"Working On A Song is one of the best books about lyric writing for the theater I've read."—Lin-Manuel Miranda Anaïs Mitchell named to TIME's List of the 100 Most Influential People in the World of 2020 An illuminating book of lyrics and stories from HADESTOWN—the winner of eight Tony Awards, including Best Musical—from its author, songwriter Anaïs Mitchell with a foreword by Steve Earle On Broadway, this fresh take on the Greek myth of Orpheus and Eurydice has become a modern classic. Heralded as "The best new musical of the season," by The Wall Street Journal, and "Sumptuous. Gorgeous. As good as it gets," by The New York Times, the show was a breakout hit, with its poignant social commentary, and spellbinding music and lyrics. In this book, Anaïs Mitchell takes readers inside her more than decade's-long process of building the musical from the ground up—detailing her inspiration, breaking down the lyrics, and opening up the process of creation that gave birth to HADESTOWN. Fans and newcomers alike will love this deeply thoughtful, revealing look at how the songs from "the underground" evolved, and became the songs we sing again and again.

A thriller with attitude to spare, Bangkok 8 is a sexy, razor-edged, often darkly hilarious novel set in one of the world's most exotic cities. Witnessed by a throng of gaping spectators, a charismatic Marine sergeant is murdered under a Bangkok bridge inside a bolted-shut Mercedes Benz. Among the witnesses are the only two cops in the city not on the take, but within moments one is murdered and his partner, Sonchai Jitpleecheep—a devout Buddhist and the son of a Thai bar girl and a long-gone Vietnam War G.I.—is hell-bent on wreaking revenge. On a vigilante mission to capture his partner's murderer, Sonchai is begrudgingly paired with a beautiful FBI agent named Jones and captures her heart in the process. In a city fueled by illicit drugs and infinite corruption, prostitution and priceless art, Sonchai's quest for vengeance takes him into a world much more sinister than he could have ever imagined.

NOW A NETFLIX ORIGINAL SERIES A Warning from the Publisher: If you have come this far, it is likely too late. Readers who have experienced the first nine volumes in A Series of Unfortunate Events by Lemony Snicket are usually so weakened by their dreadful knowledge of the Baudelaire orphans' story that they spend most of their time moaning and weeping, and have no strength to read The Slippery Slope, The Grim Grotto, The Penultimate Peril, or The End. If, by chance, your moaning and weeping is more or less under control, there is no need to further risk your physical, emotional, and literary health by reading the four remaining volumes in the series. It would be better to regain your strength by spending your time indulging in less alarming activities, such as whistling or making cupcakes for the elderly. After all, this collection contains all of the calamities in the last four volumes of A Series of Unfortunate Events, including abandoned condiments, cigarette smoking, a shocking revelation, a ridiculous laugh, a fearsome storm, a herd of wild sheep, a truly haunting secret about the Baudelaire parents, another shocking revelation, and Phil. There is no need to expose yourself to such atrocities, not after all you've been through already.

In The Young and the Digital, S. Craig Watkins skillfully draws from more than 500 surveys and 350 in-depth interviews with young people, parents, and educators to understand how a digital lifestyle is affecting the ways youth learn, play, bond, and communicate. Timely and deeply relevant, the book covers the influence of MySpace and Facebook, the growing appetite for "anytime, anywhere" media and "fast entertainment," how online "digital gates" reinforce race and class divisions, and how technology is transforming America's classrooms. Watkins also debunks popular myths surrounding cyberpredators, Internet addiction, and social isolation. The result is a fascinating portrait, both celebratory and wary, about the coming of age of the first fully wired generation. From the Trade Paperback edition.

Winner of the 2020 Pulitzer Prize for Drama "To watch this show is to enter, by some urgent, bawdy magic, an ecstatic and infinitely more colorful version of the famous surreal lithograph by M. C. Escher: the hand that lifts from the page, becoming almost real, then draws another hand, which returns the favor. Which came first? A Strange Loop is complex, teasing, thrilling." —Vinson Cunningham, New Yorker Usher is a Black, queer writer, working a day job he hates while writing his original musical: a piece about a Black, queer writer, working a day job he hates while writing his original musical. This blistering musical follows a young artist at war with a host of demons—not least of which are the punishing thoughts in his own head—in an attempt to understand his own strange loop.

The longtime bass player for the Rolling Stones combines firsthand reminiscences with personal memorabilia to provide an insider's look at four decades of rock 'n' roll history.

