Quando si adotta un bambino uno dei momenti più difficili da affrontare è l'ingresso a scuola, non necessariamente una esperienza negativa ma sicuramente delicata, soprattutto se il bimbo entra in famiglia in età già scolare, o quasi. Quindi dall'ingresso in famiglia si passa all'ingresso a scuola. Anche se il bimbo è già ben inserito e si adatta facilmente all'ambiente scolastico, ai nuovi amici e alle insegnanti, può essere molto utile che questi ultimi tengano conto della storia personale del bimbo per adeguare i programmi di alcuni materie. A volte invece l'inserimento scolastico può comportare dei problemi maggiori ed anche in questo caso è utile che insegnanti e genitori abbiano degli strumenti informativi in più, tenendo però sempre conto che va evitato che tutti loro esaminino ogni problema del bambino solo col metro della filiazione adottiva. Il libro aiuta a parlare di adozione, con serenità e tenendo presente che ogni famiglia, comunque si sia formata, deve aprirsi all'esterno per crescere e superare, anche col confronto, ogni difficoltà.

Is love worth betraying everything? Plunge into the second adventure in the internationally bestselling Mortal Instruments series and “prepare to be hooked” (Entertainment Weekly). Clary Fray just wishes that her life would go back to normal. But what's normal when you're a demon–slaying Shadowhunter, your mother is in a magically induced coma, and you can suddenly see Downworlders like werewolves, vampires, and faeries? If Clary left the world of the Shadowhunters behind, it would mean more time with her best friend, Simon, who's becoming more than a friend. But the Shadowhunting world isn't ready to let her go -- especially her handsome, infuriating, newfound brother, Jace. And Clary's only chance to help her mother is to track down rogue Shadowhunter Valentine, who is probably insane, certainly evil—and also her father. To complicate matters, someone in New York City is murdering Downworlder children. Is Valentine behind the killings—and if he is, what is he trying to do? When the second of the Mortal Instruments, the Soul-Sword, is stolen, the terrifying Inquisitor arrives to investigate and zooms right in on Jace. How can Clary stop Valentine if Jace is willing to betray everything he believes in to help their father? In this breathtaking sequel to City of Bones, Cassandra Clare lures her readers back into the dark grip of New York City's Downworld, where love is never safe and power becomes the deadliest temptation.

Rappresentare con verità storica, anche scomoda ai potenti di turno, la realtà contemporanea, riportandola al passato e proiettandola al futuro. Per non reiterare vecchi errori. Perché la massa dimentica o non conosce. Denuncio i difetti e caldeggio i pregi italici.

Perché non abbiamo orgoglio e dignità per migliorarci e perché non sappiamo apprezzare, tutelare e promuovere quello che abbiamo ereditato dai nostri avi. Insomma, siamo bravi a farci del male e qualcuno deve pur essere diverso! In un mondo caposotto (sottosopra od alla rovescia) gli ultimi diventano i primi ed i primi sono gli ultimi. L'Italia è un Paese caposotto. Io, in questo mondo alla rovescia, sono l'ultimo e non subisco tacendo, per questo sono ignorato o perseguitato. I nostri destini in mano ai primi di un mondo sottosopra. Che cazzo di vita è? Dove si sentono alti anche i nani e dove anche i marescialli si sentono generali, non conta quanti passi fai e quali scarpe indossi, ma conta quante tracce lasci del tuo percorso. Il difetto degli intelligenti è che sono spinti a cercare le risposte ai loro dubbi. Il pregio degli ignoranti è che non hanno dubbi e qualora li avessero sono convinti di avere già le risposte. Un popolo di “coglioni” sarà sempre governato ed amministrato, informato ed istruito, giudicato da “coglioni”.

