Maps can show you where you are anywhere in the world! A beloved bestseller that helps children discover their place on the planet, now refreshed with new art from Qin Leng. Where are you? Where is your room? Where is your home? Where is your town? This playful introduction to maps shows children how easy it is to find where they live and how they fit in to the larger world. Filled with fun and adorable new illustrations by Qin Leng, this repackage of Me on the Map will show readers how easy it is to find the places they know and love with help from a map.

From Babylonian tablets to Google Maps, the world has evolved rapidly, along with the ways in which we see it. In this time, cartography has not only kept pace with these changes, but has often driven them. In this beautiful book, over 70 maps give a visual representation of the history of the world.

Ushaya Landau, sixty-four and recently retired from Trends & Styles magazine company, is looking forward to finally having time to visit her kids, see friends, and relish her gardens...until she is visited by a host of alien titans from the world of Lazantis. These creatures give her the ability to gift others with superpowers—and change her life forever. Armed with her new ability and the responsibility that comes with it, Ushaya decides to impart powers on eighteen world leaders. But if she hopes having powers will transform the way politics works, she is sorely mistaken. This satirical, allegorical fantasy is nothing short of a political parody, following Ushaya and the world leaders through trade negotiations, politics, social issues, and environmental concerns. When they discover that there is more to these benevolent aliens than meets the eye, will they be able to put their petty differences aside and work together to save the world?

Tinderbox tells the exclusive, explosive, uninhibited true story of HBO and how it burst onto the American scene and screen to detonate a revolution and transform our relationship with television forever. The Sopranos, Game of Thrones, Sex and the City, The Wire, Succession...HBO has long been the home of epic shows, as well as the source for brilliant new movies, news-making documentaries, and controversial sports journalism. By thinking big, trashing tired formulas, and killing off cliches long past their primes, HBO shook off the shackles of convention and led the way to a bolder world of content, opening the door to all that was new, original, and worthy of our attention. In Tinderbox, award-winning journalist James Andrew Miller uncovers a bottomless trove of secrets and surprises, revealing new conflicts, insights, and analysis. As he did to great acclaim with SNL in Live from New York; with ESPN in Those Guys Have All the Fun; and with talent agency CAA in Powerhouse, Miller continues his record of extraordinary access to the most important voices, this time speaking with talents ranging from Abrams (J. J.) to Zendaya, as well as every single living president of HBO—and hundreds of other major players. Over the course of more than 750 interviews with key sources, Miller reveals how fraught HBO's journey has been, capturing the drama and the comedy off-camera and inside boardrooms as HBO created and mobilized a daring new content universe, and, in doing so, reshaped storytelling and upended our entertainment lives forever.

In this brooding, atmospheric mystery, John DeCure once again brings the seemingly disparate worlds of law and surfing together with engaging results. For J. Shepard, prosecuting attorney with the California State Bar Association, only one thing in his life keeps him centered: riding waves. When the surf is rising, J. has never had a problem coming up with an excuse to cut out of work. But with a new fiancée and a troubling internal audit beginning at work, J. has little time these days to hit the sand. When a legal mentor from his distant past washes up in his office stinking of alcohol and hoping for a second chance at life, J. drops everything, including his surfboard. But will he be able to help? The man is in deep trouble, and J. will have to use every tool at his disposal, both in the courtroom and on the beach, to get him out of it. A wrenching, suspenseful follow-up to John DeCure's critically acclaimed Reef Dance, Bluebird Rising is a taut novel sure to please established fans and new readers alike.

This new Handbook unites cartographic theory and praxis with the principles of cartographic design and their application. It offers a critical appraisal of the current state of the art, science, and technology of map-making in a convenient and well-

illustrated guide that will appeal to an international and multi-disciplinary audience. No single-volume work in the field is comparable in terms of its accessibility, currency, and scope. The Routledge Handbook of Mapping and Cartography draws on the wealth of new scholarship and practice in this emerging field, from the latest conceptual developments in mapping and advances in map-making technology to reflections on the role of maps in society. It brings together 43 engaging chapters on a diverse range of topics, including the history of cartography, map use and user issues, cartographic design, remote sensing, volunteered geographic information (VGI), and map art. The title's expert contributions are drawn from an international base of influential academics and leading practitioners, with a view to informing theoretical development and best practice. This new volume will provide the reader with an exceptionally wide-ranging introduction to mapping and cartography and aim to inspire further engagement within this dynamic and exciting field. The Routledge Handbook of Mapping and Cartography offers a unique reference point that will be of great interest and practical use to all map-makers and students of geographic information science, geography, cultural studies, and a range of related disciplines.

