

Mayan Calendar Birthday Book

THE END OF WHAT WAS . . . The most significant events in Earth's history are happening NOW! This is the final book in the Shining the Light series that exposes the malevolent, controlling and manipulating actions of the Sinister Secret Government as they attempt to keep humans from accessing our soul and spiritual functions and ascending into the fourth dimension and beyond. In future books, mentors of humanity will continue to expose the SSG's nefarious dealings, but they will give us step-by-step instructions in the ancient and lost arts of benevolent magic "spiritual wizardry" enabling us as creators in training to blend our hearts, minds and souls to become creators of our own destiny and thwart the SSG's goals.

New Book Bridges Ancient Wisdom with Modern Technology! The ancient wisdom ascribed is found behind the creation of a 500-year-old artifact, the Aztec Calendar. To the Natives it was Teoilhuicatl Apaluaztli Ollin Tonal Machiotl meaning the Great and Venerable Mechanism of the Universe. Dr. Randall C. Jimenez, a former San Jose State University educator, and Richard B. Graeber, an engineering documentation specialist, have collaborated to create the first Technical Manual for the Aztec Calendar ever produced. [Note: The Aztec name was given to the Mechican Indians (ch as in chevron; sometimes spelled Mexican) by the writer W. H. Prescott in the early 19th century.] The Aztec Calendar Handbook, involving thousands of man-hours of effort to create, takes a blueprint style approach to a Historical Reference primer. Illustrated with over 150 technical drawings showing enlargement details, cut-away views, and computer-generated art, this new guidebook has been called the "ultimate" Aztec Calendar reference treatise. Distilled from over 240 sources and quoting direct eyewitnesses from the 1500's, it further includes a glossary of over 230 native words. This attractive book is made with parchment paper and has a leather-grained cover, making it resemble an ancient manuscript. The research for writing the Aztec Calendar Handbook was assisted by custom software to convert Native date designators into our modern calendar dating system. In this way, a researcher is able to convert and track the dates of events from surviving native history books, known as codices. Mountains of information could be processed more efficiently and accurately when correlating indigenous dates. Inversely, a Julian date can also be converted into the Mayan long-count system. It is then possible for the Mechican calendar-labeling scheme to be transposed over the count to generate a person's Aztec tonallo or spiritual name from their birth date. According to Native tradition, our current long-count cycle will be complete on the winter solstice 2012. A long-count cycle, credited to the Olmec/-Maya, is 5125 years and started in the year 3113BC. No one is really sure what will happen when the cycle ends, but the material in this book offers a solid foundation for figuring it out. By looking at myths, legends & history with an Aztec's perception of God, this new Manual provides needed answers to some important questions. Would you like to know about how and when the Maya influenced the design of the Aztec Calendar? Have you ever seen the Hopi version of the Plumed Serpent? Would you like to put the last 12,000 years into perspective? If so, then your library needs the Aztec Calendar Handbook. You will find yourself referring to it over and over again. No stone has been left unturned.

Here, Drunvalo Melchizedek presents in text and graphics the first half of the Flower of Life workshop, illuminating the mysteries of how we came to be, why the world is the way it is and the subtle energies that allow our awareness to blossom into its true beauty. Sacred Geometry is the form beneath our being and points to a divine order in our reality. We can follow that order from the invisible atom to the infinite stars, finding

ourselves at each step. The information here is one path, but between the lines and drawings lie the feminine gems of intuitive understanding. You may see them sparkle around some of these provocative ideas: Explore the miracle of our existence by meandering through the wonderland of geometry, science, ancient history and new discovery, seen through the widened vision of Drunvalo and the Flower of Life. Book IX of the multivolume series, The Easy-To-Read Encyclopedia of the Spiritual Path - Here at last is an indispensable book that has been urgently needed in these uncertain times. The book lays out, in an orderly and clear fashion, the guidelines for leadership in the world and in ones' own life. All the areas of our society and personal life that need discipline and leadership are pointed out. A firm foundation and guidance from a psychological and spiritual perspective are offered for change. The ascended masters are called upon for their wisdom and sometimes opinions on the matters ranging from the political arena to science and religion. This book serves as a reference manual for moral and spiritual living and also offers a vision of a world where strong love and the highest aspirations of humanity triumph.

