

## Max The Mighty

Along the train lines north of New York City, twelve-year-old neighbors Myla and Peter search for the link between Myla's necklace and the disappearance of Peter's brother, Randall. Thrown into a world of parkour, graffiti, and diamond-smuggling, Myla and Peter encounter a band of thugs who are after the same thing as Randall. Can Myla and Peter find Randall before it's too late, and their shared family secrets threaten to destroy them all? Drawing on urban art forms and local history, *Finding Mighty* is a mystery that explores the nature of art and the unbreakable bonds of family.

Here are the facts For the parents whose children have been taken, for the broken lives we piece back together one relentless investigation at a time, our town house is a sanctuary. My name is Alice Crane. I'm just one of a talented team working for Naomi Nantz, the brilliant and very private detective. Today that sanctuary was violated. The famous kid-finder Randall Shane was taken away by unknown assailants,

possibly government agents. Shane's client is dead, and a boy known as "the keyboard kid" is missing. What is the boy's connection to a top secret physics lab? Unknown—for now. But under Naomi's lead, we will infiltrate every illicit boardroom and bedroom and war room. We'll find that little boy or die trying. The only thing guaranteed in this life is that Naomi Nantz won't give up. Not now, not ever.

"We live here, my girl, because it is close to the Way, and echoes of its magic are felt in our world. The Way is a path leading to another place, where the people are governed by different rules. Magic runs through them and their land." With her boundless curiosity and wild spirit, Fer has always felt that she doesn't belong. Not when the forest is calling to her, when the rush of wind through branches feels more real than school or the quiet farms near her house. Then she saves an injured creature—he looks like a boy, but he's really something else. He knows who Fer truly is, and invites her through the Way, a passage to a strange, dangerous land. Fer feels an

instant attachment to this realm, where magic is real and oaths forge bonds stronger than iron. But a powerful huntress named the Mór rules here, and Fer can sense that the land is perilously out of balance. Fer must unlock the secrets about the parents she never knew and claim her true place before the worlds on both sides of the Way descend into endless winter. Sarah Prineas captivates in this fantasy-adventure about a girl who must find within herself the power to set right a terrible evil.

The first book in the action-packed trilogy from New York Times bestselling author Gordon Korman is perfect for fans of *Stranger Things* and James Patterson. Eli Frieden has never left Serenity, New Mexico...why would he ever want to? Then one day, he bikes to the edge of the city limits and something so crazy and unexpected happens, it changes everything. Eli convinces his friends to help him investigate further, and soon it becomes clear that nothing is as it seems in Serenity. The clues mount to reveal a shocking discovery, connecting

their ideal crime-free community to some of the greatest criminal masterminds ever known. The kids realize they can trust no one—least of all their own parents.

Armpit and X-Ray are living in Austin, Texas. It is three years since they left the confines of Camp Green Lake Detention Centre and Armpit is taking small steps to turn his life around. He is working for a landscape gardener because he is good at digging holes, he is going to school and he is enjoying his first proper romance, but is he going to be able to stay out of trouble when there is so much building up against him? In this exciting novel, Armpit is joined by many vibrant new characters, and is learning what it takes to stay on course, and that doing the right thing is never the wrong choice.

A story of determination and survival from the acclaimed author of FREAK THE MIGHTY. "This thrilling and elegant book ... will hold the interest of even the most stalwart landlubber." -- PWTwelve-year-old Skiff Beaman's mom just died, and his fisherman dad is too depressed to drag himself off the couch and go to work. So these days Skiff has to

