Books about death are invariably about life. In *Memories of Muriel*, Muriel Spark says: "Death, when it approaches, ought not to take one by surprise. It should be part of the full expectancy of life. Without an ever-present sense of death life might as well live on the whites of eggs." In that vein, this book deals with the ever-present reality of death while embracing life. It celebrates the lives of the greatest generation while alerting aging baby boomers to be aware of v them around the next corner. As the clients in this book journey through the final stages of their lives toward death that time is running out, Hope, the protagonist, conversely journeys toward a richer and fuller life. As clichéd as this thoughtful book encourages readers to celebrate life and to live each day as the gift it is.

The New York Times bestselling author of *Being Mortal* and *Complications* reveals the surprising power of the ordinary checklist. We live in a world of great and increasing complexity, where even the most expert professionals struggle to master the tasks they face. Longer training, ever more advanced technologies—neither seems to prevent grievous errors. But in a hopeful turn, acclaimed surgeon and writer Atul Gawande finds a remedy in the humblest and simplest of techniques: the checklist. First introduced decades ago by the U.S. Air Force, checklists have enabled pilots to fly aircraft of mind-boggling sophistication. Now innovative checklists are being adopted in hospitals around the world, helping doctors and nurses respond to everything from flu epidemics to avalanches. Even in the immensely complex world of surgery, a simple ninety-second variant has cut the rate of fatalities by more than a third. In riveting stories, Gawande takes us from Austria, where an emergency checklist saved a drowning victim who had spent half an hour underwater, to Michigan, where a cleanliness checklist in intensive care units virtually eliminated a type of deadly hospital infection. He explains how checklists actually work to prompt striking and immediate improvements. And he follows the checklist revolution into fields well beyond medicine, from disaster response to investment banking, skyscraper construction, and businesses of all kinds. An intellectual adventure in which lives are lost and saved and one simple idea makes a tremendous difference, *The Checklist Manifesto* is essential reading for anyone working to get things right.

The Saga of Toi and Me - A Memoir by Merredith F. Perkins, Ph. D. The Saga of Toi and Me — A Memoir is about our environment, family, and ancestry. It's about how the actions of love can be influential and powerful. Saga is about taking risks and learning something that is beneath the surface of our being that makes us fight for our productive lives. It's about being down, but getting up. It's about harnessing a power that we found in ourselves that propelled us forward. Power. This memoir is for "mothers, daughters, fathers and sons, and families" who use their interwoven strength to struggle through circumstances of loss and love. My story is for all to read about examples of how resilience, perseverance, and the strength in each of us propels us to develop a power in handling the matters that we can control and matters that we can't, self-power that is taught via a people support system. My survival has to be based on my power of determination to do so... and to have newly defined fun along the way. Toi has "unleashed" me to do just that. Looking back and laughing is cathartic, that is what The Saga of Toi and Me — A Memoir is all about.
