

## McCoy Tyner Impressions Solo Transcription

The Jazzomat Research Project takes up the challenge of jazz research in the age of digitalisation. It intends to open up a new field of analytical exploration by providing computational tools as well as a comprehensive corpus of improvisations with MeloSpyGUI and the Weimar Jazz Database. This volume presents the main concepts and approaches of the ongoing project including several case studies that demonstrate how these approaches can be included in jazz analysis in various ways

This spirited volume explores the history and diversity of improvisation in the cinema, including works by Jean Renoir, Jean-Luc Godard, and Nobuhiko Suwa. Gilles Moullie examines improvisational practices that can be specifically attributed to the cinema and argues in favors of their powers as insigators of unprecedented forms of expression. Improvising Cinema reflects both on the permanence of attempting improvisation and the relationship between technology and aesthetics. Moullie concludes preservation becomes even more invaluable in the case of improvisation, as the creative act exists only within the brief time span of the performance.

Bheki Mseleku is widely considered one of the most accomplished jazz musicians to have emerged from South Africa. His music has a profound significance in recalling and giving emphasis to that aspect of the African American jazz tradition originating in the rhythms and melodies of Africa. The influences of Zulu traditional music, South African township, classical music and American jazz are clearly evident and combine to create an exquisite and particularly lyrical style, evoking a sense of purity and peace that embraces the spiritual healing quality central to his musical inspiration. The Aristry of Bheki Mseleku is an in-depth study of his musical style and includes annotated transcriptions and analysis of a selection of compositions and improvisations from his most acclaimed albums including 'Celebration', 'Timelessness', 'Star Seeding', 'Beauty of Sunrise' and 'Home at Last'. Mseleku recorded with several American jazz greats including Ravi Coltrane, Joe Henderson, Pharoah Sanders, Charlie Haden, Billy Higgins and Abbey Lincoln. His music serves as a vital link to the African-American musical art form that inspired many of the South African jazz legends.

(Jazz Transcriptions). The ultimate resource for studying the work of Miles Davis! 50 note-for-note E-flat instrument transcriptions of his recorded solos for: Airegin \* All Blues \* All of You \* Au Privave \* Bags' Groove \* Billie's Bounce (Bill's Bounce) \* Blue Haze \* Budo \* But Not for Me \* Bye Bye Blackbird \* Diane \* Dig \* Doxy \* E.S.P. \* Footprints \* Four \* Freddie Freeloader \* A Gal in Calico \* Green Haze \* I Waited for You \* I'll Remember April \* I'll Were a Bell \* I'll Were a Bell \* It Could Happen to You \* It's Only a Paper Moon \* Jeru \* K.C. The Autobiography of George Shearing

*The Giants of Jazz series is designed to provide a method for studying, analyzing, imitating and assimilating the idiosyncratic and general facets of the styles of various jazz giants. The Davis book provides many transcriptions, plus discography, biographical data, list of innovations, genealogy, bibliography and comments.*

*(Artist Transcriptions). In the late 1950s, John Coltrane composed or arranged a series of tunes that used chord progressions based on a series of key center movements by thirds, rather than the usual fourths and fifths of standard progressions. This sound is so aurally identifiable and has received so much attention from jazz musicians that it has become known as "Coltrane's Changes." This book presents an exploration of his changes by studying 13 of his arrangements, each containing Coltrane's unique harmonic formula. It includes complete solo transcriptions with extensive performance notes for each. Titles include: Body and Soul \* But Not for Me \* Central Park West \* Countdown \* Fifth House \* Giant Steps \* Summertime \* and more.*

*The Giants of Jazz series is designed to provide a method for studying, analyzing, imitating and assimilating the idiosyncratic and general facets of the styles of various jazz giants. The Jazz Style of John Coltrane provides many transcriptions, plus discography, biographical data, style traits, genealogy, and bibliography.*

*Presents the events of the jazz trumpeter, Lee Morgan's life not just as items of biography, but also as points of departure for historical investigations that aim to situate the musician and his contemporaries in changing aesthetic, social and economic contexts. This work draws on many original interviews with Morgan's colleagues and friends.*

(Jazz Transcriptions). This is the ultimate resource for studying the work of Oscar Peterson! Nearly 40 full piano transcriptions for the jazz piano master, including: All of Me \* Between the Devil and the Deep Blue Sea \* Falling in Love with Love \* Georgia on My Mind \* I Got It Bad and That Ain't Good \* If I Were a Bell \* In the Wee Small Hours of the Morning \* Love Is Here to Stay \* On Green Dolphin Street \* Sometimes I'm Happy \* The Song Is You \* Tangerine \* That Old Black Magic \* Whisper Not \* You Stepped Out of a Dream \* Yours Is My Heart Alone \* and many more. Includes a brief biography and foreword by transcriber Larry Dunlap.

