Taking a global and multidisciplinary approach, The SAGE International Encyclopedia of Travel and Tourism brings together a team of international scholars to examine the travel and tourism industry, which is expected to grow at an annual rate of four percent for the next decade. In more than 500 entries spanning four comprehensive volumes, the Encyclopedia examines the business of tourism around the world paying particular attention to the social, economic, environmental, and policy issues at play. The book examines global, regional, national, and local issues including transportation, infrastructure, the environment, and business promotion. By looking at travel trends and countries large and small, the Encyclopedia analyses a wide variety of challenges and opportunities facing the industry. In taking a comprehensive and global approach, the Encyclopedia approaches the field of travel and tourism through the numerous disciplines it reaches, including the traditional tourism administration curriculum within schools of business and management, economics, public policy, as well as social science disciplines such as the anthropology and sociology. Key features include: More than 500 entries authored and signed by key academics in the field Entries on individual countries that details the health of the tourism industry, policy and planning approaches, promotion efforts, and primary tourism draws. Additional entries look at major cities and popular destinations Coverage of travel trends such as culinary tourism, wine tourism, agritourism, ecotourism, geotourism, slow tourism, heritage and cultural-based tourism, sustainable tourism, and recreation-based tourism Cross-references and further readings A Reader's Guide grouping articles by disciplinary areas and broad themes

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. For courses in Hospitality Marketing, Tourism Marketing, Restaurant Marketing, or Hotel Marketing, Marketing for Hospitality and Tourism, 7/e is the definitive source for hospitality marketing. Taking an integrative approach, this highly visual, four-color book discusses hospitality marketing from a team perspective, examining each hospitality department and its role in the marketing mechanism. These best-selling authors are known as leading marketing educators and their book, a global phenomenon, is the leading resource on hospitality and tourism marketing. The Seventh Edition of this popular book includes new and updated coverage of social media, destination tourism and other current industry trends, authentic industry cases, and hands-on application activities.

This book presents a collection of the latest research in the area of immersive technologies, presented at the International Augmented and Virtual Reality Conference 2018 in Manchester, UK, and showcases how augmented reality (AR) and virtual reality (VR) are transforming the business landscape. Innovations in this field are seen as providing opportunities for businesses to offer their customers unique services and experiences. The papers gathered here advance the state of the art in AR/VR technologies and their applications in various industries such as healthcare, tourism, hospitality, events, fashion, entertainment, retail, education and gaming. The volume collects contributions by prominent computer and social sciences experts from around the globe. Addressing the most significant topics in the field of augmented and virtual reality and sharing the latest findings, it will be of interest to academics and practitioners alike.

This handbook analyzes the main issues in the field of hospitality marketing by focusing on past, present and future challenges and trends from a multidisciplinary global perspective. The book uniquely combines both theoretical and practical approaches in debating some of the most important marketing issues faced by the hospitality industry. Parts I and II define and examine the main hospitality marketing concepts and methodologies. Part III offers a comprehensive review of the development of hospitality marketing over the years. The remaining parts (IV–IX) address key cutting-edge marketing issues such as innovation in hospitality, sustainability, social media, peer-to-peer applications, Web 3.0 etc. in a wide variety of hospitality settings. In addition, this book provides a platform for debate and critical evaluation that enables the reader to learn from the industry's past mistakes as well as future opportunities. The handbook is international in its constitution as it attempts to examine marketing issues, challenges and trends globally, drawing on the knowledge of experts from around the world. Because of the nature of hospitality, which often makes it inseparable from other industries such as tourism, events, sports and even retail, the book has a multidisciplinary approach that will appeal to these disciplines as well as others including management, human resources, technology, consumer behavior and anthropology.

The Routledge Handbook of Hospitality Management

Theoretical and Empirical Insights

The Branding of Tourist Destinations

Cultural Heritage and Tourism

ICTR 2022 5th International Conference on Tourism Research

Since the publication of the first edition of this seminal textbook, the tourism economics landscape has undergone many changes. In this concise revised edition, the authors have incorporated new approaches and ideas influencing tourism economics and policy. This includes discussions of the implications of the sharing economy and its effect on industry structure in accommodation and transport, and Artificial Intelligence (AI) techniques that are being increasingly employed in tourism forecasting. It also includes new material on surface and marine transport, resident quality of life issues, the price mechanism, the economic contribution of tourism, tourism and economic growth, and tourism and sustainable development. It remains an important and accessible text for students, researchers and practitioners in tourism economics and tourism policy.

