Dois outros resultados foram também demonstrados- 1) para toda fórmula da linguagem de $Q1$, essa fórmula é válida em $Q1$ se e

somente se é um teorema de S; e 2) para toda fórmula em Q_2 , há uma outra fórmula em Q_1 tal que a primeira é Q_2 -válida sse a última é Q_1 -válida. Em nosso trabalho, apresentamos um estudo detalhado dos

sistemas Q1 e Q2, na primeira parte; na segunda parte, um novo sistema de Gentzen, chamado QG1, que trabalha com sequentes, e resulta de algumas modificações no sistema LK, de Gentzen. Por fim, na terceira parte,

provamos que o sistema QG1 é equivalente ao sistema S.

This book
examines
translanguaging
in higher
education and

File Type PDF

Mazak T2

provides clear examples of what translanguaging looks like in practice in particular contexts around the world.

While higher education has historically been seen as a

monolingual
space, the case
studies from
the
international
contexts
included in
this collection
show us that
institutions of
higher
education are
often

translingual spaces that reflect the multilingual environments in which they exist. Chapters demonstrate how the use of translanguaging practices within the context of

global higher
education,
where English
plays an
increasingly
important role,
allows students
and professors
to build on
their
