

Many Mansions The Edgar Cayce Story On Reincarnation Gina Cerminara

Many people are finding themselves at the mercy of anxiety attacks, panic, overwhelming fear, and depression. Fear comes in a variety of intensities and seems to have a number of causes. Every individual has had to face fear at one time or another. It is the cause of fear and how we respond to that fear that sets us apart as individuals. This book explores them all and provides practical tools for overcoming the anxieties associated with deeply felt fears.

The noted past-life therapist and author of *Many Lives, Many Masters* discusses his work with future life progression, drawing on dozens of case histories to explain how the choices that are made in one's present life impact the quality of future lives and revealing the benefits of progression therapy as a healing tool for present-life conditions. 100,000 first printing.

One of the most fascinating topics found in the readings of famed psychic Edgar Cayce (1877-1945) revealed the existence of a sacred sect called the Essenes. His information about the Essenes would later be confirmed by the discovery of the Dead Sea Scrolls two years after his death. Cayce's readings contained more than a description of who the Essenes were and their purpose in bringing the Christ into the earth, he gave us details about their lives and past lives! Many of these Essenes reincarnated during Cayce's time and received readings

that revealed their souls—including their purposes then and now. What can we learn from these readings and the reincarnation of the Essenes? There is so much about our origin, our soul group, and the purpose for which we are here on earth today in this latest book that it is like having a manual for soul growth. Ideals, practices, and guiding principles held by these ancient ones are as valuable to us today as they were then. Includes psychic readings on the subject of the endocrine glands.

Francis Story's interest in cases of rebirth memories finally led him to assist Dr. Ian Stevenson in tracing, investigating, and studying such cases in Sri Lanka, Thailand, and India. The present book contains Story's essays on the theme

These case studies, which make fascinating reading, lend strong evidential support to the hypothesis of rebirth and thus help to illuminate the ultimate questions concerning human destiny after death.

Imaginative story about a being who we first meet in Atlantis. As he progresses through each of his seven lives, he experiences new circumstances and situations each designed to provide a new ribbon of knowledge and perspective. During his procession he has the opportunity to interact in a variety of relationships with other beings, some that he has known previously. At the end of each life he finds himself in a place of pure whiteness, the bridge, where there is no body, only

thoughts and a guide helping him to reflect upon what he has learned—and determine whether it is time to make use of his understanding in another, mysterious way. “I absolutely loved *Seven Bridges*! It drew me in from the first chapter and as I finished each one I couldn't wait to get to the next to see where it would go. I was intrigued by the way each chapter was unique to itself, yet followed his journey in a surprising and unexpected way. I loved the different settings and time periods and I felt like I was there with him. The book was quick to read, with enough details to understand what was going on and who he was interacting with, but not so much that I got bogged down in details. I didn't want the story to end, I hope there's another *Seven Bridges* that he has to cross!”

This book presents a history of reincarnation, from ancient times to the present; it is written for a diverse readership interested in theories of life after death. The survey offers an exciting journey through a maze of fascinating ideas that all contribute to an underlying theory that after death comes rebirth.

This biography of the psychic Edgar Cayce tells the story of an enigmatic farm boy with no formal education who became the soft-spoken seer who inspired so many and left a legacy of more than 14,000 documented readings behind.

In this study of one of America's greatest psychics, Edgar Cayce, Gina Cerminara explores the “magnificent possibility” of reincarnation as not only a method to understand our existence, but the truth of it. Using Cayce's detailed and expansive files that span decades

In early 2011, author Terry Cline sat down at his computer, and was astonished to see the words that were not his own flowing onto his screen as he typed. The author soon realized that the text was coming to him from the world famous prophet and psychic Edgar Cayce, who died in 1945. This book is the result of these few weeks' exchange. Edgar Cayce, born in Hopkinsville, Kentucky in 1877, became widely known as The Sleeping Prophet. He was a simple man of unquestioned personal integrity, who in a sleep state showed remarkable intelligence and powers of clairvoyance. Cayce used his powers, not for profit or personal gain, but to give spiritual advice or medical diagnosis when it was requested of him. In 1931, Edgar Cayce founded the Association for Research and

Enlightenment in Virginia Beach, Virginia where he hoped to “add to the goodness of the world or its wisdom.” The Association still exists today. As his unbidden fame spread, Cayce suffered public skepticism and sometimes humiliation at the hands of experts who were eager to prove him a fake. Some of those experts went so far as to pierce him with needles while he was in a sleep state. The result of all their exhaustive tests was proof that Cayce was the real thing.

A young woman looks up into the stars. She sees countless galaxies and wonders, "What is the greatest secret that the universe knows?" Then one day, the universe answered back. This is a true story.

