*This book is a collection of blogs and reviews published on the net on various popular websites. These essays function more like opinion essays dissecting the very nature of being, becoming, withdrawal and the attainment of perfection. The movie and book reviews don't touch upon the technicalities of movie-making, but they deal with an idea, thought, feeling or conflict the book or movie may have evoked in me. The book is divided into 2 parts. In the first part I have compiled my collected blogs, and in the second half, you get to read reviews of books and movies that I have watched and read. This non-fiction book tries to mock at tradition, and is subversive in its attempt to educate. I hope to prod the discreet reader and provoke strong reactions and emotions for all the touchy issues that I have written about.*

TARGET MH-CET (MBA / MMS) 2022 - Past Papers (2007 - 2021) +  
5 Mock Tests 13th Edition

In recent decades, digital technologies have permeated daily routines, whether at school, at work, or during personal engagements. Stakeholders in education are promoting innovative pedagogical practices, the business sector is utilizing updated processes. Even the public is improving their lifestyles by utilizing innovative technology. In a knowledge construction setting, technology became a tool to assist the user to access information, communicate information, and collaborate with others towards human development and knowledge management. In this context, ubiquitous computing emerged to support humans in their daily life activities in a personal, unattended, and remote manner. Ubiquitous Technologies for Human Development and Knowledge Management serves as an authoritative reference source for the latest scholarly research on the widespread incorporation of technological innovations around the globe. It examines how the application of ubiquitous computing technologies affects various aspects of human lives, specifically in human development and knowledge management. The chapters demonstrate how these ubiquitous technologies, networked