"When bebop was new," writes Thomas Owens, "many jazz musicians and most of the jazz audience heard it as radical, chaotic, bewildering music." For a nation swinging to the smoothly orchestrated sounds of the big bands, this revolutionary movement of the 1940s must have seemed destined for a short life on the musical fringe. But today, Owens writes, bebop is nothing less than "the lingua franca of jazz, serving as the principal musical language of thousands of jazz musicians." In Bebop, Owens conducts us on an insightful, loving tour through the music, players, and recordings that changed American culture. Combining vivid portraits of bebop's gigantic personalities with deft musical analysis, he ranges from the early classics of modern jazz (starting with the 1943 Onyx Club performances of Dizzy Gillespie, Max Roach, Oscar Pettiford, Don Byas, and George Wallington) through the central role of Charlie Parker, to an instrument-by-instrument look at the key players and their innovations. Illustrating his discussion with numerous musical excerpts, Owens skillfully demonstrates why bebop was so revolutionary, with fascinating glimpses of the tempestuous jazz world: Thelonious Monk, for example, did "everything wrong" in the sense of traditional piano technique....Because his right elbow fanned outward away from his body, he often hit the keys at an angle rather than in parallel. Sometimes he hit a single key with more than one finger, and divided single-line melodies between two hands." In addition to his discussions of individual instruments and players, Owens examines ensembles, with their sometimes volatile collaborations in the Jazz Messengers, Benny Golson told of how his own mellow saxophone playing would get lost under Art Blakey's furious drumming: "He would do one of those famous four-bar drum rolls going into the next chorus, and I would completely disappear. He would holler over at me, 'Get up out of that hole!'" In this marvelous account, Owens comes right to the present day, with accounts of new musicians ranging from the Marsalis brothers to lesser-known masters like pianist Michel Petrucciani. Bebop is a jazz-lover's dream—a serious yet highly personal look at America's most distinctive music.

The new standard in jazz fake books since 1988. Endorsed by McCoy Tyner, Ron Carter, Dave Liebman, and many more. Evenly divided between standards, jazz classics and pop-fusion hits, this is the all-purpose book for jazz gigs, weddings, jam sessions, etc. Like all Sher Music fake books, it features composer-approved transcriptions, easy-to-read calligraphy, and many extras (sample bass lines, chord voicings, drum appendix, etc.) not found in conventional fake books.

Helping jazz musicians become better improvisers.

**(Artist Transcriptions).** Nicknamed "Pres" by Billie Holiday (short for President of the Tenor Sax), jazz giant Lester Young is considered to be one of the most important and influential saxophonists of all time. This great tribute folio transcribes 30 of his finest standards, together with a bio and discography. Includes: Blue Lester \* Cherokee \* Doggin' Around \* Honeysuckle Rose \* I Can't Get Started with You \* Indiana \* Jumpin' with Symphony Sid \* Lester Leaps In \* Oh, Lady Be Good! \* Sometimes I'm Happy \* These Foolish Things \* Twelfth Street Rag \* You Can Depend on Me \* more.

**Features** Thelonious Monk, McCoy Tyner, Count Basie, and John Coltrane.

An extraordinary collection of revealing, personal interviews with fourteen jazz music legends During his nearly forty years as a music journalist, Ralph J. Gleason recorded many in-depth interviews with some of the greatest jazz musicians of all time. These informal sessions, conducted mostly in Gleason's Berkeley, California, home, have never been transcribed and published in full until now. This remarkable volume, a must-read for any jazz fan, serious musician, or musicologist, reveals fascinating, little-known details about these gifted artists, their lives, their personas, and, of course, their music. Bill Evans discusses his battle with severe depression, while John Coltrane talks about McCoy Tyner's integral role in shaping the sound of the Coltrane quartet, praising the pianist enthusiastically. Included also are interviews with Dizzy Gillespie, Sonny Rollins, Quincy Jones, Jon Hendricks, and the immortal Duke Ellington, plus seven more of the most notable names in twentieth-century jazz.