WITH FEATURETTES FROM NICHOLAS SPARKS AND THE MOVIE CAST, DELETED SCENES, MUSIC VIDEO, AND MORE! IN THEATERS OCTOBER 17, 2014! Starring Michelle Monaghan, James Marsden, Luke Bracey, and Liana Liberator "Everyone wanted to believe that endless love was possible. She'd believed in it once, too, back when she was eighteen." In the spring of 1984, high school students Amanda Collier and Dawson Cole fell deeply, irrevocably in love. Though they were from opposite sides of the tracks, their love for one another seemed to defy the realities of life in the small town of Oriental, North Carolina. But as the summer of their senior year came to a close, unforeseen events would tear the young couple apart, setting them on radically divergent paths. Now, twenty-five years later, Amanda and Dawson are summoned back to Oriental for the funeral of Tuck Hostetler, the mentor who once gave shelter to their high school romance. Neither has lived the life they imagined . . . and neither can forget the passionate first love that forever changed their lives. As Amanda and Dawson carry out the instructions Tuck left behind for them, they realize that everything they thought they knew -- about Tuck, about themselves, and about the dreams they held dear -- was not as it seemed. Forced to confront painful memories, the two former lovers will discover undeniable truths about the choices they have made. And in the course of a single, searing weekend, they will ask of the living, and the dead: Can love truly rewrite the past?

What Hell Is Not

The European Union and the single currency have given Europe more stability than it has known in the past thousand years, yet Europe seems to be in perpetual crisis about its global role. The many European empires are now reduced to a multiplicity of ethnicities, traditions, and civilizations. Europe will never be One, but to survive as a union it will have to become a federation of “ islands ” both distinct and connected. Though drawing on philosophers of Europe ’ s past, Cacciari calls not to resist Europe ’ s sunset but to embrace it. Europe will have to open up to the possibility that in few generations new exiles and an unpredictable cultural hybridism will again change all we know about the European legacy. Though scarcely alive in today ’ s politics, the political unity of Europe is still a necessity, however impossible it seems to achieve.

C'era un tempo in cui l'unico essere vivente era un'entità che viaggiava attraverso gli eoni del tempo: Hanaku. Questi giunse su un pianeta lontano in cui si trovavano tre grandi continenti sconvolti dagli elementi: le Terre Fiorenti. Decise di creare degli esseri speciali per porre rimedio a quel caos e così nacquero gli Dei. Questi si stabilirono sul più grande dei continenti, Alactea, e ridiedero ordine grazie ai loro poteri. Nonostante la pace durata secoli, in cui nacquero le creature più improbabili, cominciò ad insidiarsi la discordia nel cuore degli Dei che lottarono per il controllo dei fragili esseri che lentamente colonizzarono Alactea. La guerra si concluse con la vittoria degli Dei più benevoli, ma, nonostante questo, tutti si dispersero poiché l'equilibrio di forze era ormai stato spezzato. Coloro che combatterono con i vincitori formarono un ordine: l'armata bianca. Questa si impose l'obbligo di non far mai più riaffiorare il male, ma non è sempre facile adempiere ai propri doveri...

Readers of exciting, challenging and visionary literary fiction—including admirers of Norman Rush’s Mating, Ann Patchett’s State of Wonder, Barbara Kingsolver’s The Poisonwood Bible, and Peter Matthiessen’s At Play in the Fields of the Lord—will be drawn to this astonishingly gripping and accomplished first novel. A decade in the writing, this is an anthropological adventure story that combines the visceral allure of a thriller with a profound and tragic vision of what happens when cultures collide. It is a book that instantly catapults Hanya Yanagihara into the company of young novelists who really, really matter. In 1950, a young doctor called Norton Perina signs on with the anthropologist Paul Tallent for an expedition to the remote Micronesian island of Ivu’ivu in search of a rumored lost tribe. They succeed, finding not only that tribe but also a group of forest dwellers they dub “The Dreamers,” who turn out to be fantastically long-lived but progressively more senile. Perina suspects the source of their longevity is a hard-to-find turtle; unable to resist the possibility of eternal life, he kills one and smuggles some meat back to the States. He scientifically proves his thesis, earning worldwide fame and the Nobel Prize, but he soon discovers that its miraculous property comes at a terrible price. As things quickly spiral out of his control, his own demons take hold, with devastating personal consequences.

