This book has been a best seller for more than a decade, currently in its 13th edition it is thoroughly updated and revised with current trend in competitive examinations across various domains. The contents are broadly divided into four sections World, Science, India and Current affairs. Each chapter contains more than 100 MCQs with answer keys. A key feature of this book is the 30 page colorful maps, provided with fact files from authentic sources. The maps also include some added information on geography, population, and economy of the entire continent. Designed and developed for both classroom use and self learning, this updated edition is a must-buy for the aspirants who are planning to crack various competitive examinations.

Given its continent-like diversity, India’s epidemiological, nutritional, and demographic transitions are occurring in a staggered fashion, with high state-level variances. In many parts of the country, high rates of undernutrition co-exist with equally high and increasing rates of overweight and obesity. Further, the incidence of non-communicable diseases (NCDs) as a leading cause of mortality is increasing, even as the communicable, maternal, neonatal and nutritional causes (or the “Millennium Development Goals (MDG) conditions”) are coming down. Indeed, India has witnessed inconsistent progress towards the MDGs, and even in states where absolute levels of “MDG conditions” are still high, the NCD proportion is growing rapidly. The imperative is for a realignment of policy responding to fast-changing subnational realities, through greater integration between health and nutrition policy at every level of governance.

Can true love bring someone back from the dead? Akshara is left devastated by her mother’s death and spends most of her time in solitude at the local park. One day, as she is sobbing uncontrollably, a young man named Harry approaches her. They become friends and Harry recounts to her a story about the miraculous reunion of a young woman and her dead boyfriend to help ease some of her pain. The story makes Akshara hopeful that she can perhaps see her dead mother again. But she soon realizes that Harry isn’t what he seems to be. Even the characters in his story seem dubious, almost unreal. So what is he hiding? And why? Is there any truth to his story at all? In this darkly suspenseful romance mystery, Akshara is left facing a truth that will make her doubt not just Harry but herself as well . . .

Thorough exploration of the distinct culture of the Mappila Muslims of Kerala, India. This book provides a comprehensive account of the distinct culture of the Mappila Muslims, a large community from the southern Indian state of Kerala. Although they were the first Muslim community in South Asia, the Mappilas are little-known in the West. Roland E. Miller explores the Mappilas’ fourteen-century-long history of social adaptation and their current status as a successful example of Muslim interaction with modernity. Once feared, now admired, Kerala’s Mappilas have produced an intellectual renaissance and renewed their ancient status as a model of social harmony. Miller provides an account of Mappila history and looks at the formation of Mappila culture, which has developed through the interaction of Islamic and Malayali influences. Descriptions of current day life cycles, religion, ritual, work life, education, and leadership are included.

The book deals with India’s contemporary history of more than six decades since her independence in 1947 to the present day. It describes all the relevant events from economic, political, social and cultural perspectives. The world knows India to be an emerging economic giant because of her recent GDP growth. But, behind this robust growth, lies the real India which is poor, illiterate and backward, suffering from the evils of wide-spread corruption, nepotism and familocracy due to the wrong policies followed by Indian politicians since Nehru. The government made some half-hearted attempts for improving the people’s lot, but there was not much success. This is why the narrative is called the story of downslide. And this downslide has resulted collectively in an inconceivably colossal loss.

Developments in South Asia in the areas of democracy, political economy and security in the last couple of years are intriguing and raise questions about whether the region is on the road to transformation. The years 2013 and 2014, particularly, have been ‘years of transition’ in South Asia. Almost all South Asia countries have undergone political transitions with cascading effects. These elections are significant for South Asian countries because the region has witnessed political instability for a long period of time. The elections in South Asia generated the hope that the most un-integrated region may become interdependent after coming up of new sets of political heads. These developments in the region have an influence on India’s foreign policy and also mould its domestic politics; and vice-versa. India’s policy towards individual countries also has a decisive impact on the pace of on-going political transitions in a number of spheres: civil-military relations, foreign policy of individual countries, socio-political and economic dynamics and nature of governance. These transitions reflect the nature, behaviour and response of the transitory states towards the others. India, as an important stakeholder in the region is keenly observing these transitions in its neighbourhood. This book titled: Transitions and Interdependence: India and Its Neighbours is the outcome of serious deliberations among well known scholars, diplomats and policy makers at the Fifth Asian Relations Conference organised by the Indian Council of World Affairs in collaboration with the Institute of Peace and Conflict Studies in February 2014. Papers presented in the conference have been thoroughly revised before publication and the editors acknowledge with gratitude theses insightful contributions.

WILL IT BE MONEY OR LOVE? For Abhijeet, Saurav, Shruti, Garima life is about to change. They have the most sought after jobs in the country—jobs that will pay for designer clothes, shoes, watches, holidays in foreign locations . . . all the things they’ve ever wanted. But then, is life ever perfect? Things begin to get tough from day one as they begin to work under bosses who are straight out of hell, who pile them with work, push them for more and make their lives miserable. Things go from bad to worse as they fall in love and sleep around with all the wrong people. Then when recession affects the company, their bond begins to strain. Till one day, the very reason that got them together tears them apart: Money.

The Mega Book of Amazing Facts

India and its Neighbours

Creativity is one of mankind’s principal resources. Can this resource be harnessed to accelerate India’s transition from traditionalism to modernity and widespread poverty to decent living standards for all? Can India’s creative efflorescence be directed towards designing a society that facilitates well-being, boosts cultural evolution and raises the bar for exhilaration through creative achievement? Is it possible to socially engineer a society that throbs with questions, novel perspectives and relevant innovations? Can it lead to a society where millions question the status quo and join hands to work out innovative solutions – in short, a creative society? This book is an affirmative response to these questions. Creative Society is an intellectually stimulating analysis of factors that trigger the emergence of a truly creative and innovative society; it explores the nature of human creativity – how it can be augmented and the social contexts that shape it; discusses ways of making institutions such as the government, educational bodies and other civil society organizations more creativity-friendly; offers an assessment of India’s prospective emergence as a highly vibrant, dynamic and creative society; and finally, offers several practical suggestions for India’s creative efflorescence.

The idea of a home is at the heart of Pulayathara, which is not only the first Dalit novel on record (1963) but also one of the founding texts of the Dalit Christian movement in Kerala. It opens with a near vision of Thevan Pulayan's intense attachment to land; it then leads on to his displacement after decades of devoted service to his upper-caste landlord who, overnight, deprives him of both home and livelihood. Beginning with Pulayathara, the theme that runs through all of Chirakkara's works is casteism in Christianity: the role of the Church in the continued enslavement of the Pulayar and the psychological effect it has on a people who abandon their ancestral gods to embrace the new faith. Without a doubt, the Dalit converts for physical and emotional security as well as survival. However, inevitably, disenchantment follows and the search for 'home' continues. Is the Dalit Christian any better off than he was before conversion?

When Indus Publishers announces a short story competition, it affects the lives of the ensemble cast in unexpected ways. A jaded journalist, a bored housewife, a starry-eyed ambitious girl, an army colonel, an impoverished divorcee all enter the competition for pressing reasons of their own. They emerge with only slightly deeper pockets than they had but far richer in experience. Social issues are explored in an engaging manner, entwined in the lives of the characters this is indeed the way of life. The novel also promises an enchanting look at the diversity in India; the characters belong to different Indian states and embody the peculiarities of the people of that region. Equinox and its checkered characters step to music of their own; many readers will find that it resonates with their own inner music.
