Pratiyogita Darpan

The Indian state till recently denied information about its functioning and decision-making to its citizens, ironically, using laws made during the colonial period. Apart from being an anomaly in a democratic set-up, it created an adverse impact on the quality of governance, accountability, and transparency. It was only in 2005, after a prolonged freedom of information movement, that this situation was finally rectified. The government enacted the landmark Right to Information Act 2005, and gave to all its citizens the right to access information held by or under the control of public authorities. This Handbook is meant to serve as a practical guide to the implementation of the Act. The book begins by locating the Act in the context of a global movement for freedom of information (FOI), and discusses the efforts made by international bodies for adoption of FOI. It also presents a detailed comparative study of FOI in five countries—the US, the UK, Canada, South Africa, and India. In subsequent chapters, the book adopting a step-by-step approach, discusses the provisions of the Right to Information Act, how citizens should make use of the right to information, the comprehensive guidelines for public authorities and their obligations under the Act, which includes relevant central information commission decisions, the role of the public information officers (PIO), who are to be appointed as per the provisions in the Act by all public authorities, the exemptions allowed under the Act, and, finally, the appellate authorities to whom a citizen can appeal in case of unsatisfactory response by the PIO.

The ultimate aim of any teaching system is to produce the best scholars & the best professionals in the today's scenario with futuristic approach so that when given a chance they must be able to exhibit their past knowledge. To verify or quantify this knowledge the student/scholar has to undergo certain exam. Nowadays the best exams are supposed to be those having Multiple Choice Questions i.e. MCQ's as integral part because of two important reasons, First easy to conduct & uniform evaluation for all students, that is no bias, Second MCQ's checks memory/recall memory/reasoning & ability to be precise in terms of reading /understanding and speed with ability to record answers with accuracy too. The book on this subject "Exam Success Review ANATOMY MCQ's- Volume-4, Embryology & Histology for Medical Students - MBBS 1st Prof & PG Entrance" will be helpful as a companion for fast revision during examination and will help them certainly to secure full marks in the Multiple Choice Questions in examination. I must let you know that MCQ's make about 20% to 40% of total marks in the 1st prof. MBBS exam and anybody who knows the con-cepts and art to answer the MCQ's is going to be winner not only at MBBS level but also at various Postgraduate entrance Examinations at national & state level to get the PG Course of their choices.

**Choosing the right career is critical to success in one's life. Overload of information on Internet only serves to confuse an already confused mind. This book provides information about jobs and educational openings for 10+2, graduates and post graduates in technical, professional, science, commerce and arts faculty.**

**Questionnaire helps the students to gauge his interests, abilities, aptitudes and opportunities to facilitate proper selection of job or study.**

**In this book, four new sections have been added in this edition containing multiple choice questions (MCQs), problem oriented case studies, very short question with answer and Biochemistry course curriculum of different Universities. MCQ will definitely be useful to the students appearing for PG entrance examinations later. Problems relating to biochemical case studies have recently been introduced in question papers of many medical universities and in this context, these will be of immense help to the students for diagnostics analysis. In this new edition very recent questions have been incorporated, some short questions with answers and new case history are added. Guide line of Medical Council of India (MCI) for Biochemistry course curriculum is appended, so the students will be aware about the must know and desirable to know area in the subject. Through separate chapters have been earmarked for paper I & II in the courses of study of different Universities, sometimes the question setters do not strictly adhere to the instructions laid down in it, while setting questions. Although it happens occasionally the students have to bear this anomaly as there is no remedy for it.**

**The ultimate aim of any teaching system is to produce the best scholars & the best professionals in the today's scenario with futuristic approach so that when given a chance they must be able to exhibit their past knowledge. To verify or quantify this knowledge the student/scholar has to undergo certain exam.**
