Creating Value in a Dynamic Business Environment

Copley's Essentials of Accounting for Governmental and Not-for-Profit Organizations, 11e is best suited for those professors whose objective is to provide more concise coverage than what is available in larger texts. The main focus of this text is on the preparation of external financial statements which is a challenge for governmental reporting. The approach in this edition is similar to that used in practice. Specifically, day to day events are recorded at the fund level using the basis of accounting for fund financial statements. Governmental activities are recorded using the modified accrual basis. The fund-basis statements are then used as input in the preparation of government-wide statements. The preparation of government-wide statements is presented in an Excel worksheet. This approach has two advantages: (1) it is the approach most commonly applied in practice, and (2) it is an approach familiar to students who have studied the process of consolidation in their advanced accounting classes. State and local government reporting is illustrated using an ongoing example integrated throughout Chapters 3 through 8 and 13. This edition incorporates all of the FASB, GASB, GAO and AICPA pronouncements passed since the last edition.

Garrison - Your guide through the challenging waters of managerial accounting. For centuries, the lighthouse has stood as a beacon of guidance for mariners at sea. More than an aid to navigation, the lighthouse symbolizes safety, permanence, reliability, and the comforts of the familiar. For this reason, we have chosen to illustrate the Canadian eighth edition of Managerial Accounting by Garrison, Chesley, Carroll and Webb with an image that encapsulates the greatest strengths of this market leading text. Garrison is your guide through the challenging waters of managerial accounting. It identifies the three functions managers must perform within their organizations—plan operations, control activities, and make decisions—and explains what accounting information is necessary for these functions, how to collect it, and how to interpret it. Managerial Accounting 8ce focuses, now as in the past, on three qualities: Relevance, Balance and Clarity. The authors' steady focus on these core elements has led to tremendous results! As seafarers look to the lighthouse for direction along unfamiliar shore, so too can Garrison act as a compass for students seeking to master this course.
