

including managing patient information, electronic medical records (EMR), insurance documentation, billing, and bookkeeping. In addition, chapter material and learning objectives are clearly mapped to ABHES, CAAHEP, and MAERB competencies, with an increased focus on professionalism and personal effectiveness, to help you hone practical, real-world skills and prepare for certification. The guide also supports effective learning with a variety of online resources to help you make the most of your study time, including interactive quizzes for self-assessment and the popular Critical Thinking Challenge application.

Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Medical Office Procedures 5e by Becklin is a text-workbook that introduces and describes the tasks of a medical assistant's career; teaches records management, medical communications, and scheduling skills; and describes procedures for preparing patients' charts and bills. Practice management and finances are also addressed. Multi-day simulations provide real-world experience with physician dictation.