The seventh day of Creation, Gods rest day, is the most misunderstood of all the creative days, primarily because the Bible says it hasnt ended yet. When it does, Thats it! Its over! The book lays the foundation for the never-ending day and the generation of the title The Final Anniversary of Sin. In establishing this foundation, the book reveals the biblical code for calculating the beginning, as well as the end, of the seventh day and why it is important. It breaks down the entire creation account of Genesis and ties this in with the start of the millennium in 2033 AD and the end of the seventh day on Nisan 14, 3033. 2033: The Final Anniversary of Sin should be an eye-opener on this whole topic, states Perry, and on the lives of many people who are unaware of what the Bible really says.

The knowledge and wisdom held with the Cholq'ij as a sacred calendar is very deep, so the information I present within these pages is simply a starting point for all those who want to begin their journey within this wisdom. Although the format of this book may be seen as a daily calendar (and can be used as such), my purpose in creating it this way is to accompany you on an inner journey. It is a way which allows you to begin to relate to, and understand the 20 energies making up the Cholq'ij; to begin to understand the Mayan signs themselves - a way which helps you to understand how those 20 energies relate to and influence us, in a very personal way. In the first pages you will find some theoretical information regarding the Sacred Calendar, the 20 energies which make it up, and an explanation of the importance of knowing your Mayan Sign. In this way you can begin to become familiar with the concepts of each of the different energetic vibrations manifesting within our universe, and the beautiful dance of transformation it brings to us. Within this book is a day by day guide for the whole year of 2019 on the Gregorian Calendar, combined with the messages of the Cholq'ij. On each date you will see a different quote related to the energy of that day, and how to connect, meditate, or act in harmony with the natural, universal vibration manifesting that day. You will have a space to make small notes about the main emotions, sensations, and events that you face each day. Making notes will help allow you to gain a better idea about your physical and emotional states, the way your relationships are going, messages you are receiving in your dreams, or situations which may seem out of the ordinary. This may expand into meeting someone from your past, the birth or death of a loved one, messages coming from nature, magical manifestations, or when an opportunity suddenly arises. This book is here as an effective guide; one where you can begin to relate to the energies of the Cholq'ij. Little by little, everything will begin to become clarified, and you will come to understand which days are beneficial to you for certain activities and which days are not. From my heart to yours, I hope that the words contained here will become a constant support for the greatest adventure you may ever take; The journey of knowing yourself, and understanding the constant natural movement of energy in which we all live in, and to begin dancing within its natural rhythms.

The accounts given by extraterrestrials in this volume are about events that occurred in our solar system many millions of years ago. In that ancient time the solar system consisted of four planets and four "radiar

systems" that orbited the central sun. The four planets of the solar system are known today as Venus, Earth, Mars and a now-totally shattered world that was called Maldec. The term "radiar" applies to the astronomical bodies we presently call Jupiter, Saturn, Uranus and Neptune. The original satellites of these radiars are generally called moons by Earth astronomers, but the extraterrestrials prefer to call them planetoids. This book reflects the personal views of a number of different types of extraterrestrials regarding the state of the local solar system and the state of the Earth.

The breaking of the Maya code has completely changed our knowledge of this ancient civilization, and has revealed the Maya people's long and vivid history. Decipherment of Maya hieroglyphic writing has progressed to the point where most Maya written texts—whether inscribed on monuments, written in the codices, or painted or incised on ceramics—can now be read with confidence. In this practical guide, first published in 2001, Michael D. Coe, the noted Mayanist, and Mark Van Stone, an accomplished calligrapher, have made the difficult, often mysterious script accessible to the nonspecialist. They decipher real Maya texts, and the transcriptions include a picture of the glyph, the pronunciation, the Maya words in Roman type, and the translation into English. For the second edition, the authors have taken the latest research and breakthroughs into account, adding glyphs, updating captions, and reinterpreting or expanding upon earlier decipherments. After an introductory discussion of Maya culture and history and the nature of the Maya script, the authors introduce the glyphs in a series of chapters that elaborate on topics such as the intricate calendar, warfare, royal lives and rituals, politics, dynastic names, ceramics, relationships, and the supernatural world. The book includes illustrations of historic texts, a syllabary, a lexicon, and translation exercises.

