A Holocaust survivor's surprising and thought-provoking study of forgiveness, justice, compassion, and human responsibility, featuring contributions from the Dalai Lama, Harry Wu, Cynthia Ozick, Primo Levi, and more. While imprisoned in a Nazi concentration camp, Simon Wiesenthal was taken one day from his work detail to the bedside of a dying member of the SS. Haunted by the crimes in which he had participated, the soldier wanted to

confess to--and obtain absolution from--a Jew. Faced with the choice between compassion and justice, silence and truth, Wiesenthal said nothing. But even years after the war had ended, he wondered: Had he done the right thing? What would you have done in his place? In this important book, fifty-three distinguished men and women respond to Wiesenthal's questions. They are theologians, political leaders, writers, jurists, psychiatrists, human rights activists, Holocaust survivors, and victims of attempted genocides in Bosnia, Cambodia, China and Tibet. Their responses, as varied as their

A true story of love, murder, and the end of the world's "great hush." In *Thunderstruck*, Erik Larson tells the interwoven stories of two men—Hawley Crippen, a very unlikely murderer, and Guglielmo Marconi, the obsessive creator of a seemingly supernatural means of communication—whose lives intersect during one of the greatest criminal chases of all time. Set in Edwardian London and on the stormy coasts of Cornwall, Cape Cod, and Nova Scotia, *Thunderstruck* evokes the dynamism of those years when great

shipping companies competed to build the biggest, fastest ocean liners; scientific advances dazzled the public with visions of a world transformed; and the rich outdid one another with ostentatious displays of wealth. Against this background, Marconi races against incredible odds and relentless skepticism to perfect his invention: the wireless, a prime catalyst for the emergence of the world we know today.

Meanwhile, Crippen, “the kindest of men,” nearly commits the perfect murder. With his unparalleled narrative skills, Erik Larson guides us through a relentlessly suspenseful chase over the waters of the

through four generations, from Paris to New York and back again. For a long time, Nadja Spiegelman believed her mother was a fairy. More than her famous father, Maus creator Art Spiegelman, and even more than most mothers, hers--French-born New Yorker art director Françoise Mouly--exerted a force over reality that was both dazzling and daunting. As Nadja's body changed and "began to whisper to the adults around me in a language I did not understand," their relationship grew tense. Unwittingly, they were replaying a drama from her mother's past, a drama Nadja sensed but had never been told. Then, after

college, her mother suddenly opened up to her. Françoise recounted her turbulent adolescence caught between a volatile mother and a playboy father, one of the first plastic surgeons in France. The weight of the difficult stories she told her daughter shifted the balance between them. It had taken an ocean to allow Françoise the distance to become her own person. At about the same age, Nadja made the journey in reverse, moving to Paris determined to get to know the woman her mother had fled. Her grandmother's memories contradicted her mother's at nearly every turn, but beneath them lay a difficult

Maus, a Survivor's Tale

On the occasion of the twenty-fifth anniversary of its first publication, here is the definitive edition of the book acclaimed as "the most affecting and successful narrative ever done about the Holocaust" (Wall Street Journal) and "the first masterpiece in comic book history" (The New Yorker). The Pulitzer Prize-winning Maus tells the story of Vladek Spiegelman, a Jewish survivor of Hitler's Europe, and his son, a cartoonist coming to

terms with his father's story. Maus approaches the unspeakable through the diminutive. Its form, the cartoon (the Nazis are cats, the Jews mice), shocks us out of any lingering sense of familiarity and succeeds in "drawing us closer to the bleak heart of the Holocaust" (The New York Times). Maus is a haunting tale within a tale. Vladek's harrowing story of survival is woven into the author's account of his tortured relationship with his aging father. Against the backdrop of guilt brought by survival, they stage a normal life of small arguments and unhappy visits. This astonishing retelling of our century's grisliest news is a story of survival, not only of Vladek but of the children who survive even the survivors. Maus studies the bloody pawprints of history and tracks its meaning for all of us.

In the 1970s and 1980s Jewish cartoonists such as Will Eisner were some of the first artists to use the graphic novel as a way to explore their ethnicity. Although similar to their pop culture counterpart, the comic book, graphic novels presented weightier subject matter in more expensive packaging, which appealed to an adult audience and gained them credibility as a genre. The Jewish Graphic Novel is a lively, interdisciplinary collection of essays that addresses critically acclaimed works in this subgenre of Jewish literary and artistic culture. Featuring insightful discussions of notable figures in the industry—such as Will Eisner, Art Spiegelman, and Joann Sfar—the essays focus on the how graphic novels are increasingly being used in Holocaust memoir and fiction, and to portray Jewish identity in
