Jill Winger, creator of the award-winning blog The Prairie Homestead, introduces her debut The Prairie Homestead Cookbook, including 100+ delicious, wholesome recipes made with fresh ingredients to bring the flavors and spirit of homestead cooking to any kitchen table. With a foreword by bestselling author Joel Salatin The Pioneer Woman Cooks meets 100 Days of Real Food, on the Wyoming prairie. While Jill produces much of her own food on her Wyoming ranch, you don't have to grow all—or even any—of your own food to cook and eat like a homesteader. Jill teaches people how to make delicious traditional American comfort food recipes with whole ingredients and shows that you don't have to use obscure items to enjoy this lifestyle. And as a busy mother of three, Jill knows how to make recipes easy and delicious for all ages. "Jill takes you on an insightful and delicious journey of becoming a homesteader. This book is packed with so much easy to follow, practical, hands-on information about steps you can take towards integrating homesteading into your life. It is packed full of exciting and mouth-watering recipes and heartwarming stories of her unique adventure into homesteading. These recipes are ones I know I will be using regularly in my kitchen." - Eve Kilcher These 109 recipes include her family's favorites, with maple-glazed pork chops, butternut Alfredo pasta, and browned butter skillet corn. Jill also shares 17 bonus recipes for homemade sauces, salt rubs, sour cream, and the like—staples that many people are surprised to learn you can make yourself. Beyond these recipes, The Prairie Homestead Cookbook shares the tools and tips Jill has learned from life on the homestead, like how to churn your own butter, feed a family on a budget, and experience all the fulfilling satisfaction of a DIY lifestyle.

Making Soaps from Scratch

"Soap Making How To Make Natural Handmade Soap From Scratch - The Ultimate Guide For Making Organic Soaps - Includes 37 New Soap Making Recipes Making soap is a great way to provide for your family's needs and create homemade gifts for your loved ones. There are many ways to create soap (including using a soap making kit) but creating soap from scratch has its own perks and level of satisfaction. In this book you will see recipes for dozens of great soaps that you can make for your family, as gifts, or especially for you. After all, you could always use a special spa day for yourself, right? Here is a preview of what you'll learn: A basic soap base recipe that you can personalize. My favorite creamsicle (creamy wild orange and peppermint) soap recipe. A mild soap recipe that you can share with your family. Advice on additives. Tips on how to have fun and make money with your new hobby!

"Soap Making Made Easy: Making Soap from Scratch" is a book that explains what exactly goes into the soap making process. This book is a bit more technical than the other books that are currently in circulation as it really gets in to specific detail about the ingredients that are used to make soap. In addition to all the educational information that is provided about the soap making process there are also some great soap

recipes that the reader can try.

Making Soap At Home “What I like is that once you have made the soap, you know exactly what is inside. My family has sensitive skin, and commercial scented soaps tend to cause a rash or redness.” - Sarah “We don't know the kind of chemicals that are used to make the soaps we buy today. This book will shed light on why we should use only natural soaps. Besides, making homemade soap is very easy! My first goat milk soap turned out to be amazing!” - Carly “I definitely relate to the author in terms of skin type. I've got very sensitive skin, too, and find it very difficult to use even the mildest soaps available on the market. I made the lavender bar, and I must say I feel amazing!” - Amanda Why should you make your own natural and homemade soap? In the early 90s, based on a report by the National Institute of Environmental Health Science, approximately 300 billion pounds of synthetic chemicals were produced, used, and disposed of in the United States. Where are these chemicals now? In your shampoos, face creams, soaps and basically everything you are applying to your body right now. I don't mean to scare you. It's just really important to be careful with what goes on your skin I didn't start soap making out of nowhere. I researched, met a lot of experienced soap makers, and spoke to several chemists and dozens of suppliers just to help comb through the frustrating amount of information I had heard about and/or read. This book is for those who care about their bodies and who know the importance of keeping our body's largest organ healthy, hydrated, and moisturized – The Skin. 'Making Soap At Home' is just how you like it! Short, Simple and straight to the point without all the page-filling nonsense you've already seen in every other soap making book. In this book you'll learn: • The basics of natural soap making • Basic homemade soap ingredients and needed equipment • Safety measures when making natural soap • Oils, butters and essential oils for your first of many homemade soaps! • The actual homemade soap making process • Secret specialty soap scents • DIY soap recipes and much more! Name Me A Book on Soap Making That Covers It All? Making Soap At Home teaches you the basic way of making soaps followed by a lot of scent and design suggestions that allow you to use your creativity to make something special for loved ones. I've also included some Frequently-Asked Questions for you – things you probably won't get in any other soap making book. My Soap Making Guide Will Answer Some Of These Questions, And Many More! • Why isn't my homemade soap thickening? • Why are small bubbles forming in the mixture? • Why do I have a slightly grainy mixture? • My mixture is beginning to streak. Why is this happening? • My natural soap turned out to be soft and spongy. Why? If this is your first time with DIY Soap?, you're gonna have a great time! Don't wait any longer! Start making your own homemade and natural soaps today! So What Are You Waiting For? Dive into the book now