Offering artist transcriptions for soprano and tenor saxophone, this book was authored by Wayne Shorter himself. Each transcription includes Shorter's own commentary on the writing, crafting, and performance of the music. Titles include: Adam's Apple \* Ana Maria \* Footprints \* The Last Silk Hat \* Lester Left Town \* Night Dreamer \* Speak No Evil \* Tom Thumb \* Water Babies and more.

Pianist George Shearing is that rare thing, a European jazz musician who became a household name in the US, as a result of the "Shearing sound"—the recordings of his historic late 1940s quintet. Together with his unique "locked hands" approach to playing the piano, Shearing's quintet with guitar and vibraphone in close harmony to his own playing revolutionized small group jazz, and ensured that after seven years as Melody Maker's top British pianist, he achieved even greater success in America. His compositions have been recorded by everyone from Sarah Vaughan to Miles Davis, and his best known pieces include "Lullaby of Birdland", "She" and "Conception". His story is all the more remarkable because Shearing was born blind. His candid reminiscences include a behind the scenes experience of New York's 52nd Street in its heyday, as well as memories of a vast roll-call of professional colleagues that includes all the great names in jazz.

Since its publication in 1947, great musicians and composers of all genres, from Arnold Schoenberg and Virgil Thomson to John Coltrane and Freddie Hubbard, have sworn by this legendary volume and its comprehensive vocabulary of melodic patterns for composition and improvisation. Think about this book as a melodic reference manual or plot wheel. Looking for new material to add to your playing instruction, improvisations, or composition? This book has more than you'll ever be able to use. Many serious musicians have a copy of this lying around somewhere.

As jazz enters its second century it is reassessing itself as dynamic and relevant. Boston Globe jazz writer and Emerson College professor Bill Beutler reveals new ways in which jazz is engaging with society through the vivid biographies and music of Jason Moran, Vijay Iyer, Rudresh Mahanthappa, The Bad Plus, Miguel Zen ó n, Anat Cohen, Robert Glasper, and Esperanza Spalding. These musicians are freely incorporating other genres of music into jazz—from classical (both western and Indian) to popular (hip-hop, R&B, rock, bluegrass, klezmer, Brazilian choro)—and other art forms as well (literature, film, photography, and other visual arts). This new generation of jazz is increasingly more international and is becoming more open to women as instrumentalists and bandleaders. Contemporary jazz is reassessing itself as a force for social change, prompted by developments such as the Black Lives Matter, #MeToo movements, and the election of Donald Trump.

Presents a collection of every interview given by the American jazz musician, along with excerpts from his own writings.

Space Is the Place

The Art of Skill

For All Instruments

*The BBC's Jazz Book of the Year for 2008. Few jazz musicians have had the lasting influence or attracted as much scholarly study as John Coltrane. Yet, despite dozens of books, hundreds of articles, and his own recorded legacy, the "facts" about Coltrane's life and work have never been definitely established. Well-known Coltrane biographer and jazz educator Lewis Porter has assembled an international team of scholars to write *The John Coltrane Reference*, an indispensable guide to the life and music of John Coltrane. *The John Coltrane Reference* features a day-by-day chronology, which extends from 1926-1967, detailing Coltrane's early years and every live performance given by Coltrane as either a sideman or leader, and a discography offering full session information from the first year of recordings, 1946, to the last, 1967. The appendices list every film and television appearance, as well as every recorded interview. Richly illustrated with over 250 album covers and photos from the collection of Yasuhiro Fujioka, *The John Coltrane Reference* will find a place in every major library supporting a jazz studies program, as well as John Coltrane enthusiasts.*