If you loved Hidden Figures or The Rise of the Rocket Girls, you'll love Claire Evans' breakthrough book on the women who brought you the internet—written out of history, until now. "This is a radically important, timely work," says Miranda July, filmmaker and author of The First Bad Man. The history of the internet is more than just alpha nerds, programmers, and male garage-to-riches billionaires. Female visionaries have always been at the vanguard of technology and innovation. In fact, women turn up at the very beginning of every important wave in technology. They may have been hidden in plain sight, their inventions and contributions touching our lives in ways we don't even realize, but they have always been part of the story. In a world where tech companies are still male-dominated and women are often dissuaded from STEM careers, Broad Band shines a much-needed light on the bright minds history forgot, from pioneering database poets, data wranglers, and hypertext dreamers to glass ceiling-shattering dot com-era entrepreneurs. Get to know Ada Lovelace, who wove the first computer program in 1842, and Grace Hopper, the tenacious mathematician who democratized computing after World War II. Meet Elizabeth "Jake" Feinler, the one-woman Google who kept the earliest version of the Internet online, and Stacy Horn, the New York cyberpunk who ran one of the world's earliest social networks out of her New York City apartment in the 1980s. Join the ranks of the pioneers who defied social convention to become leaders of the tech revolution. This electrifying corrective to tech history introduces us all to our long-overlooked tech mothers and grandmothers—showing us that if there's a "boy's club" that dominates Silicon Valley today, it's an anachronism.

Examines the metaphoric phrases currently used to explain the workings and potential of the Internet, from the "information superhighway" to the "electronic marketplace," and their connection to ancient archetypes that have influenced thinking for millennia. UP.

Each title in The Applause Libretto Library Series presents a Broadway musical with fresh packaging in a 6 x 9 trade paperback format. Each Complete Book and Lyrics is approved by the writers and attractively designed with color photo inserts from the Broadway production.

All titles include introduction and foreword by renowned Broadway musical experts. Long before Dorothy dropped in, two other girls meet in the Land of Oz. One, born with emerald green skin, is smart, fiery, and misunderstood. The other is beautiful, ambitious, and very popular. The story of how these two unlikely friends end up as the Wicked Witch of the West and Glinda the Good Witch makes for the most spellbinding new musical in years.

A New York Review Books Original Whether you call her a coldhearted grifter or the soul of modern capitalism, there's no question that Aimée is a killer and a more than professional one. Now she's set her eyes on a backwater burg—where, while posing as an innocent (albeit drop-dead gorgeous) newcomer to town, she means to sniff out old grudges and engineer new opportunities, deftly playing different people and different interests against each other the better, as always, to make a killing. But then something snaps: the master manipulator falls prey to a pure and wayward passion. Aimée has become the avenging angel of her own nihilism, exacting the destruction of a whole society of destroyers. An unholy original, Jean-Patrick Manchette transformed the modern detective novel into a weapon of gleeful satire and anarchic fun. In Fatale he mixes equal measures of farce, mayhem, and madness to prepare a rare literary cocktail that packs a devastating punch.

The Untold Story of the Women Who Made the Internet

A portrait of three couples successively occupying a suite at the Plaza. A suburban couple take the suite while their house is being painted and it turns out to be the one in which they honeymooned 23 (or was it 24?) years before and was yesterday the anniversary, or is it today? This tale of marriage in tatters is followed by the exploits of a Hollywood producer who, after three marriages, is looking for fresh fields. He calls a childhood sweetheart, now a suburban housewife, for a little sexual diversion. Over the years she has idolized him from afar and is now more than the match he bargained for. The last couple is a mother and father fighting about the best way to get their daughter out of the bathroom and down to the ballroom where guests await her or as Mother yells, "I want you to come out of that bathroom and get married!"--Publisher's description.

Girls may be called "sluts" for any number of reasons, including being outsiders, early developers, victims of rape, targets of others' revenge. Often the labels has nothing to do with sex -- the girls simply do not fit in. An important account of the lives of these young women, Slut! weaves together powerful oral histories of girls and women who finally overcame their sexual labels with a cogent analysis of the underlying problem of sexual stereotyping. Author Leora Tanenbaum herself was labeled a slut in high school. The confessional article she wrote for Seventeen about the experience caused a sensation and led her to write this book.