In the tradition of *The Higher Power of Lucky* and *Because of Winn Dixie*, a young girl deals with her mother's suicide in this riveting debut novel that explores love, loss, family, friendship, and redemption. In the summer of 1977, twelve-year-old Dulcie Louise Dixon arrives on the doorstep of her Aunt Bernie's farmhouse in Shepherdsville, Ohio, with no voice, a spelling bee trophy, a Webster's Dictionary, and a box full of ashes. She tries to adjust to her new situation, but can't forget the words she left behind or the mother she's lost to suicide. One day, Dulcie discovers a secret place: a swan's nest in the woods where at last, her broken world begins to mend. With the help of her surprising new friends—a guitar-playing runaway, a poetry-loving preacher, a one-armed gas station attendant, a singing seamstress, a chained-up hunting dog, and a family of swans—Dulcie is finally able to rise out of her sadness and grief to find her voice once again.

Ultion Vale is the city of eternal night, a place loathed by Rome, the city of Pure Light. However, a battle has never been fought between the two great cities, until now. Why though, after an eternity does Rome seek to destroy Ultion Vale and all those who live there? Lord Ruairi, leader of House Umbra in Ultion Vale seeks to ensure safety for those in his house, most of all Melcia. Melcia discovers there is a danger looming and seeks a way to protect all from it. What lies beneath Ultion Vale that makes it so powerful and dangerous? An ancient secret worth killing millions over?

Astronomy Explained Upon Sir Isaac Newton's Principles

Heera Watson is like any ordinary fifteen-year-old girl... not! Torn between the British way of life and her Indian heritage, she's the target of catty comments at school in Birmingham from Laura Foster, the 'It' girl at St Claire's, and her gang. Heera is constantly pressured at school to look and dress in certain ways, but all she has ever wanted is to be herself. Her journey to becoming the person she really wants to be starts when she finds three sacred crystals in a safe at home. This discovery puts thousands of lives in danger, and catapults Heera into a mind-blowing quest through the magical kingdom of Fallowmere. There, forging new friendships with people and creatures she never imagined could exist, Heera bravely confronts deadly challenges to save her loved ones from the devious Dark King, who will stop at nothing to carry out his evil schemes. Heera Watson and the Rise of the Dark King is a wonderfully imaginative tale of courage, friendship, battle and what it means to face your true destiny.

The Companions of the Ring have become involved in separate adventures as the quest continues. Aragorn, revealed as the hidden heir of the ancient Kings of the West, joined with the Riders of Rohan against the forces of Isengard, and took part in the desperate victory of the Hornburg. Merry and Pippin, captured by orcs, escaped into Fangorn Forest and there encountered the Ents. Gandalf returned, miraculously, and defeated the evil wizard, Saruman. Meanwhile, Sam and Frodo progressed towards Mordor to destroy the Ring, accompanied by Smagol - Gollum, still obsessed by his 'precious'. After a battle with the giant spider, Shelob, Sam left his master for dead; but Frodo is still alive - in the hands of the orcs. And all

the time the armies of the Dark Lord are massing. JRR Tolkien's great work of imaginative fiction has been labelled both a heroic romance and a classic fantasy fiction. By turns comic and homely, epic and diabolic, the narrative moves through countless changes of scene and character in an imaginary world which is totally convincing in its detail.

Taking the reader in the mountains and forests that the Americans called “ Indian country, ” Stevens presents the Viet Nam War as an extension of the romantic myth of the American frontier. In seven operations on the Ho Chi Minh Trail, the reader enters an exotic, exhilarating, terrifying world. Documented by military reports, Steven ’ s powerful and poetic prose and his complex examination of the Viet Nam War elevate his Trail journey into the realm of myth.

The Climate Planner is about overcoming the objections to climate change mitigation and adaption that urban planners face at a local level. It shows how to draft climate plans that encounter less resistance because they involve the public, stakeholders, and decisionmakers in a way that builds trust, creates consensus, and leads to implementation. Although focused on the local level, this book discusses climate basics such as carbon dioxide levels in the atmosphere, the Intergovernmental Panel on Climate Change, the Paris Agreement of 2015, worldwide energy generation forecasts, and other items of global concern in order to familiarize urban planners and citizen planners with key concepts that they will need to know in order to be able to host climate conversations at the local level. The many case studies from around the United States of America show how communities have encountered pushback and bridged the implementation gap, the gap between plan and reality, thanks to a commitment to substantive public engagement. The book is written for urban planners, local activists, journalists, elected or appointed representatives, and the average citizen worried about climate breakdown and interested in working to reshape the built environment.
