A language barrier is no match for love. Lauren Collins discovered this firsthand when, in her early thirties, she moved to London and fell for a Frenchman named Olivier—a surprising turn of events for someone who didn't have a passport until she was in college. But what does it mean to love someone in a second language? Collins wonders, as her relationship with Olivier continues to grow entirely in English. Are there things she doesn't understand about Olivier, having never spoken to him in his native tongue? Does "I love you" even mean the same thing as "je t'aime"? When the couple, newly married, relocates to Francophone Geneva, Collins—fearful of one day becoming "a Borat of a mother" who doesn't understand her own kids—decides to answer her questions for herself by learning French. When in French is a laugh-out-loud funny and surprising memoir about the lengths we go to for love, as well as an exploration across culture and history into how we learn languages—and what they say about who we are. Collins grapples with the complexities of the French language, enduring excruciating role-playing games with her classmates at a Swiss language school and accidentally telling her mother-in-law that she's given birth to a coffee machine. In learning French, Collins must wrestle with the very nature of French identity and society—which, it turns out, is a far cry from life back home in North Carolina. Plumbing the mysterious depths of humanity's many forms of language, Collins describes with great style and wicked humor the frustrations, embarrassments, surprises, and, finally, joys of learning—and living in—French.

A New York Times bestseller and enduring classic, All About Love is the acclaimed first volume in feminist icon bell hooks' "Love Song to the Nation" trilogy. All About Love reveals what causes a polarized society, and how to heal the divisions that cause suffering. Here is the truth about love, and inspiration to help us instill caring, compassion, and strength in our homes, schools, and workplaces. "The word 'love' is most often defined as a noun, yet we would all love better if we used it as a verb," writes bell hooks as she comes out fighting and on fire in All About Love. Here, at her most provocative and intensely personal, renowned scholar, cultural critic and feminist bell hooks offers a proactive new ethic for a society bereft with lovelessness—not the lack of romance, but the lack of care, compassion, and unity. People are divided, she declares, by society's failure to provide a model for learning to love. As bell hooks uses her incisive mind to explore the question "What is love?" her answers strike at both the mind and heart. Razing the cultural paradigm that the ideal love is infused with sex and desire, she provides a new path to love that is sacred, redemptive, and healing for individuals and for a nation. The Utne Reader declared bell hooks one of the "100 Visionaries Who Can Change Your Life." All About Love is a powerful, timely affirmation of just how profoundly her revelations can change hearts and minds for the better.

Gareth Lockheart is one of the richest men in England, but it will take more than money for the reclusive eccentric to gain entrée into the corridors of power; it will also take an aristocratic wife with impeccable connections. Gareth is determined to find the right woman the same way he does everything in his life: employing logic and mathematics. Serena Lombard might be the widow of a duke's son, but she's always existed on the fringes. The unconventional French émigré has worked hard to create a secure home for her son and establish herself as a respected sculptor and landscape gardener. Serena loves the job the wealthy industrialist has hired her to do; it's too bad the man himself is so remote and unreadable. Not to mention distracting, gorgeous, and utterly captivating. Gareth should have known doing business with a woman would be a mistake, especially an unorthodox, opinionated, and far too appealing French widow who manages to destroy his iron-clad ability to concentrate without even trying. The only thing the two opposites can agree on is that they should avoid becoming entangled with one another—no matter how difficult that proves to be. But when Serena's dangerous past catches up with her, it is Gareth she turns to for help and he doesn't hesitate to give it. But can a man who needs order like other men need air give himself up to the most unpredictable emotion of all: Love?

As if his scarred body and mind aren't bad enough, he's also financially dependent on his brother, the duke, while he convalesces. Could Your Love Language Guide You to a Meaningful Life? In a world of varying beliefs and endless opportunities, determining how to spend our lives can seem impossible. And even more difficult than finding direction can be finding meaning. Perhaps we know what we're most interested in, but how do we know if it has purpose? These longings are rooted in our desire to feel God's presence in our lives, which begins when we know how He communicates with us. Seen. Known. Loved. examines how God—the Creator of the universe—intimately communicates with each of His people. Relationships expert Gary Chapman and coauthor R. York Moore offer practical insights for how to know your own love language and how God uses it to communicate with you. When we come to understand our own unique love language, we discover how God both speaks and listens. And, therefore, how He is intimately involved in our lives in ways we have never before identified. The first step to living with meaning is living in union with our God—the source of meaning.

From the New York Times bestselling author of The Love Hypothesis comes a new STEM-inist rom-com in which a scientist is forced to work on a project with her nemesis—with explosive results. Like an avenging, purple-haired Jedi bringing balance to the mansplained universe, Bee Königswasser lives by a simple code: What would Marie Curie do? If NASA offered her the lead on a neuroengineering project—a literal dream come true after years scraping by on the crumbs of academia—Marie would accept without hesitation. Duh. But the mother of modern physics never had to co-lead with Levi Ward. Sure, Levi is attractive in a tall, dark, and piercing-eyes kind of way. And sure, he caught her in his powerfully corded arms like a romance novel hero when she accidentally dangled in distress on her first day in the lab. But Levi made his feelings toward Bee very clear in grad school—archenemies work best employed in their own galaxies far, far away. Now, her equipment is missing, the staff is ignoring her, and Bee finds her floundering career in somewhat of a pickle. Perhaps it's her occipital cortex playing tricks on her, but Bee could swear she can see Levi softening into an ally, backing her plays, seconding her ideas...devouring her with those eyes. And the possibilities have all her neurons firing. But when it comes time to actually make a move and put her heart on the line, there's only one question that matters: What will Bee Königswasser do?

comes a love story wrapped in a mystery: an up-all-night page-turner with a dark secret at its core I have held you at night for ten years and I didn't even know your name. We have a child together. A dog. a house. Who are you? Emma loves her husband Leo and their young daughter Ruby: she'd do anything for them. But almost everything she's told them about herself is a lie. And she might just have got away with it, if it weren't for her husband's job. Leo is an obituary writer; Emma a well-known marine biologist. When she suffers a serious illness, Leo copes by doing what he knows best - researching and writing about his wife's life. But as he starts to unravel the truth, he discovers the woman he loves doesn't really exist. Even her name isn't real. When the very darkest moments of Emma's past finally emerge, she must somehow prove to Leo that she really is the woman he always thought she was ... But first, she must tell him about the other love of her life.

Gary Chapman and Rick Osborne help children learn about the importance of love in this wonderfully imaginative and classically illustrated children's hardcover book featuring four-color illustrations (with hidden details) by Wilson Williams, Jr., and based on Gary's bestselling The 5 Love Languages. Each child in this entertaining and playful story learns that they have a primary love language that when "spoken" by others, makes them feel loved. As the five children in the story interact with Mr. Chapman and the unique animals at his special zoo/museum/theme park/birthday party palace, they come to understand their own love language! Readers, especially children ages 5-8, are sure to recognize their own love language as the story develops, and at the end of the book is a fun quiz that will help parents and children identify their own love language. The cast of child characters in this whimsical story include: Penny, Peyton's twin sister, who receives love best when others spend quality time with her. Mr. Chapman introduces Penny to Horace, a Ragdoll Cat who just wants to be with Penny. Jayla, one of Penny's close friends, is always saying nice things about people. Her love language is words of affirmation. Jayla's perfect pet pal is Pamela, an African Grey Parrot, who repeats the nice things Jayla says about others. Kevin, one of Peyton's close friends, enjoys giving things to people. So does his special pet Chip, a Capuchin Monkey! Sofia loves to pet the animals, and to show her love for others with special hugs. Physical touch is Sofia's love language. Snuggles