From the bestselling author of Tides of Honour and Promises to Keep comes a poignant novel about a young couple caught on opposite sides of the Second World War. In the fall of 1939, Grace Baker's three brothers, sharp and proud in their uniforms, board Canadian ships headed for a faraway war. Grace stays behind, tending to the homefront and the general store that helps keep her small Nova Scotian community running. The war, everyone says, will be over before it starts. But three years later, the fighting rages on and rumours swirl about "wolf packs" of German U-Boats lurking in the deep waters along the shores of East Jeddore, a stone's throw from Grace's window. As the harsh realities of war come closer to home, Grace buries herself in her work at the store. Then, one day, a handsome stranger ventures into the store. He claims to be a trapper come from away, and as Grace gets to know him, she becomes enamoured by his gentle smile and thoughtful ways. But after several weeks, she discovers that Rudi, her mysterious visitor, is not the lonely outsider he appears to be. He is someone else

entirely—someone not to be trusted. When a shocking truth about her family forces Grace to question everything she has so strongly believed, she realizes that she and Rudi have more in common than she had thought. And if Grace is to have a chance at love, she must not only choose a side, but take a stand. Come from Away is a mesmerizing story of love, shifting allegiances, and second chances, set against the tumultuous years of the Second World War.

The concept of "Web 2.0" began with a conference brainstorming session between O'Reilly and MediaLive International. Dale Dougherty, web pioneer and O'Reilly VP, noted that far from having "crashed", the web was more important than ever, with exciting new applications and sites popping up with surprising regularity. What's more, the companies that had survived the collapse seemed to have some things in common. Could it be that the dot-com collapse marked some kind of turning point for the web, such that a call to action such as "Web 2.0" might make sense? We agreed that it did, and so the Web 2.0 Conference was born. In the year and a half since, the term "Web 2.0" has clearly taken hold, with more than 9.5 million citations in Google. But there's still a huge amount of disagreement about just what Web 2.0 means, with some people decrying it as a meaningless marketing buzzword, and others accepting it as the new conventional wisdom. This article is an attempt to clarify just what we mean by Web 2.0.

How To Get Any Prospect To Beg You For A Presentation

Ice Breakers!

Want to get your MLM and network marketing prospects to beg you for a presentation by using Ice Breakers? You can turn any warm or cold prospect into a hot prospect, wanting to know all about your business. How? By learning how to effectively introduce your business into a social conversation with an easy, rejection-free sequence of just a few words. Prospects want what you have to offer, but they are afraid of someone selling them. However, prospects love to buy and join. So why not use socially acceptable word sequences that compel any prospect to literally beg you for a presentation? This book contains several effective formulas with many examples of each formula that you can use or modify. Once we know how the formulas work, we can create unlimited Ice Breakers on-demand to use and pass on to our downline. Your distributors will no longer be afraid of prospecting; instead, they will love prospecting. It is much more fun when we are in control. Distributors want to work hard, but just don't know what to say. Their opening random remarks ruin their chances and they suffer bad experiences. That experience trains them to avoid prospecting. But with trained words and phrases, everything changes. Quick and positive results. Prospecting is fun again. Enjoy learning how to prospect negative people, positive people, relatives, co-workers, strangers, leads, cold prospects ... anyone, by using fun Ice Breakers that even the prospects enjoy. Spend the entire week giving presentations, instead of spending the entire week looking for someone to talk to. And never again will you have to hear one of your distributors complain, "I just don't have anyone to talk to." Ice Breakers are the best way to energize your MLM and network marketing business. How to Develop Self-Discipline, Resist Temptations and Reach Your Long-Term Goals If you want to make positive changes in your life and achieve your long-term goals, I can't think of a better way to do it than to learn how to become more self-disciplined. Science has figured out a lot of interesting aspects of self-discipline and willpower, but most of this knowledge is buried deep inside long and boring scientific papers. If you'd like to benefit from these studies without actually reading them, this book is for you. I've done the job for you and researched the most useful and viable scientific findings that will help you improve your self-discipline. Here are just a couple things you will learn from the book: - what a bank robber with lemon juice on his face can teach you about self-control. The story will make you laugh out loud, but its implications will make you think twice about your ability to control your urges. - how \$50 chocolate bars can motivate you to keep going when faced with an overwhelming temptation to give in. - why President Obama wears only gray and blue suits and what it has to do with self-control (it's also a possible reason why the poor stay poor). - why the popular way of visualization can actually prevent you from reaching your goals and destroy your self-control (and what to do instead). - what dopamine is and why it's crucial to understand its role to break your bad habits and form good ones. - 5 practical ways to train your self-discipline. Discover some of the most important techniques to increase your self-control and become better at resisting instant gratification. - why the status quo bias will threaten your goals and what to do to reduce its effect on your resolutions. - why extreme diets help people achieve long-term results, and how to apply these findings in your own life. - why and when indulging yourself can actually help you build your self-discipline. Yes, you can stuff yourself (from time to time) and still lose weight. Instead of sharing with you the detailed "why" (with confusing and boring descriptions of studies), I will share with you the "how" - advice that will change your life if you decide to follow it. You too can master the art of self-discipline

