**The decline of the Christian churches in the West is undeniable but commentators differ in their understanding of what this represents. For some it shows a decline in interest in religion as such; for others, religion has not declined, it has only changed its shape. Possible candidates for Christianity's replacement are the new religious movements of the late 1960s and what is variously called New Age, alternative or contemporary spirituality. Secular Beats Spiritual offers a detailed study of the religious and spiritual innovations of the last 50 years. It assesses their popularity in the UK and concludes that the 'not decline-just change' view cannot be sustained. Serious interest in spirituality has grown far less quickly than has the number of us who have no religious or spiritual interest. The most popular and enduring movements have been the least religious ones and those that have survived have done so by becoming more 'this-worldly' and less patently religious or spiritual. Yoga is popular but as a secular exercise programme; Transcendental**

**Meditation now markets its meditational technique as a purely secular therapy; British Buddhists now offer the secular Mindfulness; and the Findhorn Foundation (Europe's oldest New Age centre) is no longer the germ of a counter-cultural communalism but sells its expertise to major corporations. Steve Bruce also demonstrates that, although eastern religious themes (such as reincarnation and karma) have become more popular as the power of the Christian churches to stigmatise them has declined, such themes have also been significantly altered so that what superficially looks like the easternization of the West might better be described as the westernization of the easternization of the West.**

This book portrays British chess life in the nineteenth century through biographical studies of ten players who shaped the modern game. From Captain Evans, inventor of the famous gambit, to Isidor Gunsberg, England's first challenger for the world championship, personal narratives are blended with game annotations to reassess players' achievements and character. The author has combined deep reading in primary sources with genealogical research to reveal new facts and correct previous misunderstandings. Major chapters on Howard Staunton and William Steinitz, in particular, highlight the tensions between Englishmen and immigrants, amateurs and professionals. The contrasting long careers of Henry Bird and Joseph Blackburne provide a thread of continuity. The lives of several other important figures in Victorian chess are also presented. More than 160 games (with diagrams), several annotated in detail, and 50 photographs and line drawings are included. Appendices provide career records for all ten; there are extensive notes, a bibliography and indexes.

Colonising Disability explores the construction and treatment of disability across Britain and its empire from the nineteenth to the early twentieth century. Drawing on a wide range of sources, Esme Cleall explores how disability increasingly became associated with 'difference' and argues that it did so through intersecting with other categories of otherness such as race. Philanthropic, legal, literary, religious, medical,

educational, eugenistic and parliamentary texts are examined to unpick representations of disability that, overtime, became pervasive with significant ramifications for disabled people. Cleall also uses multiple examples to show how disabled people navigated a wide range of experiences from 'freak shows' in Britain, to missions in India, to immigration systems in Australia, including exploring how they mobilised to resist discrimination and constitute their own identities. By assessing the intersection between disability and race, Dr Cleall opens up questions about 'normalcy' and the making of the imperial self.

*This book, drawn from the award-winning online Oxford Dictionary of National Biography, tells the story of our recent past through the lives of those who shaped national life.*

*More than fifty specialists have contributed to this new edition of volume 4 of The Cambridge Bibliography of English Literature. The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis, articulation and coordination that it has been retained in all its essentials for the new edition. The task of the new contributors has been to revise and integrate the lists of 1940 and 1957, to add materials of the following decade, to correct and refine the bibliographical details already available, and to re-shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries.*

Essays by scholars on how film has been used by schools, libraries, governments, and organizations for educational purposes. The potential of films to educate has been crucial for the development of cinema intended to influence culture, and is as important as conceptions of film as a form of art, science, industry, or entertainment. Using the concept of institutionalization as a heuristic for generating new approaches to the history of educational cinema, contributors to this volume study the co-evolving discourses, cultural practices, technical standards, and institutional frameworks that transformed educational cinema from a convincing idea into an enduring genre. *The Institutionalization of Educational Cinema* examines the methods of production, distribution, and exhibition established for the use of educational films within institutions—such as schools, libraries, and industrial settings—in various national and international contexts and takes a close look at the networks of organizations, individuals, and government agencies that were created as a result of these films' circulation. Through case studies of educational cinemas in different North American and European countries that explore various modes of institutionalization of educational film, this book highlights the wide range of

vested interests that framed the birth of educational and nontheatrical cinema.

