near the Gobi Desert. In that endeavor he finds the love of a Chinese Anthropologist but also the danger of dark interests that do not want their presence in the region. The quest becomes a personal challenge. A brilliant exponent of the historical fiction genre. The Lost Legion is a thriller that will keep your breath until the end.

"Camp Fire Yarns of the Lost Legion" by G. Hamilton-Browne is a book that reveals the anecdotes of soldiers against the Maori tribes in South Africa. Excerpt: "In introducing these yarns let me state that now I am laid up on the shelf my thoughts go back to those days and nights of the veld and bush, and I frequently feel I would give all the rest of the map if I could again find myself on the open lands of the frontier with a good horse between my knees and a few scores of the old boys behind me. Now I hold pen instead of carbine and revolver, but why should memories of the old days pass away? Let me fancy I sit by the camp fire again, telling yarns as we used to under the dark blue skies and blazing stars of South Africa. Let me spin you some yarns of the Lost Legion."

Near the turn of the first century, the Ninth Legion disappeared from frontier borderlands separating Romanized Britannia from the uncivilized lowlands of Caledonia. Between its first deployment there during Agricola's invasion in 84AD and the return of Emperor Hadrian in 122AD, all mention of the Ninth fades from memory. Although history speaks clearly of a massive uprising in the same region during 119AD, no authenticated record confirms the legion's military annihilation on a field of battle, and no evidence confirms its reassignment to any other region of the empire. Contemporary Rome, and all of history, seems to have simply forgotten the Ninth. Until now. Recent archeological discoveries clarify the legion's fate. As outlined in a unique letter penned two-thousand-years ago on a carefully preserved swatch of parchment, Legio IX's mysterious destiny is a tale of political intrigue, financial mismanagement, familial in-fighting, and social upheaval, all intermixed with the unyielding discipline required to keep a Roman legion safe in the field. For the first time since these events unfolded, the fully restored "Governor's Letter" identifies the men, women and children that collectively contrived the disaster. More informatively, the famed missive also clearly implicates its author as a central conspiratorial architect of the plot that resulted in the bloody revolt of 119AD and Legio IX's puzzling disappearance. Bold and thought-provoking, this account of the Ninth's intriguing doom rises from factual foundations constructed of moldering parchments, crumbling bones and toppled stones, all base materials of history's reconstruction.

***In the latter days of the Roman Empire, the corruption of the Caesars led to the decay of the government. Vast sums of revenues were either diverted or stolen. The legions in the outer provinces were weakened for lack of funding. The conflict between Rome and Constantinopolis (Constantinople) rose into open rebellion. The empire was split in two; the Western Roman Empire with its capital in Rome and the Eastern Roman Empire or as it would later be known as Byzantium with Constantinople as its capital. The western empire was weak but it held the seat of the Catholic Church with the Pope in the Holy City of Rome. Attacks by the Vandals and Ostrogoths weakened Gaul and pressed on to Rome. The trade routes to Rome were cut off by the warring factions in Germania. The Amber Road was one of the trade routes cut from reaching Rome. In 402 A.D. secret order was made to send a legionary force of 2500 men was sent into northeastern Germania what is today Poland. They were ordered to reopen the Amber Road and to protect the trade caravans from Gedania (Gdansk) to Vindobona (Vienna). Finally, in 410 A.D. King Alaric of the Visigoths sacked Rome. The Western Empire fell and broke into fragmented provinces. Ravenna was now the capital city of what was left of the Western Empire. The Legion to the north was lost in all of the confusion and forgotten. For twenty years it would have to survive on its own against many changing forces that passed through northern Europe, including the Huns. This is the story of the Lost Legion into the north.***

Over trackless, uncharted mountains and flaming deserts, where thirst and hunger took their toll in blood and death, Silver Trent led the remnant of his Raiders against El Diablo's mighty wasteland stronghold.... But could Silver hope to rally his enslaved countrymen imprisoned there and win free the girl he loved-or would he and his loyal followers spend the rest of their days in that desert tyrant's torture pits?

A vast tapestry of ancient times unfolds in this stirring tale of adventure and romance, whose setting reaches from the hills of rome to the limits of the known world in the age of the Emperor Caligula.

