When he arrived, he discovered it wasn't the oven that was special, it was the rare and exotic egg that had been incubating inside it. And now it had hatched. Suddenly, Markus found his life had become a good deal more complicated. The creature was a Structophis Gastrignae—a strange creature that was equal parts dragon and oven—and she'd become quite a big girl. Large as a refrigerator and curious as a toddler, the creature he'd dubbed Blodgette would have been a handful in any situation. Markus had bigger problems than figuring out how to take care of her, though. Owning such a rare and special beast

Part Eragon, part Transformers, with a magical beating heart at its center. Marcus Brimley was just four years old when his CIA analyst father went missing and the world branded him a traitor. Eight years

later, searching for clues to find his father and prove his innocence, Marcus breaks a complex code that sends him shooting through a storm into an alternate realm . . . but he doesn't travel alone. When Marcus lands in this new world, Dracone, he finds that he has been followed by government drones. And they're out to destroy Marcus and all of Dracone. While fleeing the drones, Marcus meets Dree, a twelve-year-old Draconian girl who comes from a family of dragon riders. Dree explains to Marcus that while humans and dragons used to be friends, Dracone's new prime minister has turned them into enemies, with humans hunting dragons for sport and dragon-riding families like Dree's pushed to the poorer outskirts of the city. But the drones are firing on both

the dragons and the people of Dracone. Soon, Marcus and Dree discover that they must get help from the dragons if they want to stop an all-out war that will leave the incredible realm of Dracone decimated.

This book presents a compilation of articles on the subject of game studies written over the last ten years. These texts reflect a decade of research in European computer game studies from a theoretical perspective that combines philosophy, cultural studies, visual studies, and media studies in a way that is unique to a specific type of media theory developed in Germany over the last thirty years. This theory differs quite significantly from media studies as usually conceived in Anglo-American academia, providing new perspectives that

are rooted in continental philosophical traditions ranging from phenomenology to post-structuralism and newer forms of “presence studies” in aesthetic theory. The book provides (1) an introduction to a continental approach to game philosophy; (2) an aesthetic theory of computer games rooted in concepts of performativity and epistemology; and (3) an introduction to an interdisciplinary approach to game studies that is based on philosophical perspectives on the subject matter.