In recent years the brand has moved squarely into the spotlight as the key to success in the hospitality industry. Business strategy once began with marketing and incorporated branding as one of its elements; today the brand drives marketing within the larger hospitality enterprise. Not only has it become the chief means of attracting customers, it has, more broadly, become the chief organizing principle for most hospitality organizations. The never-ending quest for market share follows trend after trend, from offering ever more elaborate and sophisticated amenities to the use of social media as a marketing tool—all driven by the preeminence of the brand. Chekitan S. Dev's award-winning research has appeared in leading journals including Cornell Hospitality Quarterly, Journal of Marketing, and Harvard Business Review. He is the recipient of several major hospitality research and teaching awards. A former corporate executive with Oberoi Hotels & Resorts, he has served corporate, government, education, advisory, and private equity clients in more than forty countries as consultant, seminar leader, keynote speaker and expert witness. Hospitality Branding brings together the most important insights from the author's many years of research and experience, all in a single, affordably priced volume (available in both print and eBook formats). Skillfully blending the knowledge of recent history, the wisdom of cutting-edge research, and promise of future trends, this book offers hospitality organizations the advice they need to survive and thrive in today's competitive global business environment.

Now in its third edition, this text presents a new and refreshing approach to the study of tourism. This new edition now includes: coverage of researching social media; crowd-sourced strategies; the millennial tourist generation and green growth and sustainable tourism.

This established textbook explores how regions, and food industry, travel and hospitality companies present themselves to tourists experiencing the culture, history and ambience of a location through the food and wine it produces. It provides practical suggestions and guidelines for establishing a food-related tourism destination and business, discussing the environment, understanding the food tourist, supply issues, tours and tasting sessions, themed itineraries, planning and developing the tourist product, marketing and best practice strategies. It also includes numerous case studies from around the world and plentiful pedagogical features to aid student learning. If food and wine tourism is well planned, managed and controlled, it can become a real economic resource. Suitable for students in tourism and leisure subjects, the practical application provided in this book also makes it an ideal resource for those operating in the food and wine sector.

Hospitality Marketing Management

Defining, Measuring and Managing Consumer Experiences

Marketing in the Hospitality Industry

Concise Encyclopedia of Science and Technology of Wine

Marketing Tourism in South Africa

When asking the question what is wine? there are various ways to answer. Wine is extolled as a food, a social lubricant, an antimicrobial and antioxidant, and a product of immense economic significance. But there is more to it than that. When did humans first start producing wine and what are its different varieties? Are wines nutritious or have any therapeutic values—do they have any role in health or are they simply intoxicating beverages? How are their qualities determined or marketed and how are these associated with tourism? Concise Encyclopedia of Science and Technology of Wine attempts to answer all these questions and more. This book reveals state-of-the-art technology of winemaking, describing various wine regions of the world and different cultivars used in winemaking. It examines microbiology, biochemistry, and engineering in the context of wine production. The sensory qualities of wine and brandy are explored, and the composition, nutritive and therapeutic values, and toxicity are summarized. Selected references at the end of each chapter provide ample opportunity for additional study. Key Features: Elaborates on the recent trends of control and modeling of wine and the techniques used in the production of different wines and brandies Focuses on the application of biotechnology, especially genetic engineering of yeast, bioerror technological concepts, enzymology, microbiology, killer yeast, stuck and sluggish fermentation, etc. Illustrates the biochemical basis of wine production including malolactic fermentation Examines marketing, tourism, and the present status of the wine industry Concise Encyclopedia of Science and Technology of Wine contains the most comprehensive, yet still succinct, collection of information on the science and technology of winemaking. With 45 chapters contributed by leading experts in their fields, it is an indispensable treatise offering extensive details of the processes of winemaking. The book is an incomparable resource for oenologists, food scientists, biotechnologists, postharvest technologists, biochemists, fermentation technologists, nutritionists, chemical engineers, microbiologists, toxicologists, organic chemists, and the undergraduate and postgraduate students of these disciplines.