Includes a humorous chapter titled: Bubbles and Bull, A Saucy Look into the Life of a Soap Maker - telling stories of disastrous partnerships, comical customers and the perils of soap making chat forums.

Making soap is a straightforward process that uses ingredients and tools you may already have in your kitchen. Anything you don't have is available from soap-making suppliers online or some craft stores. The basic method of making soap from scratch is called cold process. These projects were posted from the beginning of the Soap Queen blog until 2011. A few of the projects included are the Pink Sea Salt recipe, Gardener's Soap and Green Beer Soap projects.

Soap Making For Beginners: A Guide to Making Natural Homemade Soaps from Scratch, Includes Recipes and Step by Step Processes for Making Soaps & Top Essential Oil Recipes: A Recipe Guide Of Natural, Non-Toxic Aromatherapy & Essential Oils for Healing Common

Ailments, Beauty, Stress & Anxiety Soap Making This book is perfect for those who want to make their own soap but do not know where to begin. Soap making is a fun and rewarding hobby that you can also turn into a business once you have successfully made your first batch of soap. In this book, you will get to know the different ingredients, tools and processes on how to create soap. Soon you will get to know the basic steps on how to process soap. There are mainly two basic processes, the Hot Process and Cold Process. But before moving on to these two, let's first discuss a very useful online tool that you can use in formulating the perfect soap recipes. Soap making is a fun filled activity that anyone can enjoy. The sense of accomplishment in producing something that is useful in everyday life can build one's self confidence and self esteem. You can even add a personal touch in the soaps that you will make by adding some of your favourite oils and scents. Natural soap has a greater advantage in terms of skin moisturizing than commercially manufactured soaps because of the ingredient glycerine that will be left in the soap. In commercially manufactured soaps, glycerine is filtered out of the soap and sold as a different product. Glycerine is an ingredient that is responsible for retaining water in the skin, leaving it soft and moisturized. Homemade soaps can be used as gifts to your friends and relatives during the holidays. Surely, they will appreciate the effort you put into making the soaps as well as the skin health benefits they have. These homemade soaps can be income generating as well, for you can sell your nice smelling products in stores that support selling of natural and homemade goods, or in the internet. If you have always wanted to know how to make soap, wanted to have the recipes that will eliminate those unhealthy products your using everyday on your body! Then you need to act! And act now, stop using cancerous products that harm you and your family! Top Essential Oils To make essential oils, it needs to be extracted from the plant. This can be done through expression and distillation. Expression, also referred as cold pressing, expression is method used to extract oils from citrus fruits like lime, orange, tangerine, lemon, and bergamot. In the past, expression doesn't require any sorts of tools except for a sponge. After soaking the citrus rind or zest, it will be pressed against the sponge repeatedly to absorb the oil. The sponge will then be squeezed over a container to catch the oils and allow it to separate from its juices. After a few hours, the oils will be siphoned off and bottled. A modern type of expression involves using a blender-like device that's equipped with spikes. Once the citrus zest, rind, or peel is placed into the device, it will rotate and prod and prick the citrus until the oils are released. Oil will be collected at the bottom of the device and bottled immediately.

