The Challenge Built to Last, the
defining management study of
the nineties, showed how great

good companies, mediocre companies, even bad companies achieve enduring greatness?

The Study For years, this question preyed on the mind of Jim Collins. Are there companies that defy gravity and convert long-

and his research team identified a set of elite companies that made the leap to great results and sustained those results for at least fifteen years. How great? After the leap, the good-to-great companies generated cumulative
