*A riotous and explosive mixture of joys and frustrations, Tropic of Capricorn chronicles Miller's early life in New York, from his repressive Brooklyn childhood spent amongst 'a galaxy of screwballs' to frantic, hilarious years of dead-end jobs and innumerable erotic adventures. Irreverent and ironic, Tropic of Capricorn is both a comic portrait of the irrepressible Miller himself and a scathing attack on respectable America, the very foundations of which he hoped to shatter. Publication of Tropic of Capricorn and its sister-volume Tropic of Cancer in Paris in the 1930s was hailed by Samuel Beckett as 'a momentous event in the history of modern writing'. The books were subsequently banned in the UK and the USA for nearly thirty years.*

"A fresh, profound, and fun way to look at all things astro while also making spot-on observations about your pop culture faves." —Cosmopolitan A soulful exploration of the twelve astrological signs embodied by our living "stars"—from divas to philosophers, poets to punks—and the ways they can help us better understand ourselves and each other, from the wildly popular astrology columnist for New York magazine's The Cut. Whether you believe in it or not, astrology's job has never been to give us a preordained vision of the future, nor to sort us into twelve neat personality types, but to provide the tools and language for delving into our weirdest, best, most thorny contradictions, and for understanding ourselves and each other in our full complexity. The stars and the planets then are more like mirrors that show us who we are, that give us an understanding of how to be and how to move through the world;

how certain people do it differently, and what we can learn by studying them. In Madame Clairevoyant's Guide to the Stars, Claire Comstock-Gay brings the sky down to Earth and points to our popular "stars"—from Aretha Franklin to Mr. Rogers, from poets in Cancer to punk singers in Scorpio—to reveal what the sky has to teach us about being human. In this wise, lyrically written guide, she examines the twelve astrological signs, illuminating the ways each one is more complicated, beautiful, and surprising than you might have been told. Claire suggests that actually it's okay, and even important, to be a seeker, to hunger for self-knowledge, and if astrology is the vehicle for that inquiry, so be it. Madame Clairevoyant's Guide to the Stars offers a clear introduction to the basics and an innovative new framework for creatively using astrology to illuminate our lives on earth. It's a road map to our internal world, yes, but Claire also reminds us that it's still our job to navigate it. Combining both heavenly insights and the earthly wisdom of writers like Cheryl Strayed and Heather Havrilesky and the poetry of Patricia Lockwood and Mary Oliver, Madame Clairevoyant's Guide to the Stars offers a fresh, profound, and fun way to look at ourselves and others, and perhaps see each more clearly. And in that way, this book is not just beautiful, but transformative.