Set during the period of the late Roman Republic, the Western Dragon follows the trials and adventures of the centurion, Ateius Labeo. Ateius is captured after the disasterous Battle of Carrhae by the Parthians and transported as a slave thousands of miles eastward. There, he is forced to fight to the death for the amusement of others until he makes his escape further east to the lands of ancient China. Because of his talents, Ateius quickly rises through the ranks of the Han Imperial Army until intrigue puts his life and those of his friends in danger.

Legio IX Hispana had a long and active history, later founding York from where it guarded the northern frontiers in Britain. But the last evidence for its existence in Britain comes from AD 108. The mystery of their disappearance has inspired debate and imagination for decades. The most popular theory, immortalized in Rosemary Sutcliffe's novel The Eagle of the Ninth, is that the legion was sent to fight the Caledonians in Scotland and wiped out there.But more recent archaeology (including evidence that London was burnt to the ground and dozens of decapitated heads) suggests a crisis, not on the border but in the heart of the province, previously thought to have been peaceful at this time. What if IX Hispana took part in a rebellion, leading to their punishment, disbandment and damnatio memoriae (official erasure from the records)? This proposed 'Hadrianic War' would then be the real context for Hadrian's 'visit' in 122 with a whole legion, VI Victrix, which replaced the 'vanished' IX as the garrison at York. Other theories are that it was lost on the Rhine or Danube, or in the East. Simon Elliott considers the evidence for these four theories, and other possibilities.

The Lost Legion follows Quintus, a veteran Roman centurion who has been hired by the senator Marcus Crassus to prepare his newly recruited legions to invade Parthia and beyond. But the initial battle with their enemy fails, resulting in the capture of Quintus and thousands of other Romans. Compelled to lead the captives to freedom by his bonds of comradeship, the centurion and his troops escape to a land that is hostile, unyielding and unexpectedly civilised: a land that eventually overwhelms them.For the last two millennia, scholars believed the soldiers who survived the Battle of Carrhae perished until in 1940 historian Homer H. Dubs proposed that the Romans later journeyed into Central Asia and Han China, an idea backed by the writings of renowned ancient authors: Pliny the Elder, Horace and Ban Gu.

The theory, together with a wealth of imagination and research, provides the plot for the enticing historical adventure novel: The Lost Legion.

Captured by the alien Ramanthians, diplomat Christine Vanderveen must protect the Confederacy's President from both their captors and fellow prisoners. But rescue is on the way, led by Lieutenant Tonio Sanchez, Vanderveen's former lover, who must try to set aside his personal feelings for the sake of the mission.

The son of underpaid Mexican immigrants, Jaime earned a degree in mechanical engineering from Purdue. But at twenty-three, he was disillusioned with the corporate fast track. So he became an outcast American in a hard-bitten group of recruits-men on the run from their pasts, men without hope: He joined the French Foreign Legion. From the Legion's notoriously brutal training to Salazar's fierce competitiveness, ultimate disillusionment and dramatic desertion, Legion of the Lost is a compelling, firsthand account of today's French Foreign Legion that will dispel myths while adding to the legend of the finest trained army of warriors the world has ever known.

Excerpt from **With the Lost Legion in New Zealand** Every Johnny not a professional novelist has, I suppose, some reason besides making money when he sits down to write a book, for, as far as I can see, there is deuced little pleasure to be gained by the author while occupied in doing so, especially if, like myself, he should have passed some forty years of his life on the frontiers of the Empire, and, with the exception of writing an occasional letter, has never, during that time, taken a pen in his hand. My reason is that during the last three or four years, since broken health and bad luck drove me back to civilisation, such as it is in England, I have frequently been knocked end-ways by the woeful ignorance of all classes of Englishmen, not only of the history of the various colonies that form the Empire, but also of the struggles of the men in acquiring and holding the same. Again I have noticed no one ever gives the colonial irregular troops the least credit of having fought and suffered in the Imperial cause, nor does anyone in this country seem to be aware of the debt the Empire owes to the men of the Lost Legion. In AD383, according to Bishop Eucherius of Lyon, flooding caused part of the bank of the River Rhone to collapse, revealing a massed grave of thousands of bodies. Eucherius identified these as a legion recruited for the Roman army from the Christians of the Theban district in Egypt, whom he claimed had been massacred nearly a century previously (near the modern village of St Maurice-en-Valais in southwestern Switzerland) for refusing to obey orders they considered immoral. This incident, asserted by Eucherius as matter of fact, is unrecorded elsewhere. Even the existence of this Theban legion is unclear.