Making Soap from Scratch: How to Make Handmade Soap - A Beginners Guide and Beyond

Creating your own soap provides a wide array of benefits. The main benefit being that you have complete control over which ingredients go into the soap and which ingredients you leave out. The sad fact is that those mass-produced bars of soap you find on your local grocery store shelves are filled with potentially harmful chemicals that can cause more harm than good. These chemicals are known for causing contact dermatitis and irritating skin. And do you really want to subject yourself and your family to unnecessary chemicals? Of course, you don't. So why continue to buy those mass-produced products when you can make your very own soap tailored for your needs. Unfortunately, people are under the misconception that making your own soap is too hard and complicated. While it may take some time, especially for the soap to cure, once you are comfortable with the process, you will wonder why you waited so long. But where do you go for reliable soap making information? Well, this book of course! Inside the pages of "The Ultimate Soap Making Guidebook: Make Soap from Scratch with the 25 best Homemade Soap Recipes", you will find 25 of the best homemade soap recipes that range from easy, which are perfect for beginners, to more complex recipes. The book also includes soap recipes designed for certain skin conditions, such as sensitive skin and psoriasis. Each recipe in this soap-making book has been tested on numerous occasions to ensure its accuracy and includes; -How much it makes, -Preparation and inactive time, -And step-by-step instructions that are easy to follow. These soap recipes are perfect for personal use, and they make a great homemade gift for family and friends. So, what are you waiting for? Start reading "The Ultimate Soap Making Guidebook: Make Soap from Scratch with the 25 best Homemade Soap Recipes" today!

SPECIAL NOTE! -- ANNE WILL PERSONALLY ANSWER ANY QUESTION OF YOURS AFTER READING THIS

BOOK. ASK ON HER WEB SITE, AND YOU'LL NORMALLY HEAR BACK WITHIN HOURS! Maybe you've made melt-and-pour soap and want to move on to something more challenging and rewarding. Maybe traditional soapmaking appeals to you, but you figure that working with lye is too difficult or dangerous. Or maybe you're already doing it, but outmoded ideas and methods are complicating the process and slowing you down. No matter which of these fits you, you'll find "Smart Soapmaking" practical, helpful, and refreshing. Written by a former professional soapmaker, this book explodes the myths about soapmaking and shows you how to make luxurious soap from scratch with the least fuss and bother. With both customary and metric measurements, plus a list of suppliers in five countries, "Smart Soapmaking" is the first truly international book on the craft!

//////////////////////////////////// Anne L. Watson is the first author to have introduced modern techniques of home soapmaking and lotionmaking to book readers. She has made soap under the company name Soap Tree, and before her retirement from professional life, she was a historic preservation architecture consultant. Anne and her husband, Aaron Shepard, live in Friday Harbor, Washington.

//////////////////////////////////// *****RECOMMENDED BY THE HANDCRAFTED SOAP & COSMETIC GUILD***** "Should become THE book for soapmaking. . . . It's about time someone wrote a book like this. Most are idealistic and inaccurate. This book has a wonderful common sense approach that is SO long overdue. . . . I can recommend it with 100% confidence." -- Susan Kennedy, Oregon Trail Soaps, Rogue River, Oregon "Smart it is A simple, no-nonsense book that cuts through the curmudgery of stifling soap bibles like no other." -- Shellie Humphries, Harstine Island, Washington "Way overdue. . . . A gift of common sense caution, proven methods, tried-and-true shortcuts, and some excellent recipes as well, for both the professional/experienced soapmaker and the eager beginner." -- Deb Petersen, Shepherd's Soap Co., Shelton, Washington "A great book for beginners, with clear and easy instructions." -- Anne-Marie Faiola, Bramble Berry Inc., Bellingham, Washington "I learned more from Smart Soapmaking than from any other soaping book, and I have read quite a few. . . . It's written with the average person in mind, not a chemistry major. Directions are very simple and easy to understand. It really takes

the mystery out of making soap." -- Jackie Pack, Stuart, Virginia "Groundbreaking Anne L. Watson [is the] universally respected and loved author/crafter/curator of this lost art for thousands of aspiring soapers Unquestionably the best book with which to begin. To be precise, it's probably the most accessible, most reader-friendly, and most immediately useful container of information a first-time soapmaker could hope to find." -- Wishing Willow (blog)

This book will explore the different ways to make soaps from liquid hand soaps to cold process soaps and everything in between. All of these soaps can be stored for weeks before use and is actually recommended for the best use. The soaps in this book all have moisturizing properties such as shea butter or cocoa butter in the recipe. You will find that the essential oils add to these soaps gives them a nice scent. Get ready to enjoy your homemade soaps!