take care of everything himself. But when his dad's boat sinks, Skiff discovers it will cost thousands to buy a new engine. Skiff's lobster traps won't earn him enough, but there are bigger fish in the sea -- bluefin tuna. If he can catch one of those monster fish, Skiff just might save the boat -- and his family. Part coming of age, part call to action, this fast-paced #ownvoices novel about a Deaf teenager is a unique and inspiring exploration of what it means to belong. Smart, artistic, and independent, sixteen year old Piper is tired of trying to conform. Her mom wants her to be “normal,” to pass as hearing, to get a good job. But in a time of food scarcity, environmental collapse, and political corruption, Piper has other things on her mind—like survival. Piper has always been told that she needs to compensate for her Deafness in a world made for those who can hear. But when she meets Marley, a new world opens up—one where Deafness is something to celebrate, and where resilience means taking action, building a community, and believing in something better. Published to rave reviews as *Future Girl in Australia* (Allen & Unwin, Sept. 2020), this empowering, unforgettable story is told through a visual extravaganza of text, paint, collage, and drawings. Set in an ominously prescient near future, *The Words in My Hands* is very much a novel for our turbulent times.

In rural Maine, a stop on the Underground Railroad

is menaced by a supernatural force in this terrifying novel of pre-Civil War horror. Davis Bentwood has nearly finished medical school when he meets an abolitionist dwarf walking across Harvard Yard. Jeb Coffin is a nonpracticing doctor, a devoted student of transcendentalism whose home life has been shaken by tragedy. The two men become friends, and Coffin invites Bentwood to rural Maine to save his family from itself. The Coffins are noted abolitionists, their home a stop on the Underground Railroad, and lately they have been menaced by a supernatural terror. The tragedies are countless: two brothers killed, a father driven mad, and a baby frozen solid in its crib. At first Bentwood cannot bring himself to acknowledge the impossible horrors that have cursed this family. But he will not survive his sojourn in Maine unless he can open his mind to the possibility that something evil is waiting in the dark.

*We commonly think of society as made of and by humans, but with the proliferation of machine learning and AI technologies, this is clearly no longer the case. Billions of automated systems tacitly contribute to the social construction of reality by drawing algorithmic distinctions between the visible and the invisible, the relevant and the irrelevant, the likely and the unlikely – on and beyond platforms. Drawing on the work of Pierre Bourdieu, this book develops an original sociology of algorithms as social agents, actively participating in social life. Through a wide range of examples, Massimo Airoidi shows how society shapes algorithmic code, and how this culture in the code guides the practical behaviour of the code in the culture, shaping society in turn. The 'machine habitus' is the generative mechanism at work throughout myriads of feedback loops linking humans with artificial social agents, in the context of digital infrastructures and pre-digital social structures. Machine Habitus will be of great interest to students and scholars in sociology, media and cultural studies, science and technology studies and information technology, and to anyone interested in the growing role of algorithms and AI in our social and*

What would you do if every spark of electricity suddenly vanished, as if somebody had flipped a switch on the entire

planet? Cars won't start, the heat shuts off, there's no water in your faucet, and your radio, TV, and flashlight go dark. Everyone in Charlie's small town is baffled. But as time passes, lawlessness erupts and takes an ugly turn. When the market and pharmacy are torched by an anti-Semitic arsonist, Charlie realizes his mother will die without her medicine. So he dons skis and heads off alone, seeking the nearest hospital. After traveling 50 miles through brutal ice and snow, Charlie encounters a burned-out, looted city of terrified citizens. Will he be able to save his mom? Heroic, eloquent, and unforgettable, *The Big Dark* raises timely questions about responsibility, tolerance, and love.

Cullen Thomas was just like the thousands of other American kids who travel abroad after college. He was hungry for meaning and excitement beyond a nine-to-five routine, so he set off for Seoul, South Korea, to teach English and look for adventure. What he got was a three-and-a-half-year drug-crime sentence in South Korea's prisons, where the physical toll of life in a cell was coupled with the mental anguish of maintaining sanity in a world that couldn't have been more foreign. This is Thomas's unvarnished account of his eye-opening, ultimately life-affirming experience. *Brother One Cell* is part cautionary tale, part prison memoir, and part insightful travelogue that will appeal to a wide readership, from concerned parents to armchair adventurers.