Events Management is the must-have introductory text providing a complete A-Z of the principles and practices of planning, managing and staging events. The book: introduces the concepts of event planning and management presents the study of events management within an academic environment discusses the key components for staging an event, covering the whole process from creation to evaluation examines the events industry within its broader business context, covering impacts and event tourism provides an effective guide for providers of events contains learning objectives and review questions to consolidate learning Each chapter features a real-life case study to illustrate key concepts and place theory in a practical context, as well as preparing students to tackle any challenges they may face in managing events. Examples include the Beijing Olympic Games, Google Zeitgeist Conference, International Confex, Edinburgh International Festival, Ideal Home Show and Glastonbury Festival. Carefully constructed to maximise learning, the text provides the reader with: a systematic guide to organizing successful events, examining areas such as staging, logistics, marketing, human resource management, control and budgeting, risk management, impacts, evaluation and reporting fully revised and updated content including new chapters on sustainable development and events, perspectives on events, and expanded content on marketing, legal issues, risk and health and safety management a companion website: www.elsevierdirect.com/9781856178181 with additional materials and links to websites and other resources for both students and lecturers

"This book provides a broad and comprehensive international coverage of subjects, issues, and current trends relating to all areas of online marketing"--Provided by publisher.

Tourism: The Business of Hospitality and Travel, 5e views the industry from a business perspective—examining the management, marketing and finance issues most important to industry members. Chapters reveal an integrated model of tourism and address consumer behavior, service quality and personal selling. Readings and integrative cases close each part and end-of-chapter exercises offer application activities for students. This edition includes early coverage of geography, more international examples, new case studies and expanded application and web-based exercises.

Hospitality Sales and Marketing

Proceedings of the ENTER 2021 eTourism Conference, January 19-22, 2021

The SAGE International Encyclopedia of Travel and Tourism

The Business of Hospitality and Travel

11th International Conference, UAHCI 2017, Held at Part of HCI International 2017, Vancouver, BC, Canada, July 9-14, 2017, Proceedings, Part I

In today's highly-competitive hospitality market, it is essential to have an understanding of sales and marketing. Hospitality Sales and Marketing goes beyond theory to focus on a customer-oriented and practical approach for effectively marketing hotels and restaurants. The book explores the "four Ps" (price, product, promotion, and place) as they relate to specific market segments, providing a customer-focused perspective. Illustrations and exhibits include industry examples (forms, checklists, advertisements, etc.) that are used by today's industry leaders to effectively market their properties.

It is highly important to highlight that nowadays the digital age drives the enterprises to focus more on the social media platforms, because the social media has enabled the customers to engage with the brand products / services. The social media platform

The International Student Conference in Tourism Research (ISCONTOUR) offers students a unique platform to present their research and establish a mutual knowledge transfer forum for attendees from academia, industry, government and other organisations. The annual conference, which is jointly organized by the IMC University of Applied Sciences Krems and the Management Center Innsbruck, takes place alternatively at the locations Krems and Innsbruck. The conference research chairs are Prof. (FH) Mag. Christian Maurer (University of Applied Sciences Krems) and Prof. (FH) Mag. Hubert Siller (Management Center Innsbruck). The target audience include international bachelor, master and PhD students, graduates, lecturers and professors from the field of tourism and leisure management as well as businesses and anyone interested in cutting-edge research of the conference topic areas. The conference topics include marketing and management, tourism product development and sustainability, information and communication technologies, finance and budgeting, and human resource management.

Hospitality is an industry characterised by its complex nature and numerous sectors including hotels, hostels, B&Bs, restaurants, pubs, nightclubs and contract catering. However, despite its segmentation, there are key issues that are pertinent to all subsectors. The Routledge Handbook of Hospitality Management adopts a strategic approach and explores and critically evaluates current debates, issues and controversies to enable the reader to learn from the industry's past mistakes as well as future opportunities. Especially relevant at a time when many sectors of the industry have to re - evaluate and reinvent themselves in response to the economic downturn the Handbook brings together specialists from both industry and academia and from a range of geographical regions to provide state-of-the-art theoretical reflection and empirical research. Each of the five inter related sections explores and evaluates issues that are of extreme importance to hospitality organisations, many of which have not been adequately explored before: external and internal customers, debates surrounding finance, uncertainty risk and conflict, sustainability, and e-Hospitality and Technology. This book is an invaluable resource for all those with an interest in hospitality, encouraging dialogue across disciplinary boundaries and areas of study. It is essential reading for students, researchers & academics and managers of Hospitality as well as those of Tourism, Events, Marketing, and Business Management.

