Violent crime suddenly becomes personal for New York private investigator, Nathan Marley. A relative of Stella Delgado, Marley's assistant, is arrested for a brutal murder, and unidentified bodies are washed up on a beach. Marley's search for the truth takes him to the Russian American community where he finds a wall of silence. Behind the wall, there is trade in illegal immigration and a lot of dirty money.

"Uh-oh" embraces "Here we go again" and "Now What?" and "You never can tell what's going to happen next" and "So much for plan A" and "Hang on, we're coming to a tunnel" and "No sweat" and "Tomorrow's another day" and "You can't unscramble an egg" and "A hundred years from now it won't make any difference." "Uh-oh" is more than a momentary reaction to small problems. "Uh-oh" is an attitude—a perspective on the universe. It is a power of an equation that summarizes my view of the conditions of existence: "Uh-huh" + "oh-wow" + "uh-oh" + "oh, God" = "ah-hah!"

Spanning the fifth century to the sixteenth, and ranging from Afghanistan to Spain, this unique collection provides a profound insight into the sheer vitality and depth of Classical Arabic literature. From the earliest surviving fragments of *The Thousand and One Nights* to the elegant beauty and profound power of the Qur'an - believed by the Islamic faith to contain the actual words of Allah - it includes translated extracts from all the major works of the period, alongside many less well-known but equally fascinating pieces. Exploring such traditional themes as lovesick yearning and fated doom, and considering subjects as diverse as the etiquette of falling in love with slave-girls and the terrors of the sea, this compelling anthology of poetry and prose brilliantly illuminates a body of writing that has been unjustly neglected by the west for centuries.

Have you been attacked by a wolf-like creature in the last 30 days? Was it after the sun had set and under a full moon? If you answered, "yes" to both these questions, there's a very good chance that you were bitten by a werewolf. You now have less than a month before the full moon returns and with it your first transformation into a savage, bloodthirsty beast. Survival is an option, but first, know this: * Werewolves are real. * The majority of lycanthropes who do not have access to this book die during or shortly after their first transformations, generally due to heart failure, gunshot wounds, exposure, drowning or suicide. * Hollywood horror movies are NOT to be used as guides to living as a werewolf. Their goal is not to educate, but to entertain. As a result, they are largely ignorant of the realities of the condition. * Ignorance creates monsters; lycanthropy does not. * You are not a monster. *The Werewolf's Guide to Life* cuts through the fiction and guides you through your first transformation and beyond, offering indispensable advice on how to tell if you're really a werewolf, post-attack etiquette, breaking the news to your spouse, avoiding government abduction, and how to not just survive, but thrive. You cannot afford to not read this book. Your very life depends on it.

An original workbook companion to the acclaimed business bestseller *The Back of the Napkin* Dan Roam's *The Back of the Napkin*, a *BusinessWeek* bestseller, taught readers the power of brainstorming and communicating with pictures. It presented a new and exciting way to solve all kinds of problems-from the boardroom to the sales floor to the cubicle jungle. The companion workbook, *Unfolding the Napkin*, helps readers put Roam's principles into practice with step-by-step guidelines. It's filled with detailed case studies, guided do-it-yourself exercises, and plenty of blank space for drawing. Roam structured the book as a complete four-day visual-thinking seminar, taking readers step-by-step from "I can't draw" to "Here is the picture I drew that I think will save the world." The workbook teaches readers how to: •Improve their three "built-in" visual problem solving tools. •Apply the four-step visual thinking process (look-see-imagine-show) in any business situation. •Instantly improve their visual imaginations. •Learn how to recognize the type of problem to choose the best visual solution. If *The Back of the Napkin* was a guide to fine dining, *Unfolding the Napkin* is the cookbook that will soon be heavily marked up and dogeared.

In the last quarter of the twentieth century, urban colleges and universities found themselves enveloped by the poverty, crime, and physical decay that afflicted American cities. Some institutions turned inward, trying to insulate themselves rather than address the problems in their own neighborhoods. Others attempted to develop better community relations, though changes were hard to sustain. Spurred by an unprecedented crime wave in 1991, Pennsylvania President Judith Rodin knew that the time for urgent action had arrived, and she set a new course of proactive community development for her university. Her dedication to the revitalization of West Philadelphia was guided by her role not only as president but also as a woman with a deep affection for her hometown. The goal was to build capacity back into a severely distressed inner-city neighborhood—educational capacity, quality-of-life capacity, and especially economic capacity—guided by the belief that "town and gown" could unite as one richly vibrant community. Cities rely on their academic institutions as stable places of employment, cultural centers, civic partners, and concentrated populations of local business and services. And a competitive university demands a vibrant neighborhood to meet the needs of its faculty, staff, and students. With their mission, urban universities are uniquely positioned to lead their communities in revitalization efforts, yet this effort requires a new partnership. During Rodin's administration (1994-2004), the Chronicle of Higher Education referred to Penn's progress as a "national model of consistent town and gown interaction and partnership." This book narrates the challenges, frustrations, and successes of Penn's campaign, and its prospect for lasting change.