**Newbery Honor author Rodman Philbrick presents a gripping yet poignant novel about a 12-year-old boy and his dog who become trapped in New Orleans during the horrors of Hurricane Katrina. Zane Dupree is a charismatic 12-year-old boy of mixed race visiting a relative in New Orleans when Hurricane Katrina hits. Unexpectedly separated from all family, Zane and his dog experience the terror of Katrina's wind, rain, and horrific flooding. Facing death, they are rescued from an attic air vent by a kind, elderly musician and a scrappy young girl--both African American. The chaos that ensues as storm water drowns the city, shelter and food vanish, and police contribute to a dangerous, frightening atmosphere, creates a page-turning tale that completely engrosses the reader. Based on the facts of the worst hurricane disaster in U.S. history, Philbrick includes the lawlessness and lack of government support during the disaster as well as the generosity and courage of those who risked their lives and safety to help others. Here is an unforgettable novel of heroism in the face of truly challenging circumstances.**

**Sixty years ago, most biblical scholars maintained that Israel's religion was unique—that it stood in marked contrast to the faiths of its ancient Near Eastern neighbors. Nowadays, it is widely argued that Israel's religion mirrors that of other West Semitic societies. What accounts for this radical change, and what are its implications for our understanding of the Old Testament? Dr. John N.**

Oswalt says the root of this new attitude lies in Western society's hostility to the idea of revelation, which presupposes a reality that transcends the world of the senses, asserting the existence of a realm humans cannot control. While not advocating a "the Bible says it, and I believe it, and that settles it" point of view, Oswalt asserts convincingly that while other ancient literatures all see reality in essentially the same terms, the Bible differs radically on all the main points. *The Bible Among the Myths* supplies a necessary corrective to those who reject the Old Testament's testimony about a transcendent God who breaks into time and space and reveals himself in and through human activity.

From Newbery Honor author Rodman Philbrick comes a delicious, fast-paced whodunit about two socially outcast boys who set out to find jewels hidden for a century--and unwittingly flush out a murderer. In award-winner Philbrick's new page-turning mystery, Arthur "Bash Man" is the school thug, paid with candy to bully and threaten other students. When genius orphan Darius Drake employs Arthur to help him discover the origin of a suspicious threat, written in blood, they uncover a mystery that involves Darius's estranged grandfather, who was imprisoned for forging evidence in a search for a long-lost diamond necklace worth millions. The boys make the dangerous decision to search for the jewels themselves -- and in the process, they discover that the car crash that killed Darius's parents was not an

This is the dramatic, heart-wrenching tale of Max (from Freak the Mighty) and Worm, two outsiders who turn to each other for survival.

After Jared accidentally plunges into a polluted swamp, he gains the ability to read minds . . . and discovers dangerous secrets about his family The first thing Jared

does every summer when he and his family arrive at their cottage is hop on his bike and cruise along the back roads. Only this year he ' s grown too big for the bike. When the brakes suddenly give out at the bottom of the hill where the road makes a sharp turn, Jared plunges into an industrial swamp oozing with toxic waste. After the accident, Jared feels OK—except for a headache. But then he starts hearing strange things: people ' s private thoughts, which are the total opposite of what they actually say. Next, Jared ' s journal is stolen. Luckily, he can just read the mind of the person who stole it. He can also use his new power to track down the culprit in a recent series of ATM robberies and neighborhood break-ins. But along with solving mysteries, Jared uncovers shocking family secrets, the identity of someone else who has the same paranormal gift as him, and the truth about the girl he loves.

"Soon we will eat the frozen cattle.... And then, when that is gone, what shall we eat? Shall we eat the snow? Shall we eat the ice? Shall we eat the bark on the frozen trees? What shall we eat?" Spring, 1846: Douglas Allen Deeds dreams of starting a new life out West. When the opportunity to join the Donner Party Expedition arises, he leaves the life he's known behind to set out on the nearly 2,000-mile trek from Independence, Missouri to sunny California. But progress is slow. Brutal heat, poisoned water, and rough terrain slows the expedition down. Soon they have a choice: continue on the known but grueling trail, or take a shortcut that would cut 350 miles from their journey—but take them through

unknown territory. Is it worth the risk? Winter comes quickly in the mountains, and the wrong choice could leave them stranded in the Sierra Mountains when the snow comes, with no shelter, supplies, or even food. Newbery Honor-winning author Rodman Philbrick brings to life the excitement, danger, and horrors of the Donner Party's journey west.