In Day-Signs readers will find the first psychological delineations of the 20 signs of Aztec/Maya astrology ever published. Included in the book is a clear explanation of the Aztec/Mayan system of astrology and what academic researchers and the indigenous peoples of Mexico know about it. Following this are delineations of the 20 signs, including a list of famous people born under each one. Everyone is influenced by one of these 20 signs that form the cornerstone of Aztec/Maya astrology. The book ends with 30 pages of tables for determining your day-sign of birth. Humanscreators in traininghave a purpose and destiny so heartwarmingly, profoundly glorious that it is almost unbelievable from our present dimensional perspective. Humans are great lightbeings from beyond this creation, gaining experience in dense physicality by slowing down the creative process in order to feel the results and consequences of their decisions and actions. This truth about the

great human genetic experiment of the Explorer Race and the mechanics of creation is being revealed for the first time by Zoosh and his friends as humanity begins to awaken to its true nature. Zoosh and a great assortment of beings who have never spoken to the physical plane before from particles to All That Isspeak vibrantly through superchannel Robert Shapiro. Each personality has its own knowing, perception and expertise as it shares its history, its present focus and the awesome truth about humanity's mission. The books read like adventure stories as we follow the clues from this creation we live in out to the Council of Creators and beyond. As we explore the greater reality beyond our planet, our galaxy, our dimension, our creation, we meet prototypes, designers, shapemakers, creators, creators of creators and friends of our Creator, who explain their roles in this creation and their experiences before and beyond this creation. As our awareness expands about the way creation works, our awareness of who we are expands and we realize that a part of ourselves is in that vast creation and that we are much greater and more magnificent than even science fiction had led us to believe. Join us in the adventure of discovery. It's mind-stretching.

Does the end of the Mayan Calendar start the countdown to Judgment Day? Biblical and historical researcher David Montaigne concludes that this is the case. He says that the end of the Mayan Long Count is the official start of the Bible's seven-year tribulation—both were focused on the same astronomical events that occur from 2012 to 2019. The world as we know it will be gone by 2020. Texts from ancient India tell us about great cycles of destruction. The Egyptians told the same basic story with different names. The Maya reveal another version of the story, and were very clear about the timing of events from December 2012 to 2019. Your average American is no expert on these cultures, but most people do have a Bible at home—and the clearest details on what is about to happen can be found in the Bible, if you don't let someone else tell you which parts you should focus on. No, this isn't what you were taught in Sunday school. Religious leaders guide us between the raindrops of curious comments in the Bible. We are discouraged from focusing on the parts they say we weren't meant to understand. But if we stop glossing over these important passages we will understand a flood of details about the End Times. Our “leaders” are not ignorant of these events. The elite already know what is about to happen and they have made preparations most rational people would not believe, because evidence is suppressed to avoid chaos. They want us to remain ignorant, or at least to believe that the details are secrets that cannot be known. But the coming events (and their timing) are not secrets. Years ago, this book's publication would not have been tolerated by those in power. But by now it doesn't matter much—their plans are not going to be interfered with at this point. Your plans, however, can still be formulated, if you make the choice to understand. Topics include: Bible Prophecy; Matthew 24:36—Knowing the hour and the day; The Mayan Calendar and Mythology; Pole Shifts; Galactic Superwaves; Ancient Egypt; Ancient India; World Mythology; The Georgia Guidestones; The real Star of Bethlehem and the

exact birthday of Christ; Calculating the Second Coming, and Judgment Day; more.

In this exhilarating celebration of human ingenuity and perseverance—published all around the world—a trailblazing Italian scholar sifts through our cultural and social behavior in search of the origins of our greatest invention: writing. The L where a tabletop meets the legs, the T between double doors, the D of an armchair's oval backrest—all around us is an alphabet in things. But how did these shapes make it onto the page, never mind form complex structures such as this sentence? In *The Greatest Invention*, Silvia Ferrara takes a profound look at how—and how many times—human beings have managed to produce the miracle of written language, traveling back and forth in time and all across the globe to Mesopotamia, Crete, China, Egypt, Central America, Easter Island, and beyond. With Ferrara as our guide, we examine the enigmas of undeciphered scripts, including famous cases like the Phaistos Disk and the Voynich Manuscript; we touch the knotted, colored strings of the Inca quipu; we study the turtle shells and ox scapulae that bear the earliest Chinese inscriptions; we watch in awe as Sequoyah single-handedly invents a script for the Cherokee language; and we venture to the cutting edge of decipherment, in which high-powered laser scanners bring tears to an engineer's eye. A code-cracking tour around the globe, *The Greatest Invention* chronicles a previously uncharted journey, one filled with past flashes of brilliance, present-day scientific research, and a faint, fleeting glimpse of writing's future.