and learn how to resist temptations. Your long term goals are worth it. Scroll up and buy the book now. As a gift for buying my book, you'll get my another book, "Grit: How to Keep Going When You Want to Give Up." 'We cannot imagine life now without a mobile phone' is a frequent comment when Africans are asked about mobile phones. They have become part and parcel of the communication landscape in many urban and rural areas of Africa and the growth of mobile telephony is amazing: from 1 in 50 people being users in 2000 to 1 in 3 in 2008. Such growth is impressive but it does not even begin to tell us about the many ways in which mobile phones are being appropriated by Africans and how they are transforming or are being transformed by society in Africa. This volume ventures into such appropriation and mutual shaping. Rich in theoretical innovation and empirical substantiation, it brings together reflections on developments around the mobile phone by scholars of six African countries (Burkina Faso, Cameroon, Ghana, Mali, Sudan and Tanzania) who explore the economic, social and cultural contexts in which the mobile phone is being adopted, adapted and harnessed by mobile Africa.

A deeply moving tragicomic graphic memoir about a single woman's efforts to conceive in her forties. A few months after Myriam Steinberg turned forty, she decided she couldn't wait any longer to become a mother. She made the difficult decision to begin the process of conceiving a child without a partner. With her family and friends to support her, she picked a sperm donor and was on her way. But Myriam's journey was far from straightforward. She experienced the soaring highs and devastating lows of becoming pregnant and then losing her babies. She grappled with the best decision to make when choosing donors or opting for a medical procedure. She experienced first-hand the silences, loneliness, and taboos that come with experiences of fetal loss. Unafraid to publicize her experiences, though, she found that, in return, friends and strangers alike started sharing their own fertility stories with her. Although the lack of understanding and language around fetal loss and grief often made it very hard to navigate everyday life, she nonetheless found solace in the community around her who rallied to support her through her journey. Through it all, Myriam remained hopeful and here she unflinchingly shares her story with wry humour, honesty, and courage. Beautifully illustrated by Christache Ross, *Catalogue Baby* is one woman's story of tragedy and beating the odds, and is a resource for all women and couples who are trying to conceive. *Catalogue Baby* is a compassionate portrait of fertility and infertility that hasn't been seen before.

This volume puts together the works of a group of distinguished scholars and active researchers in the field of media and

communication studies to reflect upon the past, present, and future of new media research. The chapters examine the implications of new media technologies on everyday life, existing social institutions, and the society at large at various levels of analysis. Macro-level analyses of changing techno-social formation – such as discussions of the rise of surveillance society and the "fifth estate" – are combined with studies on concrete and specific new media phenomena, such as the rise of Pro-Am collaboration and "fan labor" online. In the process, prominent concepts in the field of new media studies, such as social capital, displacement, and convergence, are critically examined, while new theoretical perspectives are proposed and explicated. Reflecting the inter-disciplinary nature of the field of new media studies and communication research in general, the chapters interrogate into the problematic through a range of theoretical and methodological approaches. The book should offer students and researchers who are interested in the social impact of new media both critical reviews of the existing literature and inspirations for developing new research questions.

THE STORY: Darren Lemming, the star center fielder of the world champion New York Empires, is young, rich, famous, talented, handsome and so convinced of his popularity that when he casually announces he's gay, he assumes the news will be readily a In 1982 New York, seventeen-year-old Marianne is teetering at the edge of reason. A death in the family sends her brilliant academic career and promising future spiraling out of control until past resentments leads her on a wild and desperate search for the truth about herself. In her new life, she finds anarchic squalor, home grown music and poetry, booze, drugs, sex, violence, love, loss and, above all, exhilarating freedom on her troubled journey from sleep to awakening.