With this new comprehensive guide, the author offers everything the modern-day enthusiast needs to make incredible botanical soaps. Beginners can join in the sudsy fun with detailed tutorials and step-by-step photographs for making traditional cold-process soap and the more modern hot-process method with a slow cooker. Angelina presents 50 easy, unique soap recipes with ingredients and scents inspired by the herb garden, veggie garden, farm, forest and more. Sample soap recipes you won't want to miss are Lavender Milk Bath Bars, Sweet Honey & Shea Layers Soap, Creamy Avocado Soap, Citrus Breeze Brine Bars, Mountain Man Beard & Body Bars and Classic Cedarwood & Coconut Milk Shave Soap. Cold process handmade soap is a surprisingly simple craft and art...when you've got the right guide. Look no further, Making Soap from Scratch is it! With easy-to-follow instructions and straight-forward advice, soaping professional and instructor, Summer Vautier, will help you make natural soap at home from start to finish--P. [4] of cover.

The definitive resource for making vegetable-based soaps from scratch, from buying supplies to cutting the final bars.

Hundreds of step-by-step, full-color photographs illustrate exactly how to make cold-process soap. Instructions on molding soap, cutting bars, creating original recipes, packaging gifts, and more. Includes a chapter on constructing a soap mold, liner, and cutter at home.

Handmade soap is made extra-special with the addition of milk! Soaps enriched with milk are creamier than those made with water, and milk's natural oils provide skin-renewing moisture and nourishment. In *Milk Soaps*, expert soapmaker Anne-Marie Faiola demystifies the process with step-by-step techniques and 35 recipes for making soaps that are both beautiful and useful. She explains the keys to success in using a wide range of milk types, including cow, goat, and even camel milk, along with nut and grain milks such as almond, coconut, hemp, rice, and more. Photographs show soapmakers of all levels how to achieve a variety of distinctive color and shape effects, including funnels, swirls, layers, and insets. For beginners and experts alike, this focused guide to making milk-enriched soaps offers an opportunity to expand their soapmaking skills in new and exciting ways.

Smart Soapmaking

The author "shares his experience (and recipes) for creating cold process soaps, [taking] the reader step by step through the process of making natural soaps for family, friends, and for profit"--P. [4] of cover.

Natural soap is a great way to keep yourself clean without exposing your skin to harsh chemicals, dyes, and scents. Making that natural soap at home is a great way to ensure that you are getting exactly what you want in your soap. However, not everyone wants to make their own soap. Lye, a caustic chemical used in making soap can be extremely dangerous and frightening for inexperienced soap makers. Luckily there is a way to make natural soap at home without using lye. If you want to learn the secrets of the art then *Soap Making from Scratch* by April Weatherly is the best book for you to use to get started. Commercial soap is full of chemicals that are hard to pronounce. Chemicals are added in to create lather, add shine, give the soap color and scent, and preserve the bar for longer times. On the other side, natural soaps are made from thing you can both pronounce

and understand like goat's milk, olive oil, and your favorite essential oils. April learned that lye that is commonly used in soaps is dangerous. It is poisonous is accidentally swallowed by young children or pets. It can also cause serious chemical burns if spilled. This is why many people are looking for ways to make natural soaps without lye. Unfortunately, there is no true soap without lye, yet you can skip the lye process by using melt and pour soaps. There are several melt and pour glycerin soap kits that you can use to make your own natural soaps. Learn the trade secrets of making safe soap in Soap Making from Scratch.