First it was a media sensation. Then it became the #1 international bestseller A Long Way Home. Now it’s Lion, the major motion picture starring Dev Patel, Nicole Kidman, and Rooney Mara—nominated for six Academy Awards! This is the miraculous and triumphant story of Saroo Brierley, a young man who used Google Earth to rediscover his childhood life and home in an incredible journey from India to Australia and back again... At only five years old, Saroo Brierley got lost on a train in India. Unable to read or write or recall the name of his hometown or even his own last name, he survived alone for weeks on the rough streets of Calcutta before ultimately being transferred to an agency and adopted by a couple in Australia. Despite his gratitude, Brierley always wondered about his origins. Eventually, with the advent of Google Earth, he had the opportunity to look for the needle in a haystack he once called home, and pore over satellite images for landmarks he might recognize or mathematical equations that might further narrow down the labyrinthine map of India. One day, after years of searching, he miraculously found what he was looking for and set off to find his family. Lion is a moving, poignant, and inspirational true story of survival and triumph against incredible odds. It celebrates the importance of never letting go of what drives the human spirit: hope. Previously published as A Long Way Home

The International Bestseller A New York Times Editors’ Choice SelectionA Winner of the 2020 Lannan Literary Awards Fellowship “[An] absorbing, stirring novel . . . that, in more than one sense, remedies history.” —The New York Times Book Review “A triumph, a novelistic rendition of one of the most difficult times in Vietnamese history . . . Vast in scope and intimate in its telling . . . Moving and riveting.” —VIET THANH NGUYEN, author of The Sympathizer, winner of the Pulitzer Prize With the epic sweep of Min Jin Lee’s Pachinko or Yaa Gyasi’s Homegoing and the lyrical beauty of Vaddey Ratner’s In the Shadow of the Banyan, The Mountains Sing tells an enveloping, multigenerational tale of the Trần family, set against the backdrop of the Việt Nam War. Trần Diệu Lan, who was born in 1920, was forced to flee her family farm with her six children during the Land Reform as the Communist government rose in the North. Years later in Hà Nội, her young granddaughter, Hương, comes of age as her parents and uncles head off down the Hồ Chí Minh Trail to fight in a conflict that tore apart not just her beloved country, but also her family. Vivid, gripping, and steeped in the language and traditions of Việt Nam, The Mountains Sing brings to life the human costs of this conflict from the point of view of the Vietnamese people themselves, while showing us the true power of kindness and hope. The Mountains Sing is celebrated Vietnamese poet Nguyễn Phan Quế Mai’s first novel in English.

Thinking About Children collects thirty-one papers, of which twenty-eight have never previously been published. As might be expected, they range widely in tone and content from concise clinical observations to more general meditations including the landmark paper “Towards an objective study of human nature”. Of particular interest are sections on autism and psychosomatics, where the author’s thinking can be seen to foreshadow more recent developments, such as Frances Tustin’s work on autism. Together with a substantial introduction by the editors, this book indispensable for those acquainted with the author’s work, and an ideal introduction for those who have not yet encountered the extraordinary clarity and depth of his thought.

The school year is finished, exams are over and summer stretches before seventeen-year-old Federico, full of promise and opportunity. But then he accepts a request from one of his teachers to help out at a youth club in the destitute Sicilian neighbourhood of Brancaccio. This narrow tangle of alleyways is controlled by local mafia thugs, but it is also the home of children like Francesco, Maria, Dario, Totò: children with none of Federico's privileges, but with a strength and vitality that changes his life forever. Written in intensely passionate and lyrical prose, What Hell Is Not is the phenomenal Italian bestseller about a man who brought light to one of the darkest corners of Sicily, and who refused to give up on the future of its children.