What opens the door to disease in our body? What enables us to get well? Dr. William A. McGarey answers these questions and shows us the way to glowing good health. Guided by the teachings of Edgar Cayce, Dr. McGarey has treated thousands in his Arizona clinic. He treats the human body not as a biochemical factory but as a whole entity in time and space, affected by our consciousness and the experienced of life, now and through many incarnations. Utilizing holistic concepts that use our minds creatively to bring health to our bodies, Dr. McGarey shows us a process of healing that includes: special diets and herbs, the preparation and use of Cayce's famous castor oil packs. Effective healing massages, an exercise program, treatments for specific illnesses, including psoriasis, colitis, asthma, heart disease, arthritis, and many more, daily meditation and prayer, dreams in

In the summer of 1991, Dr. Dudley Delany (a now retired chiropractor, massage therapist, and registered nurse) began experiencing numbness, blurred vision, difficulty swallowing, tremors, muscle spasms, depression, fatigue, failing memory, slurred speech, and bladder dysfunction. It was multiple sclerosis, a chronic neurological disease of the brain and spinal cord that afflicts an estimated 2-1/2 million people worldwide. In the fall of that year, he began using an alternative treatment suggested by Edgar Cayce, a man many regard as the father of modern holistic medicine. It involved diet, massage, keeping a positive mental attitude, maintaining a high spiritual ideal, and consistent use of a very mild, usually imperceptible form of electrotherapy (vibratory medicine). Over a period of about two years, all of his symptoms gradually disappeared. This book documents Dr. Delany's successful conquest of MS, and it contains many easily followed recommendations potentially helpful in treating this disturbing, sometimes devastating disease. It is **MUST** reading for anyone with MS!

The Immortal Truth: The Akashic Records Read by Saints and Mystics

The Akashic records, also known as the Book of God's

Remembrance, contain accounts of everything we have ever thought, said, or done. We will all read these records after we die, and we will all be judged by what lies within. In rare cases, individuals glimpse the Records while they are still alive, and share what they have learned from them. "The Immortal Truth" is the first book that includes all of the revelations of the Records in one work -- across party line one might say. With narratives of visions from Saint Anne Catherine Emmerich and Edgar Cayce, and Life Readings from the Religious Research Foundation of America, Inc., there is an abundance of material to intrigue the spiritual seeker in you.

Dr. Cerminara examines how the famed psychic penetrated the "previous lives" of his subjects and performed cures and prophecies that made him a notable clairvoyant. Connecting issues such as reincarnation, spiritual healing, past life regression, hypnosis, karma and parapsychology, Cayce's work is presented in an authoritative and engaging dialogue. A gripping, fascinating narrative of the life of America's greatest spiritualist delves into the life of a man who influenced presidents and Hollywood starlets but nevertheless lived in poverty for most of his days. 25,000 printing.

A new edition of the landmark, worldwide bestseller on the life of the famed medical clairvoyant and founding father of the New Age: Edgar Cayce. Edgar Cayce (1877-1945) is known to millions today as the grandfather of the New Age. A medical clairvoyant, psychic, and Christian mystic, Cayce provided medical, psychological, and spiritual advice to thousands of people who swore by the effectiveness of his trance-based readings. But Cayce was not always a

household name. When a young, skeptical journalist named Thomas Sugrue first met Cayce in 1927 the world had not heard of the "sleeping prophet." During years of unique access, Sugrue completed his landmark biography, which on its publication in 1942 brought national attention to Cayce and stands as the sole record written during the seer's lifetime. This edition includes a new introduction by historian Mitch Horowitz that highlights the enduring significance of Cayce's message and the role this book played in its dissemination.

Edgar Cayce's rare mind tuned to the Universal Mind gives us extraordinary insights into the power of our own minds. In this fascinating book, Cayce illustrates how thoughts are things, that may become crimes or miracles in our lives. He explains how by changing our thinking patterns, we can change our life for the better. He also gives a unique view into our mind at sleepdescribing the influences motivating our dreams and visions, and showing us how to better interpret them. He clarifies why the dreaming mind is so much more important to us than we realize. He also addresses the need to move away from a too self-centered consciousness, opening up to a larger

John E. Fetzer and the Quest for the New Age is the remarkable story of the spiritual search of one of Michigan's most successful entrepreneurs, a search that culminated in the Fetzer Institute whose ambitious mission is nothing less than the spiritual transformation of the world.

From its earliest days, America served as an arena for the revolutions in alternative spirituality that eventually swept the globe. Esoteric philosophies and personas—from Freemasonry to Spiritualism, from Madame H. P. Blavatsky to Edgar Cayce—dramatically altered the nation's culture, politics, and religion. Yet the mystical roots of our identity are often ignored or overlooked. Opening a new window on the past, Occult America presents a dramatic, pioneering study of the esoteric undercurrents of our history and their profound impact across modern life.