Lead Your Boss The Subtle Art of Managing Up Amacom Books

Written within a cloistered environment to protect sources that have yet to be identified, *TOO LATE TO SAY GOODBYE* is a chilling portrait of two beautiful, successful women whose murders were made to look like suicides. Jenn Corbin appeared to have it all: two little boys, a posh home in the suburbs of Atlanta, and a husband - Dr Bart Corbin, a successful dentist - who was handsome and brilliant. Then, in December 2004, Jenn was found dead with a bullet in her head, apparently by suicide. Only later would detectives learn that another woman in Dr Corbin's past had been found years earlier with nearly the exact same wound to the head, also ruled a suicide. In *TOO LATE TO SAY GOODBYE*, Ann Rule - working in cooperation with victims' families, police investigators, and sources from Georgia to Australia - unravels the now-sensational deaths. What emerges is an incredible tale of jealous rage; of stunning evidence that runs from the steamy to the macabre; and of a fateful, mind-boggling coincidence that appears to have motivated the killings. The definitive unravelling of one of the strangest murder investigations of our time, this is the greatest achievement of a truly great writing career.

This pocket-sized guide can be taken conveniently to meetings, interviews and visits, to be used as a quick reference point for information about the practical application of restorative justice. The book covers every stage of the process, from how a facilitator should prepare for taking on a new case, through initial contacts with victim and offender and facilitating meetings, to recording and evaluating a case. While acknowledging throughout the different possible ways of proceeding, the authors provide example prompts for steps such as writing to a victim for the first time, talking to the victim and offender ahead of their meeting, and initiating meetings. They use jargon-free language and provide helpful task checklists for speed and ease of reference. This is an invaluable companion for youth offending team workers, probation officers, prison staff, police, referral order volunteers, mediators and any professional needing to know about restorative justice.

For everyone who's curious about what's new under (and over and around) the stars. Douglas Adams famously pronounced in The Hitchhiker's Guide to the Galaxy that the answer to life, the universe, and everything was 42. Quirks & Quarks, whose approach to science owes almost as much to Adams as it does to Newton or Einstein or Hawking, have flipped that notion through a gap in the space-time continuum (or something like that) and come up with answers to the 42 essential questions about space. Much about the universe is very hard for most of us to grasp, and if anyone can explain these mind-bending aspects of the heavens above, it's the Quirks & Quarks producers, who have been bringing Canadians understandable science, with trademark humour, for more than thirty years. In their Guide to Space, they answer such pressing questions as Where does space begin? Why is most of the universe missing? Is there intelligent life in the universe? And the real puzzler: What came before the Big Bang? They also answer questions we wish we'd thought to ask, such as Can you surf a gravity wave? and Why is the universe's temperature on my TV? There are answers as well to far more practical questions, like What happens when you fall into a black hole? and How will the universe end? The answers, which have been vetted by a team of astronomers, are witty, authoritative, in-depth, accurate, up-to-date astronomically, and, of course, quirky.

Writers on Depression

Thoughts and Notions

Unholy Ghost is a unique collection of essays about depression that, in the spirit of William Styron's Darkness Visible, finds vivid expression for an elusive illness suffered by more than one in five Americans today. Unlike any other memoir of depression, however, Unholy Ghost includes many voices and depicts the most complete portrait of the illness. Lauren Slater eloquently describes her own perilous experience as a pregnant woman on antidepressant medication. Susanna Kaysen, writing for the first time about depression since Girl, Interrupted, criticizes herself and others for making too much of the illness. Larry McMurtry recounts the despair that descended after his quadruple bypass surgery. Meri Danquah describes the challenges of racism and depression. Ann Beattie sees melancholy as a consequence of her writing life. And Donald Hall lovingly remembers the "moody seesaw" of his relationship with his wife, Jane Kenyon. The collection also includes an illuminating series of companion pieces. Russell Banks's and Chase Twichell's essays represent husband-and-wife perspectives on depression; Rose Styron's contribution about her husband's struggle with melancholy is paired with an excerpt from William Styron's Darkness Visible; and the book's editor, Nell Casey, juxtaposes her own essay about seeing her sister through her depression with Maud Casey's account of this experience. These companion pieces portray the complicated bond -- a constant grasp for mutual understanding forged by depressives and their family members. With an introduction by Kay Redfield Jamison, Unholy Ghost allows the bewildering experience of depression to be adequately and beautifully rendered. The twenty-two stories that make up this book will offer solace and enlightenment to all readers.