A contemporary and practical guide to Mayan astrological techniques • Discusses the logic and meaning of the 20 day-signs of the Mayan calendar • Explains the many cycles of Mayan astrology, such as the 9-day cycle of the Night Lords and the 13-day trecena • Contains extensive tables of Mayan astrological data, allowing readers to cast their own Mayan horoscopes How to Practice Mayan Astrology presents a contemporary guide to one of the most sophisticated astrological systems ever developed. Like other ancient peoples, the Maya looked to the cycles of the planets as markers of time and designators of order. The predictable cycles they observed became codified in the Mayan calendar and astrological system as a way of organizing the seeming chaos of human life. Mayan astrology is based on 20 named days that are cycled 13 times to create a 260-day calendar, the Tzolkin. The authors explain the symbolism, logic, and meaning of the 20 day-signs; how these signs reflect 260 possible personality types; and how they can be used for divination. They also explain the important role of the Four Directions and the planet Venus in one's personality matrix and life issues. Included are extensive, easy-to-use tables of Mayan astrological data, allowing readers to determine their day-signs, to see how these signs are also influenced by the cycle of the Night Lords and the 13-day trecena, and to cast their own horoscopes.

REVIEWS: "I am profoundly grateful to Kenneth Johnson for sharing his experientially based understanding of the Tzolk'in in this remarkable book. As a long-time lover of the Mayan world, 'Mayan Calendar Astrology' finally opened my eyes to the subtle workings of the 260-day calendar and led me to embrace it as a genuine path to self-understanding. The author's work is based upon his years of work with several aj q'ijab' in the Guatemalan highlands, primarily in Momostenango, the important center for contemporary Mayan calendar knowledge. Johnson's explanations of the significance of the 13 numbers, the Mayan Destiny chart, the Year Lords, and the Path of Feathered Serpent are unique in popular literature and will enrich the understanding of even dedicated scholars." - Robert Sitler, PhD, Director, Latin American Studies, Stetson University

"Never before has anyone focused so successfully on the literary genius of these ancient authors. Tedlock is so much more than a translator, placing selected Mayan works in a continuous narrative that skillfully links authors from the third century to the sixteenth century with writers of today. An extremely important, original, and innovative work."—Martha J. Macri, coauthor of *The New Catalog of Maya Hieroglyphs, Volumes 1 and 2*, and Director of the Maya Hieroglyphic Database Project, University of California, Davis "A stunning recreation of the intellectual world of the ancient Maya, the only fully literate people of pre-Columbian America. Informed by the latest research on Maya hieroglyphic writing, art, and mythology, this beautifully illustrated and wonderfully readable work by an outstanding scholar should be on the bookshelf of all those interested in this fascinating civilization."—Michael Coe, author of *Breaking the Maya Code* "This book is, like the ancient Maya texts and images it explores, a work of art."—David Freidel, co-author (with Linda Schele and Joy Parker) of *Maya Cosmos: Three Thousand Years on the Shaman's Path* "Literally breathtaking. A truly unprecedented gathering and translation of written Mayan texts. The book of runes for questioning, doing magic and gaining self-knowledge

You've noticed lately -- haven't you? -- that for the past few years, UFOs and phenomena in the skies are all over the place. Well, hold on to your hats! You can be pretty sure this is only going to increase in its frequency in the skies. In this book, you'll be able to read a little bit about who the beings in the UFOs are, where they're from, why they're here, and so on. In the future, it won't just be airplane pilots reporting on these things. You'll be talking about it among yourselves because regular folks just like you will be seeing these ships. This time, don't keep it quiet. Just talk about it with your neighbors or your friends online. It gives other people permission to believe what they saw. People have been taught, you know, not to believe what they see. So you can believe it -- it's real.

Since the publication of *Numerology for the New Age*, Lynn has come into national and

international prominence. His combination of psychotherapeutic insight and esoteric knowledge have caused many to consider him the foremost world spokesman on the relationship between numbers and human behavior. In this volume, he turns his attention toward the age-old issue of relationships. With clear and direct style, he identifies the archetypal patterns of each numerical combination. By providing clues to conscious and unconscious issues, Lynn gives the reader choices of behavior in relationships. With choice comes the possibility of recognizing and releasing patterns of victimhood, abuse, and dysfunction, allowing for growth, joy, fulfillment, and compatible sharing between partners.