Science caught up with the psychic readings of Edgar Cayce when it proved that all of materiality - consisting of atoms and therefore protons, neutrons, and electrons - is energy in motion. Everything is a vibration. Even the body's five senses operate through the use of vibrations. The Cayce readings suggested that vibrations were also associated with healing, consciousness, and even

locations. In fact, the Cayce information presents the premise that all of life in every dimension is actually just different manifestations of the One Force - the Force that moved all of Creation into being. Therefore, all vibration is ultimately that One Force manifesting in the material world in a variety of ways. Todeschi's latest title explores how everything from consciousness to the material is connected to vibration, and how we continue to create and shape our world through the vibrations all around us. Vibrations are essentially spirit in motion and our thoughts and actions affect our life and the way we are living. A firsthand, behind-the-scene account of the controversies surrounding modern explorations at Giza • Investigates the recent scandals at Giza and claims of secret excavations and tunneling inside the Great Pyramid • Reveals the historical evidence in support of secret chambers in the Great Pyramid and beneath the Great Sphinx • Exposes the secret agendas behind the latest explorations on the Giza plateau Since 1993 Robert Bauval has been embroiled in the many controversies involving the

search for the lost treasures of the pyramid builders and the quest for the legendary Hall of Records of Atlantis. The strange but true story that he unfolds implicates American business moguls, the prestigious National Geographic Society, several Ivy League universities, the Edgar Cayce Foundation, the Freemasons, Christian fundamentalists, Zionists, and the Egyptian government. In this fully updated edition of Secret Chamber, including new color photographs, Robert Bauval pursues his in-depth investigation of clandestine events at Giza and the role played by the controversial ex-Minister of Antiquities Dr. Zahi Hawass. What lies behind the mysterious doors at the end of the star shafts in the Great Pyramid? What do the mysterious inscriptions found behind the Gantenbrink door mean? What is the real purpose of the Relief Chambers and the red ochre “graffiti” in them? Who is behind the secretly tunneling and excavating in these chambers, and why? Is there really a hidden Hall of Records from Atlantis beneath the Great Sphinx? Is the Great Pyramid just a tomb or does it serve a

higher purpose involving a lost science of immortality? Why do the ancient texts ascribe the Pyramid's design to the supreme god of wisdom Thoth, the writer of the fabled Books of Hermes? Will the Great Pyramid prove to be the "missing link" to our true origins or a "metaphysical machine" to access the world beyond? Providing a firsthand account of the strange events that have taken place at the Giza plateau in the last three decades, Bauval reveals the hidden agendas behind these events and raises important questions about the meaning of Egypt's ancient structures and the very origins of civilization. This collection of case studies, taken from the files of the late clairvoyant Edgar Cayce, explores the concept of reincarnation in terms of the beliefs of Christianity.

Learn how reincarnation occurs and how the karma associated with it can be resolved. Must reading for all who want to understand why their life is the way it is!

Two renowned investment advisors and authors of the bestseller *The Great Reckoning* bring to light both currents of disaster and the potential for prosperity and renewal in the face of radical changes in human history as we move into the next century. *The Sovereign Individual* details strategies necessary for adapting financially to the next phase of Western civilization. Few observers of the late twentieth century have their fingers so presciently on the pulse of the global political and economic realignment ushering in the new millennium as do James Dale Davidson and Lord William Rees-Mogg. Their bold prediction of disaster on Wall Street in *Blood in the Streets* was borne out by Black Tuesday. In their ensuing bestseller, *The Great Reckoning*, published just weeks before the coup attempt against Gorbachev, they analyzed the pending collapse of the Soviet Union and foretold the civil war in Yugoslavia and other events that have proved to be among the most searing developments of the past few years. In *The Sovereign Individual*, Davidson and Rees-Mogg explore the greatest economic and political transition in centuries -- the shift from an industrial to an information-based society. This transition,

which they have termed "the fourth stage of human society," will liberate individuals as never before, irrevocably altering the power of government. This outstanding book will replace false hopes and fictions with new understanding and clarified values.

Taking up from where she left off *Many Mansions*, the author pursues the philosophical aspects of reincarnation evidenced in the life readings of world-renowned psychic, Edgar Cayce, as well as data derived from experiments to determine whether human memory can be taken back to a period before birth. She touches on some of the people who have believed in reincarnation-among them, Plato, Virgil, Emerson, Whitman and Edison. The implications of reincarnation for art, psychology, and religion are considered. And she notes, in conclusion, the hope and promise reincarnation holds for our troubled world. This is an important, heartening book, as interesting and credible as it is inspiring. Lucid, concrete, consistent, it will help individuals understand themselves and their destiny. And to skeptics or believers, it offers a brave, fresh concept of the meaning of life. Book jacket.

with a prominent politician sparks Shirley MacLaine's quest of self-discovery. From Stockholm to Hawaii to the mountain vastness of Peru, from disbelief to radiant affirmation, she at last discovers the roots of her very existence. . . and the infinite possibilities of life. Shirley MacLaine opens her heart to explore the meaning of a great and enduring passion with her lover Gerry; the mystery of her soul's connection with her best friend David; the tantalizing secrets behind a great actor's inspiration with the late Peter Sellers. And through it all, Shirley MacLaine's courage and candor new doors, new insights, new revelations-and a luminous new world she invites us all to share.