A Practical Manual

Food and Wine Tourism, 2nd Edition

Tourism

Augmented Reality and Virtual Reality

Events Management

This book examines key contemporary marketing concepts, issues and challenges that affect destinations within a multidisciplinary global perspective. Uniquely combining both the theoretical and practical approaches, this handbook discusses cutting edge marketing questions such as innovation in destinations, sustainability, social media, peer-to-peer applications and web 3.0. Drawing from the knowledge and expertise of 70 prominent scholars from over 20 countries around the world, The Routledge Handbook of Destination Marketing aims to create an international platform for balanced academic research with practical applications, in order to foster synergic interaction between academia and industry. For these reasons, it will be a valuable resource for both researchers and practitioners in the field of destination marketing.

Managing Customer Experiences in an Omnichannel World explores how organizations integrating both the physical and virtual environments for consumers will enable them to effectively manage the customer experience.

Hospitality Law: Managing Legal Issues in the Hospitality Industry, Fifth Edition takes an applied approach to the study of hospitality law with its touchstone of compliance and prevention. The book is highly pedagogical and includes many interactive exercises and real world cases that help students focus on the practical application of hospitality laws and model their decision process to avoid liability. As a result, this book does look different than others on the market as the legal information contained is carefully selected to specifically correlate with helping students understand how to do the right thing, i.e. it is not a comprehensive book on the laws. Barsh immediately helps readers learn about the legalities of situations and work through exercises – both individually and in groups – to effectively apply them to hospitality management situations. Many instructors teach their course from a very applied perspective, which aligns with Barsh's approach.

This open access book is the proceedings of the International Federation for IT and Travel & Tourism (IFITT)'s 28th Annual International eTourism Conference, which assembles the latest research presented at the ENTER21@yourplace virtual conference January 19–22, 2021. This book advances the current knowledge base of information and communication technologies and tourism in the areas of social media and sharing economy, technology including AI-driven technologies, research related to destination management and innovations, COVID-19 repercussions, and others. Readers will find a wealth of state-of-the-art insights, ideas, and case studies on how information and communication technologies can be applied in travel and tourism as we encounter new opportunities and challenges in an unpredictable world.

Contemporary Tourism

The Power of AR and VR for Business

The Routledge Handbook of Destination Marketing

Hospitality Branding

Routledge Handbook of Hospitality Marketing

The Emerald Handbook of Luxury Management for Hospitality and Tourism brings together global philosophies, principles and practices in luxury tourism management, exploring the changing paradigms of the upcoming post-pandemic global luxury travel market.

This book offers a comprehensive overview of the challenges that marketing faces in understanding, managing and measuring the dynamics of modern consumer behaviours and successfully managing the customer experience. The reader will gain a deeper knowledge of the approaches to consumer behaviour and learn about the theoretical and empirical challenges of studying customer experience management. It also considers the post-modern consumer, which requires a move beyond the purely rationalist perspective of traditional marketing and provides methodological support for firms and managers to measure cognitive, emotional and behavioural consumer reactions. More specifically, it explores the changes in consumer behaviours, the limitations of traditional measurement approaches and the importance of capturing small insights with neuromarketing metrics, with a chapter contributed by a leading expert. A new three-point perspective on consumer behaviour is set out that combines behaviour (what people do) with the declared (what people say) and the perceived (what people feel). This approach acknowledges the complexity of consumer behaviours and the methodological bias derived from the use of the traditional techniques (principally the survey) or from big data. Only a holistic perspective can capture the heterogeneous nature of consumer behaviour. The book thereby takes up the theoretical debate about the definition, management and measurement of customer behaviour. It also examines measurement methodologies, an area that has received little attention elsewhere. Besides addressing the scientific community in the field, the book will also be a valuable practical resource for marketing managers, entrepreneurs and consultants who want to implement innovative strategies to manage the customer experience.

