This book analyzes Africa's unprecedented economic growth, the state of its financial sector, and the varied opportunities for Islamic finance investors. It considers the role - potential and realized - of Islamic finance in fostering financial inclusion in areas such as banking, microfinance, capital market development, insurance, and private equity business. The book stresses that investing in Africa through Islamic finance will open new markets, ensure higher profit margins, diversify risk, and create business competition; and that these changes that will provide financial products that can satisfying the desires and beliefs of all consumers and unlock the real potential of the continent's financial system. The book also looks into the rise of international interest in Africa and concludes by scrutinizing the challenges impeding further economic growth, as well as the specific barriers that need to be addressed in order to promote the implementation of Islamic finance. Investors, policymakers, and academics ready to confront these challenges will find much of value in this book.

This book presents a case study on the city of Yangzhou in China from 1853 to 1928. During this time, the local society of Yangzhou experienced profound changes towards modernization, when the nation-state of China gradually took shape at the local level. "Yangzhou under the Qing" was transformed into "Yangzhou under modern China" between the Protestant missions and the multiple actors in the local society kept generating new local context and giving special input to the shaping of modernity in the local society. This study analyses the changing situations of the local society as well as the role of Protestant Church as part of the local social fabric, and tries to achieve a new perspective on how modern China developed out of armed conflicts, power-play, and cooperations among different actors in the local society.

When asked, "Where is Murray Bay?" US President Taft always replied, "Murray Bay is a state of mind." For over two hundred years the Charlevoix region has played host to some of the world's most famous and adventurous travellers. Considered the "Newport" of Canada, Charlevoix has been a meeting place for rural French Canadians and urban English-speaking visitors.

The most authoritative account of a pivotal event in legal and cultural history: the trials of Oscar Wilde on charges of “gross indecency” Among the most infamous prosecutions of a literary figure in history, the two trials of Oscar Wilde for committing acts of “gross indecency” occurred at the height of his fame. After being found guilty, Wilde spent two years in prison, emerged bankrupt, and died in a cheap hotel room in Paris a few years after his release. The trials prompted a new intolerance toward homosexuality: habits of male bonding that were previously seen as innocent were now viewed as a threat, and an association grew in the public mind between gay men and the arts. Oscar Wilde on Trial assembles accounts from a variety of sources, including official and private letters, newspaper accounts, and previously published (but very incomplete) transcripts, to provide the most accurate and authoritative account to date of events that were pivotal in both legal and cultural history.

An engaging and original account of 1921, a pivotal year for Churchill that had a lasting impact on his political and personal legacy “Important . . . Its power lies in a vivid re-creation not only of Churchill's public roles but also his private life—of good fortune but also family tragedy.”—Paul Bew, Wall Street Journal After the tragic consequences of his involvement in the catastrophic Dardanelles Campaign of World War I, Churchill's political career seemed over. He was widely regarded as little more than a bombastic and unpredictable buccaneer until, in 1921, an unexpected inheritance heralded a series of events that laid the foundations for his future success. Renowned Churchill scholar David Stafford delves into the statesman's life in 1921, the year in which his political career revived. From his political negotiations in the Anglo-Irish treaty that created the Irish Free State to his tumultuous relationship with his "wild cousin" Clare Sheridan, sculptor of Lenin and subject of an MI5 investigation, this broad account explores the nuances of Churchill's private and public lives. This is an engaging portrait of this overlooked yet pivotal year in the great man's life.

The definitive social history of London in the Blitz, which transformed life in the capital beyond recognition. For Londoners the six long years of the Second World War were a time of almost constant anxiety, disruption, deprivation and sacrifice. The Blitz began in earnest in September 1940 and from then on, for prolonged periods, London was under sustained aerial bombardment by night and by day. Throughout the war, the capital was the nation's front line; by its end, 30,000 Londoners had lost their lives. Yet if the bombing defined the era for those who lived through it, the months of terror were outnumbered by those spent knitting together the fabric of daily life at work, in the home, on the allotment, in the cinema or theatre and, not least, standing in those interminable queues for daily necessities that were such a feature of London's war. Much has been written about 'the Myth of the Blitz' but in this riveting social history, Jerry White has unearthed what actually happened during those tempestuous years, getting close up to the daily lives of ordinary people, telling the story through their own voices. At the end of it all, the Battle of London was won not on the playing fields of Eton but in the playgrounds of a thousand council elementary schools across the capital.

Authoritative and readable, this excellent text, illustrated by a unique pictorial record of period architecture, surveys and examines how and why the architecture of pleasure related to the stylistic and ideological concerns of modernism in 1930s Britain. Responding to the current interest in modernism and packed with a substantial archive of high quality photographs and other documentation, it relates the professional, entrepreneurial and institutional infrastructures affecting the pleasure industry's architectural development and appearance in 1930s. A broad range of building through which the general public first experienced Modernism are covered, including: commercial – holiday camps, cinemas and greyhound racing stadia municipal and governmental projects – zoos, seaside pavilions, concert halls, and imperial and international exhibitions.

Arguing that the responses to modernism through the architecture of pleasure were conditioned by wider debates about the role of design in relation to high and mass culture, this book is an ideal resource for all those interested in architectural history and design in Britain between the wars.
