

Made In Abyss Vol 1

In Made in Abyss, bestselling creator Akihito Tsukushi took you deep into the earth. Now, in this riveting manga, he recounts the tale of an epic journey into the sky--and far, far beyond. When Kororu, a little girl living alone on a distant planet, finds a mysterious string hanging from the sky, she's left with just one choice: to climb it. Where does the string lead? And will she survive the journey to the other end?

Ainz, the undead overlord, is in dire need of better information about the world he's found himself in, and to get it, he travels to the city of E-Rantel. Disguised as a mere adventurer, he accepts a mission to venture deep into an eerie forest, but the swirling shadow of intrigue hides the road ahead...

Jason wakes up in a mysterious world of magic and monsters. It's not easy making the career jump from office-supplies-store middle manager to heroic interdimensional adventurer. At least, Jason tries to be heroic, but it's hard to be good when all your powers are evil. He'll face off against cannibals, cultists, wizards, monsters...and that's just on the first day. He's going to need courage, he's going to need wit, and he's going to need some magic powers of his own. But first, he's going to need pants. After cementing itself as one of the best-rated serial novels on Royal Road with an astonishing 13 million views, He Who Fights with Monsters is now available on Kindle. It's perfect for fans of Pirate Aba, Dakota Krout, and Luke Chmilenko.

Just as the plan to escape the orphanage is coming together, Mom viciously breaks Emma's leg and reveals that Norman's days are numbered. Emma and Ray will do anything to save their friend from being eaten by the demons, but can they outsmart their devious foe? -- VIZ Media

Grand in its scope, *Asian Comics* dispels the myth that, outside of Japan, the continent is nearly devoid of comic strips and comic books. Relying on his fifty years of Asian mass communication and comic art research, during which he traveled to Asia at least seventy-eight times and visited many studios and workplaces, John A. Lent shows that nearly every country had a golden age of cartooning and has experienced a recent rejuvenation of the art form. As only Japanese comics output has received close and by now voluminous scrutiny, *Asian Comics* tells the story of the major comics creators outside of Japan. Lent covers the nations and regions of Bangladesh, Cambodia, China, Hong Kong, India, Indonesia, Korea, Malaysia, Myanmar, Nepal, the Philippines, Singapore, Sri Lanka, Taiwan, Thailand, and Vietnam. Organized by regions of East, Southeast, and South Asia, *Asian Comics* provides 178 black-and-white illustrations and detailed information on comics of sixteen countries and regions—their histories, key creators, characters, contemporary status, problems, trends, and issues. One chapter harkens back to predecessors of comics in Asia, describing scrolls, paintings, books, and puppetry with humorous tinges, primarily in China, India, Indonesia, and Japan. The first overview of Asian comic books and magazines (both mainstream and alternative), graphic novels, newspaper comic strips and gag panels, plus cartoon/humor magazines, *Asian Comics* brims with facts, fascinating anecdotes, and interview quotes from many pioneering masters, as well as younger artists.

We commonly think of society as made of and by humans, but with the proliferation of machine learning and AI technology, this is clearly no longer the case. Billions of automated systems tacitly contribute to the social construction of reality through algorithmic distinctions between the visible and the invisible, the relevant and the irrelevant, the likely and the unlikely.

beyond platforms. Drawing on the work of Pierre Bourdieu, this book develops an original sociology of algorithms as agents, actively participating in social life. Through a wide range of examples, Massimo Airoidi shows how society shapes algorithmic code, and how this culture in the code guides the practical behaviour of the code in the culture, shaping turn. The 'machine habitus' is the generative mechanism at work throughout myriads of feedback loops linking human and artificial social agents, in the context of digital infrastructures and pre-digital social structures. Machine Habitus will be of interest to students and scholars in sociology, media and cultural studies, science and technology studies and information technology, and to anyone interested in the growing role of algorithms and AI in our social and cultural life.