Max the Mighty

The Bible among the Myths

This fast-paced action novel is set in a future where the world has been almost destroyed. Like the award-winning novel *Freak the Mighty*, this is Philbrick at his very best. It's the story of an epileptic teenager nicknamed Spaz, who begins the heroic fight to bring human intelligence back to the planet. In a world where most people are plugged into brain-drain entertainment systems, Spaz is the rare human being who can see life as it really is. When he meets an old man called Ryter, he begins to learn about Earth and its past. With Ryter as his

companion, Spaz sets off an unlikely quest to save his dying sister -- and in the process, perhaps the world.

In *Freak the mighty*, learning disabled Max and his new friend Freak, whose birth defect has affected his body but not his brilliant mind, find that when they combine forces they make a powerful team. In *Max the mighty*, fourteen-year-old Max helps a younger girl escape from her abusive stepfather by running away with her to the distant town of Chivalry, Montana, searching for her real father.

Everybody is welcome at the Bar None ranch, and to Roy and his big brother Joe, it seems like the ideal place to escape their past.

Joe has a special way with horses and it soon becomes obvious that Roy takes after his brother when he breaks in the wild pony Lady Luck. But Joe also has a way with fire, a secret passion that Roy fears, because if Joe can't keep control, it could send their new life up in smoke. "Rodman Philbrick's gripping story reads like John Steinbeck." - Sunday Times

This timely, moving debut novel follows a teen's efforts to keep his family together as his parents face deportation. Mateo Garcia and his younger sister, Sophie, have been taught to fear one word for as long as they can remember: deportation. Over the past few years, however, the fear that their undocumented immigrant parents could be sent back to Mexico started to fade. Ma and Pa

have been in the United States for so long, they have American-born children, and they're hard workers and good neighbors. When Mateo returns from school one day to find that his parents have been taken by ICE, he realizes that his family's worst nightmare has become a reality. With his parents' fate and his own future hanging in the balance, Mateo must figure out who he is and what he is capable of, even as he's forced to question what it means to be an American. Daniel Aleman's *Indivisible* is a remarkable story—both powerful in its explorations of immigration in America and deeply intimate in its portrait of a teen boy driven by his fierce, protective love for his parents and his sister.

Unique Revelation or Just Ancient Literature?

**Mantle or Mays? A-Rod or Jeter? Biggio or Morgan? Clemens, Maddux, and Randy Johnson -- or Pedro, Palmer, and Carlton? These are questions baseball fans can spend endless hours debating. Former All-Star pitcher and National League Manager of the Year Larry Dierker has his own opinions, and he shares them in *My Team*, his fascinating discussion of the greatest players he has seen in his four decades in the major leagues. Dierker selects twenty-five players for *My Team* and another**

twenty-five for the opposition, the Underdogs, or "Dogs." There are two players at each position, five starting pitchers, and four relievers. (When your starters are the likes of Roger Clemens, Greg Maddux, Bob Gibson, Tom Seaver, Nolan Ryan, and Juan Marichal, you don't worry about bullpen depth.) All are players that Dierker has played with or against or watched in his years as player, coach, manager, and commentator. Each athlete must have played at least ten years in the major leagues to qualify, and players are judged on their ten best seasons. Leadership skills and personality -- critical components of team chemistry -- are highly valued. So how is it possible to select two teams composed of outstanding ballplayers from the past forty years and not have room for Sandy Koufax, Reggie Jackson, Carl Yastrzemski, or Cal Ripken Jr.? Dierker explains his choices, analyzing each position carefully, always putting the team ahead of the individual player. He provides statistics to back up his selections, and often relates personal anecdotes about the players. (From his first All-Star Game in 1969, Dierker offers a wonderful anecdote about Hank Aaron, by then an All-Star veteran.) My Team may start more debates than it settles, but Dierker's insights, and his passion for the game, will enlighten and fascinate true baseball fans.