This is the first book published with recipes, methodology and tips on how to make Melt and Pour Soap from Scratch. It is written from the perspective of a Cosmetic Formulator on the production of the popular cosmetic base known as, Melt and Pour Soap. Whether you are a crafter, hobbyist or business owner this book has everything that you need. This book give you guidance on how, as a small home based business, you can follow the regulations, labeling laws and industry standards for selling soap and cosmetics. My entire journey into the cosmetic industry started with Melt and Pour Soap shortly after I discovered aromatherapy. The roots of our business, Essential Wholesale, all started in December of 1998. Over the years we moved from our home kitchenette to a 600 square foot space, to a 2500 square foot building, to a 10,000 square foot space in a bigger building, and from there we have expanded into 30,000 square feet of that same building. In 2011 our business will be moving to an even larger 58,000 square foot building. As our business expanded we began to focus on natural cosmetics and personal care products. However, I never lost my curiosity and fascination with Melt and Pour Soap. Our relationship with Melt and Pour Soap changed over the years. At first we sold retail customized Melt and Pour Soaps. We then bought and sold the company Critter Soaps. Later we sold thousands of pounds worth of wholesale Melt and Pour Soap base and eventually discontinued selling Melt and Pour Soap because the price kept rising. At the time Melt and Pour Soap was the only cosmetic base we sold that we didn't manufacture ourselves. It simply didn't make sense to wholesale someone else's base when our business model had changed to selling only the bases we manufactured ourselves. It was at this point in our business that I decided it was time to formulate our own Melt and Pour Soap ourselves. It didn't take long to have working formulas, but at that moment we were using up every inch of space in our 30,000 square foot building. We were bursting at the seams and couldn't accommodate the manufacturing and cooling of the Melt and Pour Soap Base in bulk. Our space was so tight we couldn't possibly cool an 8,000 lb batch of Melt and Pour Soap base into multiple 1 lb, 20 lb and 40 lb blocks to sell in bulk. But we got continued requests to manufacture and sell Melt and Pour Soap base. My solution is this book. I decided to share these basic recipes with you to give you the

freedom to make your own Melt and Pour base in the quantities that work best for your business. These recipes will teach you the foundational information that you need and give you tips on how to customize your base. Making soap at home is not as hard as you'd expect. "What I like is that once you have made the soap, you know exactly what is inside. My family has sensitive skin, and commercial scented soaps tend to cause a rash or redness." - Sarah "We don't know the kind of chemicals that are used to make the soaps we buy today. This book will shed light on why we should use only natural soaps. Besides, making homemade soap is very easy! My first goat milk soap turned out to be amazing!" - Carly "I definitely relate to the author in terms of skin type. I've got very sensitive skin, too, and find it very difficult to use even the mildest soaps available on the market. I made the lavender bar, and I must say I feel amazing!" - Amanda In fact, even if you have never tried making homemade soap before, with this soap making book for beginners you'll be able to create many different kinds of soaps without a drop of sweat! Creating your very own soap at home has numerous benefits: for your health and for your pocket you will be using only natural ingredients and zero chemicals/li> your homemade soaps will be absolutely safe for your skin even for the skin of kids and babies Plus, you will spend much less money and, who know, if you enjoy the procedure, you can even start your very own some making business at home! In this book, Kelly Port, the author of this book and creator of the home-based business "Organic Soaps", shares with you the best natural soap making recipes that you can recreate at home using simple equipment and the purest ingredients! Soap making has never been more fun! Click the Orange "Buy Now With 1-Click" Button on Your Screen and Start Soap Making Instantly.

Check Out What Others Are Saying...“I have always thought about making soap as some of my old friends used to do it as a side business many years ago. I never thought to get into it until now because I wanted to take on a new hobby. I was given this book and was sure glad I read it. I am starting to develop a small passion for this stuff and might even start to sell some of my soaps for some extra income which would be nice. Get the book and get started because you will have a lot of fun with this like I am!” (Laura H - Gurnee, IL) “This is a very cool book that will get your started making some pretty neat looking soap. I wanted to start a hobby up with my daughters that we would both enjoy and I can say it has been a great experience.” (Judy A - Tulsa, OK) Tags: Soap Making, Soap Making For Beginners, Soap, Soap Making From Scratch, Soap Making Recipes, Soap Making Business, Soap Making Kindle Books, Soap Making Business, Soap Hobby

GET A FREE SOAP MAKING RECIPE BOOK WITH THIS BOOK!Organic Soap Making: DIY Soap Making Guide To Make Handmade Soap Safely, Quickly And NaturallySoap making falls somewhere between a chemistry experiment and cooking (though some might tell you that there's not much difference between those two), and in either activity, you'll need certain equipment and the right ingredients. First, you can start by pillaging your cabinets for old cooking gear that may

be sitting around getting dusty. An old steel pan, things like spoons or whisks, and other miscellaneous containers or jugs, will go a long way. If you need to assemble some hardware, consider local thrift shops or yard sales before spending big bucks on specialty equipment you may not need. That said, you certainly don't want to go into this process under-equipped: soap making involves serious chemistry, and the beginning of safety for all involved is respect for the processes involved. As you indulge yourself into more information and practice in this field, you will soon master the soap making art.