This fascinating historical inquiry sheds new light on the mysterious sinking of an 18th century warship and its lingering effect on British naval culture. On August 29th, 1782, the mighty flagship HMS Royal George suddenly capsized while anchored in the calm, familiar waters of Spithead on the English Channel. In one of the most sensational and perplexing incidents in naval history, Rear Admiral Richard Kempenfelt, an outstanding veteran officer, drowned along with more than 800 crew and many civilian visitors. Catastrophe at Spithead is the first comprehensive account of the sinking, drawn from a variety of archival sources, including reports by survivors and eyewitnesses. Hilary L. Rubinstein examines the mysterious cause and tragic cost of the disaster, as well as its lingering aftereffects, including its treatment in literature. As well as describing the sinking, Rubenstein uncovers new information on the life and career of Rear Admiral Kempenfelt, ranging from his familial relation to the great Admiral Rodney to accounts of his whereabouts when the ship sank. These call into question the scenario in William Cowper's famous poem, "On the Sinking of the Royal George," which depicts Kempenfelt writing in his cabin when she foundered.

## Concerning the Antiquities, History and Biography of America

*Newspaper journalist, teacher, and social reformer, Josephine J. Turpin Washington led a life of intense engagement with the issues facing African American society in the post-Reconstruction era. This volume recovers numerous essays, many of them unavailable to the general public until now, and reveals the major contributions to the emerging black press made by this Virginia-born, Howard University-educated woman who clerked for Frederick Douglass and went on to become a writer with an important and unique voice. Written between 1880 and 1918, the work collected here is significant in the ways it disrupts the nineteenth-century African American literary canon, which has traditionally prioritized slave narratives. It paves the way for the treatment of race and gender in later nineteenth-century African American novels, and engages Biblical scriptures and European and American literatures to support racial uplift ideology. It also articulates shrewdly the aesthetic needs and responsibilities necessary for the black press to establish a reputable literary sphere. Part of a vibrant movement in recent scholarship to reclaim writings of nineteenth-century African American women writers, this expertly edited and annotated collection represents not only a valuable scholarly resource but a powerful example of the determination of a southern black woman to inspire others to improve their own lives and those of all African Americans. Nisi Shawl's steampunk-flavored alternate history of the "Belgian" Congo, *Everfair*, has taken the science fiction and fantasy world by storm. No surprise there.*

*Their swift, sure, and savvy short stories had already established them as a cutting-edge Afrofuturist icon whose politically charged fiction is in the grand feminist tradition of Ursula K. Le Guin, Octavia Butler, and Suzy McKee Charnas. In these previously uncollected stories, Shawl explores the unexpected possibilities and perils opened up by SF&F's new intersectionality. In Shawl's side-slippery world, sex can be both commerce and worship, complete with ancient rites, altars, and ointments ("Women of the Doll"); a virtual reality high school is a proving ground for girlpacks and their unfortunate adversaries ("Walk like a Man"); and a British rock singer finds an image in a mirror that reflects both future hits and ancient horrors ("Something More"). Also included is a presentation at a southern university, in which they patiently (and gleefully) deconstructs the academic and arcane intersections between ancient rites and modern tech. Ifa, anyone? Plus: Our Outspoken Interview with Shawl, in which unapologetics are proffered, riddles are unraveled, and icons are, as always, clasted.*

particular, as a sound preparation for imperial warfare. For the imperial officer in the making, the 'bleeding' hunting ritual was a visible 'hallmark' of sterling martial masculinity. Sir Henry Newbolt, the period poet of subaltern self-sacrifice, typically considered hunting as essential for the creation of a 'masculine sporting spirit' necessary for the consolidation and extension of the empire. Hunting was seen as a manifestation of Darwinian masculinity that maintained a pre-ordained hierarchical order of superordinate and subordinate breeds. Militarism, Hunting, Imperialism examines these ideas under the following five sections: martial imperialism: the self-sacrificial subaltern 'bleeding' the middle class martial male the imperial officer, hunting and war martial masculinity proclaimed and consolidated martial masculinity adapted and adjusted. From his election in November 1860 to his death in April 1865, Abraham Lincoln faced constant danger from those hostile to him and to the Union cause. Lincoln's enemies made four overt attempts on his life, including a Confederate partisan effort to infect him with yellow fever by sending a contaminated valise of clothing to the White House. Because Lincoln's life ended with John Wilkes Booth's assassination plot, the president's protection has come under extreme scrutiny, with many considering it flawed, inadequate, or completely lacking. By providing the first thorough exploration of the security surrounding Lincoln, this intriguing study offers new insight into this long-running issue. Detailing the dangers, real and uncertain, facing Lincoln and the unprecedented measures taken to protect his life and health, this work presents a fresh perspective on the

