An account of the decades-long friendship between the iconic author and the famed actor, with photos included. In the autumn of 1940, two icons of American culture met in Sun Valley, Idaho—writer Ernest Hemingway and actor Gary Cooper. Although “Hem” was known as brash, larger-than-life, and hard-drinking and “Coop” as courteous, non-confrontational, and taciturn, the two became good friends. And though they would see each other over the years in Hollywood, Cuba, New York, and Paris, it was to Idaho they always returned. Here they hunted together, waded through marshes, and hiked sagebrush-covered hills, sometimes talking and sometimes not, but continually forging a close comradeship. That bond sustained them through the highs and lows of stardom, through personal trials and triumphs, and from their first conversation to their deaths seven weeks apart in 1961. Here, historian Larry Morris celebrates the story of that unforgettable friendship.

Truth is in the Darkness

The Cowboy's Christmas Courtship

Turners: 1, Coopers: 1 Lance Cooper knows he shouldn't try to escape his present problems by focusing on the past, but running Chance Creek's Fourth of July Revolutionary War re-enactment is far easier than sorting out his family's long-running feud with the Turners. At least it was until Maya Turner joins the historical society and upsets all his plans. Maya Turner loves history, but Chance Creek's re-enactments are boring—and far too predictable. Everyone knows who won the Revolutionary War, after all. Why shouldn't they inject some drama—and sexy intrigue—into the annual event? It's bad enough Maya's ideas are catching on with the rest of the re-enactment committee. It's worse Lance's heart is betraying him, too. How can he fall for her knowing how her family destroyed his? But the past has its own secrets—and learning them can change everything.. With the help of a magical parrot, Cammie and Cooper find a way to save the rain forests. Along the way they have some surprising adventures.

This is the story of one soldier of the so called Great War. He sailed from Australia at the end of 1914, a proud, even bombastic youth with the certainty that he would do his bit to save Mother England and by doing so, set the world on the right path. He was totally ignorant of the real causes of this war and the place that the different countries played in it. When he landed at Gallipoli though and found the air permeated with the stench of the hundreds of rotting bodies still lying where they had fallen a month earlier, he was confronted by the reality and horror of war. He records his first shot in his diary - it was far from the first time he had fired a gun, but it was the first time he had deliberately fired a shot with the intent of killing another human being. The evacuation of Gallipoli, then the inept defeat at Gaza and the realisation that he had to become a completely different person to be able to obey the orders he was given weighed heavily on his soul. Gandhi once said that 'Man finds himself by losing himself', and this is the story of how Lieutenant Bruce Campbell struggled to find himself and the difficulties he had in fitting back into a society where the civilians were still thinking in terms of their pre-war society. Returning home brought no joy either. Even things that he expected to be familiar now seemed strange and no one at home had any idea of what the war was really like. To make matters worse, he was dumped by his fiancée. This biographical novel is about his struggles to overcome all these adversities. He finally falls in love with a woman who has also been adversely affected by the war and has her own obstacles to overcome. Between them, they carve out a happy and meaningful life on the block of land Bruce has been granted under the Soldier Settlement Scheme. It is a heartwarming story about the legacy of the war and the healing power of love.