Understanding the global hotel business is not possible without paying specific attention to hotel chain management and dynamics. Chains are big business, approximately 80 percent of hotels currently being constructed around the world are chain affiliated and, in 2014, the five largest brands held over a one million rooms. The high economic importance of the hotel chains and their global presence justifies the academic research in the field however, despite this, there is no uniform coverage in the current body of literature. This Handbook aids in filling the gap by exploring and critically evaluates the debates, issues and controversies of all aspects of hotel chains from their nature, fundamentals of existence and operation, expansion, strategic and operational aspects of their activities and geographical presence. It brings together leading specialists from range of disciplinary backgrounds and regions to provide state-of-the-art theoretical reflection and empirical research on current issues and future debates. Each of the five inter-related section explores and evaluates issues that are of extreme importance to hotel chain management, focusing on theoretical issues, the expansion of hotel chains, strategic and operational issues, the view point of the individual affiliated hotel and finally the current and future debates in the theory and practice of hotel chain management arising from globalisation, demographic trends, sustainability and new technology development. It provides an invaluable resource for all those with an interest in hotel management, hospitality, tourism and business encouraging dialogue across disciplinary boundaries and areas of study. This is essential reading for students, researchers and academics of Hospitality as well as those of Tourism, Marketing, Business and Events Management.

Tourism and hospitality services are highly prone to service-failure due to a high level of customer-employee contact and the inseparable, intangible, heterogeneous and perishable nature of these services. Service Failures and Recovery in Tourism and Hospitality, with its extensive coverage of the literature, presents an invaluable source of information for academics, students, researchers and practitioners. In addition to its extensive coverage of the literature in terms of recent research published in top tier journals, chapters in the book contain student aids, real-life examples, case studies, links to websites and activities alongside discussion questions and presentation slides for in-class use by teaching staff. This book is enhanced with supplementary resources. The customizable lecture slides can be found at: www.cabi.org/openresources/90677

Managing Legal Issues in the Hospitality Industry

Performing Cultural Tourism

Brand Management with Social Media: In Service Industry

Hospitality Law

The Emerald Handbook of Luxury Management for Hospitality and Tourism

While experiential staging is well documented in tourism studies, not enough has been written about the diverse types of experiences and expectations that visitors bring to the tourist space and how communities respond to, or indeed challenge, these expectations. This book brings together new ideas about cultural experiences and how communities, creative producers, and visitors can productively engage with competing interests and notions of experience and authenticity in the tourist environment. Part I considers the experiences of communities in meeting the needs of cultural tourists in an international context. Part II analyses the relationships between individualcultural tourists, the community, and digital technology. Finally, Part III responds to new methodologies in relation to interactions between government and regional policy and community development. Focusing on the way in which communities and visitors 'perform' new forms of cultural tourism, Performing Cultural Tourism is aimed at undergraduate students, researchers, academics, and a diverse range of professionals at both private and government levels that are seeking to develop policies and business plans that recognize and respond to new interests in contemporary tourism.

This title views the tourism industry from a business perspective - examining the management, marketing and finance issues most important to industry members. Chapters reveal an integrated model of tourism and address consumer behaviour, service quality and personal selling. Readings and integrative cases close each part and end-of-chapter exercises offer application activities for students.

Completely revised and updated to include more information on Internet marketing, tourism marketing, marketing technology, and international business, Hospitality Marketing Management, Fifth Edition is a comprehensive, core marketing text. This popular textbook explores marketing and themes unique to hospitality and tourism, with a focus on the practical applications of marketing rather than marketing theory. It provides readers with the tools they need to successfully execute marketing campaigns for a hospitality business, no matter what their specialty.

This Fourth Edition helps readers develop the wide-ranging knowledge and analytical skills they need to succeed in today's burgeoning and dynamic hotel industry. This comprehensive volume encourages critical thinking by providing different points of view through contributions from sixty leading industry professionals and academics. Within a coherent theoretical structure, this updated edition enables readers to formulate their own ideas and solutions.