presidency of the Great Emancipator. John Romita Sr is as synonymous with Marvel as is Stan Lee. Stan was the definitive writer and visionary of the Marvel Universe, but Jazzy John was the ultimate catcher to all of Stan's pitches. Arguably the most important contributor to Marvel canon with Jack Kirby, and arguably the definitive Spider-Man artist, John Romita has left his mark creating, defining and/or designing some of Marvel's most, well, marvelous characters. From being (in our humble opinion) the definitive Spider-Man artist to helping design many of Marvel's major characters from Wolverine and the Punisher to Spider-Woman, The Kingpin and so many more. And, though it was Stan Lee and Steve Ditko who co-created Spider-Man and Peter Parker, and helped us love the boy with the problems we all grew up with, it was Jazzy John who allowed Peter to grow up and have the same problems many had growing up, and glamorized Peter Parker and rounded out his stable of characters from Gwen Stacy and Harry Osborne, and who also gave us the unbelievable entrance by Mary Jane Watson, showing us just how Peter had hit the jackpot! And John Romita Jr. has also created a rich body of work that few can follow in his footsteps. Having outgrown the shadow of his

father early in his career, John Romita Jr. has shown the world why he is "Mr. Marvel". From his early days working with Bob Layton on the Iron Man issues featuring the controversial issues of Tony Stark's alcoholism, to his jump to stardom in the early '90's on the Uncanny X-Men (almost a decade after his first stint on the Uncanny X-Men with Chris Claremont), to his unbelievable work on Daredevil: Man Without Fear with Frank Miller and Al Williamson, John proved that he was one of only a few artists who can shine working with a master such as Frank Miller. Moving in to the new millennium, John's work on Thor was nothing short of amazing, as well as working on Daredevil with Ann Nocenti and Al Williamson. But nothing has been more tailor made for John Jr's art than Marvel's flagship title - Spider-Man! His return on Peter Parker, Spider-Man proved that he was Marvel's best choice for a Spider-Man artist, and when Joe Michael Straczynski took hold of Marvel's flagship title, it was John Jr's art that made the great stories shine as well as they did! One thing that's kept John's art fresh is his ability to move from character to character. It definitely is bitter sweet to see John leave Spider-Man and run around the Marvel Universe on characters such as The Eternals

(with Neil Gaiman), proving that once again, John Jr. is the artists artist who can tackle such great projects, and even on his run on the World War Hulk (yes, Hulk does indeed Smash!), one is mesmerized by his incredible artwork. What's amazing is, that as of this writing, John Romita Jr. will be returning to Amazing Spider-Man #568, and this fan, Nick Barrucci, President of Dynamic Forces, feels the excitement and energy to his return. These are the things that we live for in comics. it's rare to know when a series is going to be great because a great artist is working on it. We are fortunate to be on the ground floor, again, but the anticipation is something that will only be quenched with the first read of a series that will be great. The Romit's are one of the few royal families in comics. If you haven't had a chance to fully appreciate their work, here's your chance. it's a fun ride. I hope you enjoy it as much as we have in putting this book together! With an introduction by Alex Ross and an afterword by Stan "The Man" Lee, this hard cover book is perfect for every Spider-Man fan young and old!

*Charles Golightly (1807-1885) was a notorious Protestant polemicist. His life was dedicated to resisting the spread of ritualism and liberalism within the Church of England and the University of England. For half of a century he led many memorable campaigns, such as building a martyrs' memorial and attempting to close a theological college. John Henry Newman, Samuel Wilberforce, and Benjamin Jowett were amongst his adversaries. This is the first study of Golightly's controversial career.*