*A landmark in jazz studies. Thinking in Jazz reveals as never before how musicians, both individually and collectively, learn to improvise. Chronicling leading musicians from their first encounters with jazz to the development of a unique improvisatory voice, Paul Berliner documents the lifetime of preparation that lies behind the skilled improviser's every idea. The product of more than fifteen years of immersion in the jazz world, Thinking in Jazz combines participant observation with detailed musicalogical analysis, the author's experience as a jazz trumpeter, interpretations of published material by scholars and performers, and, above all, original data from interviews with more than fifty professional musicians: bassists George Duvivier and Rufus Reid; drummers Max Roach, Ronald Shannon Jackson, and Akira Tana; guitarists Emily Remler; pianists Tommy Flanagan and Barry Harris; saxophonists Lou Donaldson, Lee Konitz, and James Moody; trombonist Curtis Fuller; trumpeters Doc Cheatham, Art Farmer, Wynton Marsalis, and Red Rodney; vocalists Carmen Lundy and Vea Williams; and others. Together, the interviews provide insight into the production of jazz by great artists like Betty Carter, Miles Davis, Dizzy Gillespie, Coleman Hawkins, and Charlie Parker. Thinking in Jazz overflows with musical examples from the 1920s to the present, including original transcriptions (keyed to commercial recordings) of collective improvisations by Miles Davis's and John Coltrane's groups. These transcriptions provide additional insight into the structure and creativity of jazz improvisation and represent a remarkable resource for jazz musicians as well as students and educators. Berliner explores the alternative ways—aural, visual, kinetic, verbal, emotional, theoretical, associative—in which these performers conceptualize their music and describes the delicate interplay of soloist and ensemble in collective improvisation. Berliner's skillful integration of data concerning musical development, the rigorous practice and thought artists devote to jazz outside of performance, and the complexities of composing in the moment leads to a new understanding of jazz improvisation as a language, an aesthetic, and a tradition. This unprecedented journey to the heart of the jazz tradition will fascinate and enlighten musicians, musicologists, and jazz fans alike.*

*Chosen by many to be the most important jazz musician of our time, he was a composer, keyboardist, bandleader, philosopher, entrepreneur, poet, and self-proclaimed extraterrestrial from Saturn. He recorded over 200 albums with his Arkestra, which, dressed in Egyptian-space costumes, played everything from boogie-woogie and swing to fusion and free jazz. John Szwed's Space is the Place is the definitive biography of this musical polymath, who was one of the twentieth century's greatest avant-garde artists and intellectuals. Charting the whole of Sun Ra's life and career, Szwed outlines how after years in Chicago as a blues and swing band pianist, Sun Ra set out in the 1950s to impart his views about the galaxy, black people, and spiritual matters by performing music with the Arkestra that was as vital and innovative as it was mercuial and confounding. Szwed's readers—whether they are just discovering Sun Ra or are among the legion of poets, artists, intellectuals, and musicians who consider him a spiritual godfather—will find that, indeed, space is the place.*

*Describes how, after kicking off his notable career in Philadelphia at the age of fifteen and later playing in Dizzy Gillespie's orchestra, Morgan found great success in the mid-1960s with the recording of his celebrated record "Sidewinder" before being murdered at the age of thirty-four by his common-law wife. **(Jazz Instruction).** A one-of-a-kind book encompassing a wide scope of jazz topics, for beginners and pros of any instrument. A three-pronged approach was envisioned with the creation of this comprehensive resource: as an encyclopedia for ready reference, as a thorough methodology for the student, and as a workbook for the classroom, complete with ample exercises and conceptual discussion. Includes the basics of intervals, jazz harmony, scales and modes, ii V-I cadences, For harmony, it covers: harmonic analysis, piano voicings and voice leading; modulations and modal interchange, and reharmonization. For performance, it takes players through: jazz piano comping, jazz tune forms, arranging techniques, improvisation, traditional jazz fundamentals, practice techniques, and much more!

A three volume series that includes the scales, chords and modes necessary to play bebop music. A great introduction to a style that is most influential in today's music. The first volume includes scales, chords and modes most commonly used in bebop and other musical styles. The second volume covers the bebop language, patterns, formulas and other linking exercises necessary to play bebop music. A great introduction to a style that is most influential in today's music.

New York City has long been a generative nexus for the transnational Latin music scene. Currently, there is no other place in the Americas where such large numbers of people from throughout the Caribbean come together to make music. In this book, Benjamin Lapidus seeks to recognize all of those musicians under one mighty musical sound, especially those who have historically gone unnoticed. Based on archival research, oral histories, interviews, and musicological analysis, Lapidus examines how interethnic collaboration among musicians, composers, dancers, instrument builders, and music teachers in New York City set a standard for the study, creation, performance, and innovation of Latin music. Musicians specializing in Spanish Caribbean music in New York cultivated a sound that was grounded in tradition, including classical, jazz, and Spanish Caribbean folkloric music. For the first time, Lapidus studies this sound in detail and in its context. He offers a fresh understanding of how musicians made and formally transmitted Spanish Caribbean popular music in New York City from 1940 to 1990. Without diminishing the historical facts of segregation and racism the musicians experienced, Lapidus treats music as a unifying force. By giving recognition to those musicians who helped bridge the gap between culture and music, *Thinking in Jazz* recognizes the impact of entire ethnic groups who helped change music in New York. The study of these individual musicians through interviews and musical transcriptions helps to characterize the specific and identifiable New York City Latin music aesthetic that has come to be emulated internationally.