This book will guide you through creating your own liquid and bar soap. Design and create bars of soap using traditional methods that incorporate moisturising oils and butters, and make fun and funky glycerine soaps that look almost too fabulous to use. If you prefer liquid soaps then this book also explains how to create liquid and cream soaps from scratch as well as how to design body washes using many of the easily obtainable surfactants. In this book you will discover how to:

- Choose soap making ingredients that will be most beneficial for your skin type
- Design and create a range of soapy products including hand and body washes
- Scent your soaps using essential and fragrance oils
- Make glycerine melt and pour soap from scratch
- Understand different soap making methods and techniques

The Complete Guide to Make Natural Organic Homemade Soap From Scratch!!*** Read For FREE on Kindle Unlimited *** Have you always wanted to create your own soaps Are you tired of wasting money on Harsh, Chemically laden, commercial Soaps? If you answered yes to the above, then this book is for you! In this book you will learn how to craft Beautiful, Organic, Soothing Soaps, That will take your mind on a sensory journey. Do you want Soft, Supple, Moisturized Skin? You will learn how to make amazing soaps inexpensively. Learn how to make soaps using different processes. Organic Soap Recipes, Bath Bombs, Essential Oils. Whether you are looking for a more natural alternative to commercial soap, or are just a crafty person looking for a new creative adventure, making soap is fun, and more than a little addictive! Homemade Soap Charms, Feels good, Smells good, and is Comforting Manufactured soap will never feel as good as homemade soaps. If you've never tried a bar of real natural hand made soap, you're in for a real treat. If you have tried one, and know just how wonderful it is, you'll be surprised that making your own fantastic soaps is not as difficult as you think. Hidden Benefits of This book The very best reason to use handmade soap is the ingredients. Typically handmade soap is made of vegetable oils and butters that are rich in antioxidants, vitamins and nutrients that are essential to healthy skin. I can't count how many times people have told me that handmade soap has not only improved their skin, but

changed their lives by relieving them of itchiness, dryness and skin conditions such as eczema, psoriasis and acne. Everyone wants healthy skin and switching to daily use of handmade soap is the best place to start. It is commonly called soap, but that mass produced commercial stuff that you get at the grocery store is anything but. You have an array of personal cleansers to choose from that are labeled as deodorant soap, body bars, body washes and my personal favorite (eyes roll) the beauty bar. These are just chemical cocktails made of detergents and downright disturbing synthetic ingredients that dehydrate and age skin, cause allergic reactions and have been linked to various forms of cancer. Handmade soap is the real deal and one of the most appealing aspects is that harmful and unnecessary ingredients are NOT added to make it. What you will learn from this book All four different Soap Making Processes Correct and Safe Soap making Procedures Step by Step process to creating amazing Luxurious Soaps Over 34 Different Soap Recipes Much, Much More Get "The art of making Candles from Scratch" Free ebook inside Regularly Priced at \$2.99 For Free as an added bonus! Download your Copy today!! ***Read for Free on Kindle Unlimited***

Why should you try to make soap yourself? Your soap can be customized to your own specifications. Everything, from the fragrance, to the color, to the shape can be tailored to meet your desires. This is a great advantage which can distinguish your product from others, and make it very unique to you. Useful herbs can be included to get the desired soap suitable for your skin. Herbs like aloe-vera, which has been used for years for its cosmetic, anti-inflammatory and rejuvenating properties, can easily be incorporated into the soap to enrich it and make it more beneficial than the regular commercial soaps. Finally, it is not as harsh and contains fewer chemicals, unlike the commercial ones which are made of pure chemicals with lots of natural components extracted for financial gain. Try producing and using home-made soap, not only will your skin thank you for it, your pockets will as well. "Natural Soap Making for Beginners: How to Make Soap from Scratch Using Essential Oils, Herbs, and Other Natural Additives" is written to teach beginners how to make soap for family use and, thereby, cuts costs. This book is written to give you a line-by-line method on how to produce soap safely at home.