These seemingly disparate characters gradually realize their connections to each other not just as they realize that something is not quite right about their world. And it seems as though the answers might lie with Hawthorne Abendsen, a mysterious and reclusive author whose bestselling novel describes a world in which the US won the War... The Man in the High Castle is Dick at his best, giving readers a harrowing vision of the world that almost was. “The single most resonant and carefully imagined book of Dick’s career.” —New York Times

The private letters of Truman Capote, lovingly assembled here for the first time by acclaimed Capote biographer Gerald Clarke, provide an intimate, unvarnished portrait of one of the twentieth century’s most colorful and fascinating literary figures. Capote was an inveterate letter writer. He wrote letters as he spoke: emphatically, spontaneously, and passionately. Spanning more than four decades, his letters are the closest thing we have to a Capote autobiography, showing us the uncannily self-possessed naïf who jumped headlong into the post-World War II New York literary scene; the more mature Capote of the 1950s; the Capote of the early 1960s, immersed in the research and writing of In Cold Blood; and Capote later in life, as things seem to be unraveling. With cameos by a veritable who’s who of twentieth-century glitterati, Too Brief a Treat shines a spotlight on the life and times of an incomparable American writer.

A charming portrait of one man's dreams and schemes, by “the greatest Italian writer of the twentieth century” (The Guardian). In this enchanting book of linked stories, Italo Calvino charts the disastrous schemes of an Italian peasant, an unskilled worker in a drab northern industrial city in the 1950s and ’60s, struggling to reconcile his old country habits with his current urban life. Marcovaldo has a practiced eye for spotting natural beauty and an unquenchable longing for the unspoiled rural world of his imagination. Much to the continuing puzzlement of his wife, his children, his boss, and his neighbors, he chases his dreams and gives rein to his fantasies, whether it’s sleeping in the great outdoors on a park bench, following a stray cat, or trying to catch wasps. Unfortunately, the results are never quite what he anticipates. Spanning from the 1950s to the 1960s, the twenty stories in Marcovaldo are alternately comic and melancholy, farce and fantasy. Throughout, Calvino’s unassuming masterpiece “conveys the sensuous, tangible qualities of life” (The New York Times).

In this innovative book Fabio Folgheraiter presents a systematic introduction to networking and reflexive practice in social work. The text explores how the interested parties in social care can acquire a shared power in care planning and decision making and that when this networking occurs, the efficacy of caring initiatives increases.

This book is written for classroom teachers who want to know more about e-learning and who would like to experiment with designing e-learning material to use in their own classrooms. It is primarily targeted at secondary teachers but there is no reason why primary school teachers and adult education teachers should not find it useful too. The other group we had in mind were those of you still undertaking initial teacher training. Although there are some exemplary courses, a depressing number of trainee teachers continue to arrive in the classroom having barely heard the words ‘e-learning’, still less have hands on experience of it.

A collection of essays from the visionary storyteller Gianni Rodari about fairy tales and folk tales and their great advantages in teaching creative storytelling. “Rodari grasped children’s need to play with life’s rules by using the grammar of their own imaginations. They must be encouraged to question, challenge, destroy, mock, eliminate, generate, and reproduce their own language and meanings through stories that will enable them to narrate their own lives.” --Jack Zipes "I hope this small book," writes renowned children's author Gianni Rodari, "can be useful for all those people who believe it is necessary for the imagination to have a place in education; for all those who trust in the creativity of children; and for all those who know the liberating value of the word." Full of ideas, glosses on fairytales, stories, and wide-ranging activities, including the fantastic binomial, this book changed how creative arts were taught in Italian schools. Translated into English by acclaimed children's historian Jack Zipes and illustrated for the first time ever by Matthew Forsythe, this edition of The Grammar of Fantasy is one to live with and return to for its humor, intelligence, and truly deep understanding of children. A groundbreaking pedagogical work that is also a handbook for writers of all ages and kinds, The Grammar of Fantasy gives each of us a playful, practical path to finding our own voice through the power of storytelling. Gianni Rodari (1920-1980) grew up in Northern Italy and wrote hundreds of stories, poems, and songs for children. In 1960, he collaborated with the Education Cooperation Movement to develop exercises to encourage children's creative and critical thinking abilities. Jack Zipes is a renowned children's historian and folklorist who has written, translated, and edited dozens of books on fairytales. He is a professor at the University of Minnesota. Matthew Forsythe lives in Montreal where he draws and paints for picture books, comics, and animations.