Reshaping Jazz in the 21st Century

Establishing the Mindset for Unleashing the Music Inside You

The New Grove Dictionary of Jazz, second edition will be the definitive resource for any serious lover & listener of jazz. This 3 volume hardcover second edition builds upon the impressive foundation laid by its predecessor in 1988 to become the most comprehensive jazz reference work ever published. Editor Barry Kernfeld, a well-known jazz authority & scholar, has brought together the world's leading experts in jazz, ensuring the accuracy, breadth, & depth expected from Grove's.

(Jazz Transcriptions). Nearly 50 of Julian "Cannonball" Adderley's recorded solos transcribed exactly for E-flat instruments, including: Blue Funk \* Cannonball \* Easy to Love (You'd Be So Easy to Love) \* Fiddler on the Roof \* I Remember You \* Love for Sale \* Milestones \* Oleo \* On Green Dolphin Street \* People Will Say We're in Love \* So What \* Somethin' Else \* Stardust \* Straight No Chaser \* Things Are Getting Better \* What Is This Thing Called Love? \* Who Cares? (So Long As You Care for Me) \* You Got It \* and many more.

(Transcribed). 15 transcriptions of this sax player's best, including: A Change of Heart \* Hideaway \* Rain on Christmas \* Straight to the Heart \* and more.

Voted second on Modern Drummer's list of 25 Greatest Drum Books in 1993, *Progressive Steps to Syncopation for the Modern Drummer* is one of the most versatile and practical works ever written for drums. Created exclusively to address syncopation, it has earned its place as a standard tool for teaching beginning drummers syncopation and strengthening reading skills. This book includes many accented eighths, dotted eighths and sixteenths, eighth-note triplets and sixteenth notes for extended solos. In addition, teachers can develop many of their own examples from it.

Bulletin of Bibliography

A text for courses in jazz appreciation, focusing on American instrumental jazz and emphasizing descriptions of jazz styles rather than a decade-by-decade chronicle. Contains chapter summaries, bandw photos, a chronology, guides to jazz albums and videos, and separate appendices on elements of music for musicians and nonmusicians. In this sixth edition chapters begin on the same page numbers as the fifth. Music cassettes/CD-ROMs are available. For high school through college students with no previous knowledge of music. Annotation copyrighted by Book News, Inc., Portland, OR.

Dave Liebman is one of the leading forces in contemporary jazz. Prominently known for performing with Miles Davis and Elvin Jones, he has exerted considerable influence as a saxophonist, bandleader, composer, author, and educator. In What It Is: The Life of a Jazz Artist, friend, pianist, and noted jazz scholar Lewis Porter conducts a series of in-depth interviews with Liebman, who discusses his professional, personal, and musical relationships with notable musicians, as well as such personal matters as contracting polio as a child. Featuring rare photos from Liebman's personal collection, this fascinating and witty story will not only appeal to jazz fans and scholars but also to those readers interested in the story of how a young man followed his dream to become one of the leading jazz artists of our time.

Discover the music of renowned jazz artist Joshua Redman with this book of transcribed solos. Trent Kynaston has meticulously captured on paper all the magic of today's leading young jazz tenor saxophonist. The book includes a biography, discography, and an analysis of each solo. This great new folio will give insight into the style of Joshua Redman, and is an invaluable addition to any jazz musician's library.

Progressive Steps to Syncopation for the Modern Drummer

In his tragically short life (1928-1964), Eric Dolphy was a titanic force in the development of the sixties avant-garde (or "new thing") from the hard pop of the late fifties. The searing intensity and sonic exploration of his work on alto sax, clarinets, and flute derived in part from the concurrent innovations of Coltrane, Mingus, Ornette Coleman, Cecil Taylor, and Andrew Hill, among others; previous jazz styles such as New Orleans and bop; various non-Western musics; and modern classical music (e.g., Varese). Dolphy pioneered extended solo jazz compositions, was prominent in the "third stream" movement (led by John Lewis and Gunther Schuller), and remains a major influence on musicians today for the personal, speech-like inflections of his playing. Jazz scholars Simosko and Tepperman examine every aspect of this stunning musical achievement from Dolphy's early big band work and association with Chico Hamilton to his own last groups in Europe, emphasizing the rich legacy of his recordings. Now completely updated to include the most recent discoveries concerning his life and recordings, this book will long stand as the definitive treatment of Eric Dolphy's music.