Communities, Tourists and Creative Practices

Information and Communication Technologies in Tourism 2021

Transdisciplinary Marketing Concepts and Emergent Methods for Virtual Environments

Managing Customer Experiences in an Omnichannel World

An Introduction

Now in its third edition, the best-selling text, Marketing in Travel and Tourism, explains the principles and practice of marketing as they are increasingly being applied in the global travel and tourism industry. Building on the success of previous editions, the authors have completely revised the text to reflect the changes in the travel and tourism industry in the 21st century.

International examples and case studies drawn from recent practice in several countries are used throughout the text. Case studies emphasising the role of ICT include: Microbusiness, Travel Inn (budget hotels), RCI Europe, the Balearic Islands, and ICT and the role of the Internet in international NTO strategies. With its comprehensive content and user friendly style, Marketing in Travel and Tourism third edition takes the reader from an initial definition of the subject matter through to the application of marketing in the travel and tourism industry, discussing crucial components such as planning strategy and the marketing mix, making it an indispensable text for both students and practitioners alike.

This detailed textbook is the first to deal extensively with marketing in the South African tourism and hospitality industry, and provides comprehensive coverage of marketing theories for students.

Event management studies are fast growing in popularity, covering a diverse range of activities such as music and film festivals, concerts, sporting events and conferences. This textbook gives a broad and practical coverage of the major themes in events. Outlining both the historical developments and current state of the industry, whilst also taking into account wider political and cultural issues, the book covers the different elements of planning, project management, health and safety, funding, operations, human resources, marketing and logistics that are vital for successful management. Critical issues such as impacts, sustainability and legacy of events are also discussed. Supported by international case studies and review questions, Events Management provides a current and up-to-date view of the industry in this field.

The three-volume set LNCS 10277-10279 constitutes the refereed proceedings of the11th International Conference on Universal Access in Human-Computer Interaction, UAHCI 2017, held as part of the 19th International Conference on Human-Computer Interaction, HCI 2017, in Vancouver, BC, Canada in July 2017, jointly with 14 other thematically similar conferences. The total of 1228 papers presented at the HCI 2017 conferences were carefully reviewed and selected from 4340 submissions. The papers included in the three UAHCI 2017 volumes address the following major topics: Design for All Methods and Practice; Accessibility and Usability Guidelines and Evaluation; User and Context Modelling and Monitoring and Interaction Adaptation; Design for Children; Sign Language Processing; Universal Access to Virtual and Augmented Reality; Non Visual and Tactile Interaction; Gesture and Gaze-Based Interaction; Universal Access to Health and Rehabilitation; Universal Access to Education and Learning; Universal Access to Mobility; Universal Access to Information and Media; and Design for Quality of Life Technologies.

Marketing in Travel and Tourism

Proceedings of the International Student Conference in Tourism Research

Multidisciplinary Academic research 2013

Universal Access in Human–Computer Interaction. Design and Development Approaches and Methods

These proceedings represent the work of researchers participating in the International Conference on Tourism Research (ICTR 2018) which is being hosted by JAMK University of Applied Sciences, Jyväskylä, Finland on 23–24 March 2018.

One of the most salient forms of modern-day tourism is based on the heritage of humankind. The majority of all global travel entails some element of the cultural past, as hundreds of millions of people visit cultural attractions, heritage festivals, and historic places each year. The book delves into this vast form of tourism by providing a comprehensive examination of its issues, current debates, concepts and practices. It looks at the social, physical and economic impacts, which cause destinations, site managers and interpreters to consider not only how to plan and manage resources but also how to portray the past in ways that are acceptable, accurate, accessible and politically relevant. In the process, however, the depth of heritage politics, the authenticity and inauthenticity of place and experience, and the urgent need to protect living and built cultures are exposed. The book explores these and many other current issues surrounding the management of cultural resources for tourism. In order to help students relate concepts to real-world situations it combines theory and practice, is student learning oriented, is written accessibly for all readers and is empirically rich.

The marketing of tourist destinations requires continuous strategic planning and decision making. This book provides researchers and practitioners with an in-depth understanding of different tourism products, marketing strategies and destination branding tactics, as well as useful insights into sustainability and responsible tourism practices.
