Extended Mathematics For Igcse

**Extended Mathematics for Cambridge IGCSE provides for the second year of a two-year course leading to the Cambridge IGCSE Mathematics Extended Level examination from University of Cambridge International Examinations. This is the second of two books (Core and Extended), which together completely cover the syllabus for the Cambridge IGCSE Mathematics Extended Level. Students may either study the whole of the Core course in their first year, followed by the Extended in their second year, or they may study 1 from Core followed immediately by 1 from Extended. Either way, the books are designed to be worked through sequentially and can be used both as classroom textbooks and for self-study.**

**Written by an examiner and subject specialist, this updated resource develops analysis and critical thinking skills, with a focus on progression and results. The accompanying support site is packed with additional content to cement exam skills and extend learning.**

**This text offers key facts; worked examples; international contexts; questions, including those from past exam papers; in-built revision; and full coverage of IGCSE syllabuses for secondary maths pupils in overseas schools taking IGCSE.**

**This revision tool is a must for all Cambridge IGCSE Maths students. It can be used as an ongoing reference book or as an aid for final exam preparation. All areas of the CIE syllabus are covered and examples are used that are typical of past-paper questions with each step fully explained, answers provided and grade descriptions available.**

Packed with spectacular superlatives, shocking stats, fantastic facts and fun figures, Science and Stuff celebrates the simple joy in finding things out. What can cats teach us about the laws of physics? Why was cabbage banned on the International Space Station? (Can you fart in space?) And would a penny dropped from the Empire State Building really kill someone? (Short answer: No!)But it's not all facts and stats. The feature chapter 'Just for Makers', introduced by our very own mad professor Burnaby O. Orbak, challenges you to attempt record-breaking science experiments at home, from the fastest Mentos & Soda rocket car to the most slime thrown and caught in a minute!Join us as we rise from the deepest depths of the ocean, where weird glowing fish hunt in the darkness, to the mountaintop observatories where scientists unravel the secrets of the universe.
